techniques and practices The essays show that music itself performed and created knowledge in ways parallel to myth and worked in tandem with old and new tales to construct social political and philosophical views This relationship was not static however as the Enlightenment dawned the once authoritative gods became comic characters and myth became a medium forridicule Overall the book provides a foundation for exploring myth and story throughout medieval and early modern culture and facilitating further study into the Enlightenment and beyond KATHERINE BUTLER is a seniorlecturer in music at Northumbria University SAMANTHA BASSLER is a musicologist of cultural studies a teaching artist and an adjunct professor in the New York metropolitan area Contributors Jamie Apgar Katie Bank Samantha Bassler Katherine Butler Elina G Hamilton Sigrid Harris Ljubica Ilic Erica Levenson John MacInnis Patrick McMahon Aurora Faye Martinez Jacomien Prins Tim Shephard Jason Stoessel Frdia J Stone Davis Amanda Eubanks Winkler Things and Thingness in European Literature and Visual Art, 700–1600 Jutta Eming, Kathryn Starkey, 2021-12-06 The eleven chapters in this international volume draw on a variety of theoretical and methodological approaches to focus our attention on medieval and early modern things ca 700 1600 The range of things includes actual objects the Altenburg Crucifixion a copy of Hieronymus Brunschwig s Liber de arte distillandi a pilgrim s letter imagined objects a prayed cloak for the Virgin Mary and narrative objects in texts the Alliterative Morte Arthure the Ordene de Chevalerie Hartmann von Aue s Erec Heinrich of Neustadt s Apollonius of Tyre Lu s de Cam es s Os Lus adas and the vita of Saint Guthlac Each in its own way the papers consider how things do what they do in texts and art often foregrounding the intersection between the material and the immaterial by exploring such questions as how things act how they express power and how texts and images represent them Medieval and early modern things are repeatedly shown to be more than symbolic or passive they are agentive and determinative in both their intra and extradiegetic worlds The things that are addressed in this volume are varied and are embedded or entangled in different contexts and societies Tendencies of Gothic in Florence Gaudenz Freuler, 1997 A and yet they share a concerted engagement in human life companion volume to Andrea Bonaiuti this text offers detailed information on the work of Don Silvestro dei Gherarducci a celebrated Italian book illustrator of the late 14th century and the impact of his gothicizing tendencies on the Giottesque Public Painting and Visual Culture in Early Republican Florence George Bent, 2017-01-16 Street corners tradition guild halls government offices and confraternity centers contained paintings that made the city of Florence a visual jewel at precisely the time of its emergence as an international cultural leader This book considers the paintings that were made specifically for consideration by lay viewers as well as the way they could have been interpreted by audiences who approached them with specific perspectives Their belief in the power of images their understanding of the persuasiveness of pictures and their acceptance of the utterly vital role that art could play as a propagator of civic corporate and individual identity made lay viewers keenly aware of the paintings in their midst Those pictures affirmed the piety of the people for whom they were made in an age of social and political upheaval as the city experimented with an imperfect form of
