The Literary Beach Carsten Meiner, Katrine Helene Andersen, 2024-05-08 As a geo historical place the beach integrates a variety of characteristics and functions so multiple that they tend to contradict each other The beach is both a place of work and trade but also of leisure it is both a place of therapy and health but also of migration war and death it is a place of mass tourism and boredom but also the place of experiencing the Other it is a public place but also an uncivilized and desolate place This book studies the literary representation of the beach from ancient Greek literature up until today drawing on English French Italian American and Spanish literatures from various periods and genres and presenting multiple ways of comparing and understanding literary beaches as a ubiquitous literary phenomenon It demonstrates how the literary beach as a both geo historical place and as an aesthetic literary commonplace has been a constant and privileged resource for the analysis of more general existential sociological and moral problems This is the case when for instance the Tahitian beach becomes the place of the already modern in Stevenson's tales or when the Italian beach becomes a question of modern feminism in Ferrante In this sense literature expands the local or national beach by articulating its transnational complexities

International Order at Sea Jo Inge Bekkevold, Geoffrey

Till, 2016-10-15 This book examines how international order at sea is challenged, changed and maintained. The book surveys challenges to the international order at sea in the Asia Pacific, the Indian Ocean Region, the Atlantic Ocean and the Arctic Ocean. It explores the interaction between and cooperation among leading emerging and smaller naval powers, both naval and coastguard responses required for the maintenance of good order at sea. Six broad and interlinked issues are identified that will influence the future international order at sea: the balance between the maritime and the continental domains; the balance between great power rivalry and cooperation; the contest between access and denial; the operational balance between preparing, building and training for warfighting as opposed to operations other than war; how to manage disorder; security challenges that very often transcend territorial waters and national boundaries; and finally the balance between safeguarding national interests and contributing to collective efforts preserving the international order at sea. **John Dowie** John Dowie, 2001 With a full color gallery of artist John Dowie's works, this exciting new book celebrates eight decades of artistic achievement by a great Australian sculptor, painter and writer. Editor Tracey Lock Weir charts Dowie's progress over the years and her informative essay is illuminated by John Dowie's own humorous writings. **Notices of Mariners. ...** U.S.A. Navy Department.
