Painting in the Far East Laurence Binyon, 1923 **Painting in the Far East** Laurence Binyon, 2015-06-16 Excerpt from *Painting in the Far East An Introduction to the History of Pictorial Art in Asia Especially China and Japan* The first edition of this book was published five years ago In the interval much has happened A quantity of new material has been brought to light interest in the subjects has everywhere grown and widened In most of the countries of the West collectors are beginning to collect seriously and studiously and no longer with a haphazard curiosity specimens of the classic art of China and Japan Museums begin to realise that these things are worthy of acquisition for their own sake and not merely as illustrations of ethnography or religion At this moment an entire museum exclusively devote to the art of Eastern Asia and built expressly for the purpose is being opened at Cologne The example will doubtless be followed It is a sign of the times It is now possible therefore in Europe and America to get some first hand acquaintance with Asian painting both of early and modern times But as I pointed out in the preface to the first edition of this book the student who cannot make the journey to the Far East will find indispensable the immense series of reproductions published in Japan About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

 Louise Williams explores the nature of historical memory in the work of five major Modernists Yeats Pound Hulme Ford and
 Lawrence These Modernists Williams argues started their careers with historical assumptions derived from the nineteenth
 century But their views on the universal structure of history on the abandonment of progress and the adoption of a cyclical
 sense of the past were the result of important conflicts and changes within the Modernist period Williams focuses on the
 period immediately before World War I and shows in detail how Modernism developed and why it is considered a unique
 intellectual movement She also revisits the theory that the Edwardian age was a difficult period of transition to the modern
 world Finally she illuminates the contribution of non Western culture to the literature and thought of the period This wide
 ranging and inter disciplinary study is essential reading for literary and cultural historians of the modernist period The
