Painful Consequences:

Tranquillity Leading to Insight Chulan Sampathge, 2022-08-28 This book explores the theme of meditation practices. This subject is approached in a realistic manner whilst using historical settings to emphasise the power of the mind and the importance of training the mind to stay in the present moment. To find true happiness one needs to find the path leading to it. The principal aim of this book is to explain the practical application of Mindfulness to achieving spiritual awakening and ending suffering. This book also demonstrates the continued relevance of Buddhist teachings with regard to overcoming the psychological ramifications that obstruct the way to happiness. Distilled into twenty-two chapters using readily accessible language, this is a concise and comprehensive guide. With reference to a range of similar texts, this book reveals how to extract the pure gold of consciousnesses as was taught by the enlightened Buddha. Grounded in profound scholarship and Buddhist philosophical psychology, the book brings these ancient teachings to the modern world. This book also explores the historical times of the Buddha and shares the story of the cultural awakening that took place across South and South East Asia after his enlightenment.

To Relieve the Pain Daniel Linder, 2006-06 Demystifying Addiction presents a Relational model picking up where the Medical model left off. The disease was defined as a pathological dependence but was never viewed in terms of being a pathological relationship or as the result of non emotionally nourishing relationships. The pathological dependency is a pathological relationship one in which there is a beginning progressive emotional involvement and a synergistic interplay between dependence and denial. It accounts for etiology, identifies pre-existing conditions, brings forth a phenomenological or experiential perspective, all of which have profound treatment implications.

How Far Can We Go? Pain, Excess and the Obscene Maddalena Mazzocut-Mis, 2012-01-17 The public does not desire horror yet enjoys it in art and suffers it in life. When we deal with the monstrous marriage of the abject and the sublime, the consequent thrill of enjoyment is never appeased, always problematic, often unresolved, and finally borders on physiological if not pathological narcissism. The public is well acquainted with this rhetoric of effects, rhetoric of extreme effects which transforms the spectator into voyeur or victim into an apathetic torturer whenever cruelty is shown without respite. A look of horror greets the enjoyment of extremes and enjoyment to the extreme as well. The Eighteenth Century teaches us that lesson. The century of good taste elaborates a sense of the limits since representing horror means choosing not so much to domesticate it as to render it more enjoyable. It is a game of limits that are not limits anymore as we can allude to an infinity that often shows the features of the sublime.
