Hijmans, 2024-04-02 With this analysis of Sol images Steven E Hijmans paints a new picture of the solar cult in ancient Rome The paucity of literary evidence led Hijmans to prioritize visual sources and he opens this study with a thorough discussion of the theoretical and methodological issues involved Emphasizing the danger of facile equivalencies between visual and verbal meanings his primary focus is Roman praxis manifest in for instance the strict patterning of Sol imagery These patterns encode core concepts that Sol imagery evoked when deployed and in those concepts we recognize the bedrock of Rome's understandings of the sun and his cult Case studies illustrate these concepts in action and the final chapter analyzes the historical context in which previous now discredited views on Sol could arise This is volume II of a two volume set      Collections of Painting in Madrid, 1601-1755 (Parts 1 and 2) Marcus B. Levy, 2019-05-07 This book undertakes a critical reappraisal of Minimalism through an examination of three key painters Robert Mangold David Novros and Jo Baer By establishing their substantive engagements with Minimalist discourse as well as their often overlooked artistic exchanges with their sculptor peers it demonstrates that painting crucially informed the movement's development serving not only as an object of critique but also as a crucible for its most central tenets It also poses broader disciplinary implications as it historicizes and challenges Minimalism's death of painting critiques that have been so influential to theories of modernism and postmodernism in the visual arts      Drawing from the Modern Jodi Hauptman, Gary Garrels, Museum of Modern Art (New York, N.Y.), 2004 Published on the occasion of the exhibition held at the Museum of Modern Art New York Mar 30 Aug 29 2005      **In & Out of Amsterdam** Christophe Cherix, 2009 During the 1960s 1970s Amsterdam was a nexus of intense art activities drawing artists from all over the world In Out Of Amsterdam presents more than 120 works including works on paper installations photographs films by artists who were part of this remarkable creative culture      Annual Reports of the Utah Art Institute Utah State Institute of Fine Arts, 1907      The Emergence of the African-American Artist Joseph D. **A Concise History Of American Painting And Sculpture** Matthew Baigell, 2018-02-23 This clear, thorough and reliable survey of American painting and sculpture from colonial times to the present day covers all the major artists and their works, outlines the social and cultural backgrounds of each period and includes 409 illustrations integrated with the text. Although some determining factors in American art are considered, Matthew Baigell views the rich and diverse achievements of American art as the result of the efforts and talents of a pluralistic society rather than as fitting into a particular mold. This edition includes corrections and revisions to the text, an updated bibliography and 13 new illustrations.

A Contested Art Stephanie Lewthwaite, 2015-10-01 When New Mexico became an alternative cultural frontier for avant-garde Anglo-American writers and artists in the early twentieth century, the region was still largely populated by Spanish-speaking Hispanos. Anglos who came in search of new personal and aesthetic freedoms found inspiration for their modernist ventures in Hispano art forms. Yet when these arrivistes elevated a particular model of Spanish colonial art through their preservationist endeavors and the marketplace, practicing Hispano artists found themselves working under a new set of patronage relationships and under new aesthetic expectations that tied their art to a static vision of the Spanish colonial past. In *A Contested Art*, historian Stephanie Lewthwaite examines the complex Hispano response to these aesthetic dictates and suggests that cultural encounters and appropriation produced not only conflict and loss but also new transformations in Hispano art as the artists experimented with colonial art forms and modernist trends in painting, photography and sculpture. Drawing on native and non-native sources of inspiration, they generated alternative lines of modernist innovation and mestizo creativity. These lines expressed Hispanos' cultural and ethnic affiliations with local Native peoples and with Mexico and presented a vision of New Mexico as a place shaped by the fissures of modernity and the dynamics of cultural conflict and exchange. A richly illustrated work of cultural history, this first book-length treatment explores the important yet neglected role Hispano artists played in shaping the world of modernism in twentieth-century New Mexico. *A Contested Art* places Hispano artists at the center of narratives about modernism while bringing Hispano art into dialogue with the cultural experiences of Mexicans, Chicanas/os and Native Americans. In doing so, it rewrites a chapter in the history of both modernism and Hispano art. Published in cooperation with The William P. Clements Center for Southwest Studies, Southern Methodist University.
