Marter, 2007 A collection of essays that discuss abstract expressionist art **Architecture and Abstraction** Pier Vittorio Aureli, 2023-11-07 A landmark study of abstraction in architectural history theory and practice that challenges our assumptions about the meaning of abstract forms In this theoretical study of abstraction in architecture the first of its kind Pier Vittorio Aureli argues for a reconsideration of abstraction its meanings and its sources Although architects have typically interpreted abstraction in formal terms the purposeful reduction of the complexities of design to its essentials Aureli shows that abstraction instead arises from the material conditions of building production In a lively study informed by Walter Benjamin Karl Marx Alfred Sohn Rethel and other social theorists this book presents abstraction in architecture not as an aesthetic tendency but as a movement that arises from modern divisions of labor and consequent social asymmetries These divisions were anticipated by the architecture of antiquity which established a distinction between manual and intellectual labor and placed the former in service to the latter Further abstractions arose as geometry used for measuring territories became the intermediary between land and money and eventually produced the logic of the grid In our own time architectural abstraction serves the logic of capitalism and embraces the premise that all things can be exchanged even experience itself is a commodity To resist this turn Aureli seeks a critique of architecture that begins not by scaling philosophical heights but by standing at the ground level of material practice **Haecceities: Essentialism, Identity, and Abstraction** Jeffrey Strayer, 2017-01-23 Haecceities Essentialism Identity and Abstraction is both an artistic and philosophical examination of the limits of Abstraction in art and of kinds of radical identity that are determined in the identification of those limits Building on his work Subjects and Objects Strayer shows how the fundamental conditions of making and apprehending works of art can be used in concert with language thought and perception as material for producing the more Abstract and radical artworks possible Certain limits of Abstraction and possibilities of radical identity are then identified that are critically and philosophically considered They prove to be so extreme that the concepts artwork abstraction identity and object in art philosophy and philosophy of art have to be reconsidered *Museum Skepticism* David Carrier, 2006-05-31 Prominent art historian looks at the birth of the art museum and contemplates its future as a public institution **Fruits of Her Plume: Essays on Contemporary Russian Women's Culture** Helena Goscilo, 2015-05-20 The 1980s witnessed the ascendancy of Russian

women in multiple spheres of artistic creation including literature film and painting This volume may thus be said to engage not only women s artistic production but indeed the best and most colourful of recent Russian culture Treating contemporary Russian women s creativity it approaches women s texts films and canvasses from a range of perspectives from anti gendered to feminist Some of the essays introduce writers not previously well studied others challenge conventional interpretations and assumptions while still others yield original viewpoints through novel juxtapositions In addition to offering insights into the various artists under analysis the essays map the wide terrain of issues and methodologies proliferating in cultural criticism today and mirror the diversity that is one of the most appealing features of women s creativity in contemporary Russia

Painting as Model Yve-Alain Bois,1993-05-04 Informed by both structuralism and poststructuralism these essays by art critic and historian Yve Alain Bois seek to redefine the status of theory in modernist critical discourse Warning against the uncritical adoption of theoretical fashions and equally against the a priori rejection of all theory Bois argues that theory is best employed in response to the specific demands of a critical problem The essays lucidly demonstrate the uses of various theoretical approaches in conjunction with close reading of both paintings and texts
