Negotiating the Art of Fatherhood in Late Medieval and Early Modern Italy Juliann Vitullo, 2019-11-14 *Negotiating the Art of Fatherhood in Late Medieval and Early Modern Italy* examines contested notions of fatherhood in written and visual texts during the development of the mercantile economy in fourteenth and fifteenth century Italy It analyzes debates about the household and community management of wealth emotion and trade in luxury goods including enslaved women as moral questions Juliann Vitullo considers how this mercantile economy affected paternity and the portraits of ideal fatherhood

which in some cases reconceived the role of fathers and in others reconfirmed traditional notions of paternal authority

UNTOLD HISTORY Bernadine E. Ahonkhah, ED. D, 2025-01-06 **UNTOLD HISTORY** illustrates how African history is intertwined with and foundational to American history. The book begins this narrative in the fourteenth century when European seafarers discovered the coastal regions of Africa, describes the meeting of the three worlds: Europe, Africa, and the New World, later known as America, and details the increasing interactions of the three worlds after the 1450s. The author dispels some of the misconceptions about pre-colonial Africa by presenting the history and culture of the African continent from a distinctively African lens. As such, this book chronicles some prominent African empires and kingdoms, Africa's European bilateral trade relations, the trans-Atlantic Slave trade, and contemporary Africans in the United States. The book highlights stories of contemporary Africans residing in the United States and documents the contributions of early and contemporary Africans to the history, economic development, culture, and prominence of the United States of America. It concludes with a snapshot of contemporary Africa. The book provides a framework for understanding the history of Africa prior to the arrival of European merchants on its shores, African civilizations, cultures, legacy, and contributions to American history. Educators can use the book to supplement their course on American History, World History, African American History, in pre-collegiate or collegiate settings. This book can help educators to reimagine the teaching and learning of the United States history by centering on important narratives in Africa and with Africans in the American diaspora. The book is organized chronologically and can help the reader to understand the past as it relates to the present world. To facilitate teaching, each chapter opens with a quotation that introduces the content of the chapter and ends with study discussion questions that educators can use or adapt as appropriate for instruction and to ensure full comprehensive understanding of the content presented.

Art, Power, and Resistance in the Middle Ages Pamela A. Patton, 2025-01-07 This volume addresses a vital point of intersection between images in the Middle Ages and those in the modern world: the potential of medieval works of art to convey messages of power and resistance. Provoked by the misuse of medieval imagery in modern discussions, the contributors to this volume assess how medieval images connect to discourses of power in both the past and the present. The contributors each began with a single question: In the eyes of their makers and viewers, how were medieval images understood to assert or to resist forces of power? Their case studies come from a wide range of cultural, geographic, and historical contexts: the Byzantine, Ottonian, and Valois courts; the Umayyad and Castilian regimes of the Iberian Peninsula; the pluralistic military and commercial zones of the eastern Mediterranean; and the metaphorical as well as personal battlegrounds linked to medieval courtly love culture. Over eight chapters, the authors highlight patterns of visual rhetoric still evident in art today. They invite readers to contemplate how modern priorities and sensibilities might amplify, mute, or transform the discourses related to power and resistance that were threaded through the visual culture of the Middle Ages. This insightful book should be of value to anyone interested in medieval art history and art's relationship to power and

authority in society In addition to the editor the contributors include Heather A Badamo Elena N Boeck Thomas E A Dale Martha Easton Eliza Garrison Anne D Hedeman Tom Nickson and Avinoam Shalem **Medieval and Early Modern**

Representations of Authority in Scotland and the British Isles Kate Buchanan, Lucinda H.S. Dean, 2016-05-20 What use is it to be given authority over men and lands if others do not know about it Furthermore what use is that authority if those who know about it do not respect it or recognise its jurisdiction And what strategies and language written and spoken visual and auditory material cultural and political did those in authority throughout the medieval and early modern era use to project and make known their power These questions have been crucial since regulations for governance entered society and are found at the core of this volume In order to address these issues from an historical perspective this collection of essays considers representations of authority made by a cross section of society within the British Isles Arranged in thematic sections the 14 essays in the collection bridge the divide between medieval and early modern to build up understanding of the developments and continuities that can be followed across the centuries in question Whether crown or noble government or church burgh or merchant all desired power and influence but their means of representing authority were very different These essays encompass a myriad of methods demonstrating power and disseminating the image of authority including material culture art literature architecture and landscapes saintly cults speeches and propaganda martial posturing and strategic alliances music liturgy and ceremonial display Thus this interdisciplinary collection illuminates the variable forms in which authority was presented by key individuals and institutions in Scotland and the British Isles By placing these within the context of the European powers with whom they interacted this volume also underlines the unique relationships developed between the people and those who exercised authority over them Handbook of Medieval Sexuality Vern L.

Bullough, James Brundage, 2013-01-11 Like specialists in other fields in humanities and social sciences medievalists have begun to investigate and write about sex and related topics such as courtship concubinage divorce marriage prostitution and child rearing The scholarship in this significant volume asserts that sexual conduct formed a crucial role in the lives thoughts hopes and fears both of individuals and of the institutions that they created in the middle ages The absorbing subject of sexuality in the Middle Ages is examined in 19 original articles written specifically for this Handbook by the major authorities in their scholarly specialties The study of medieval sexuality poses problems for the researcher indices in standard sources rarely refer to sexual topics and standard secondary sources often ignore the material or say little about it Yet a vast amount of research is available and the information is accessible to the student who knows where to look and what to look for This volume is a valuable guide to the material and an indicator of what subjects are likely to yield fresh scholarly rewards

Transforming the Church Interior in Renaissance Florence Joanne Allen, 2022-05-05 Before the late sixteenth century the churches of Florence were internally divided by monumental screens that separated the laity in the nave from the clergy in the choir precinct Enabling both separation and mediation these screens were impressive artistic structures

that controlled social interactions facilitated liturgical performances and variably framed or obscured religious ritual and imagery In the 1560s and 70s screens were routinely destroyed in a period of religious reforms irreversibly transforming the function meaning and spatial dynamics of the church interior In this volume Joanne Allen explores the widespread presence of screens and their role in Florentine social and religious life prior to the Counter Reformation She presents unpublished documentation and new reconstructions of screens and the choir precincts which they delimited Elucidating issues such as gender patronage and class her study makes these vanished structures comprehensible and deepens our understanding of the impact of religious reform on church architecture
