**Pakistan's Counterterrorism Challenge** Moeed Yusuf, 2014-02-18 Pakistan which since 9 11 has come to be seen as one of the world's most dangerous places and has been referred to as the epicenter of international terrorism faces an acute counterterrorism CT challenge The book focuses on violence being perpetrated against the Pakistani state by Islamist groups and how Pakistan can address these challenges concentrating not only on military aspects but on the often ignored political legal law enforcement financial and technological facets of the challenge Edited by Moeed Yusuf of the US Institute of Peace and featuring the contributions and insights of Pakistani policy practitioners and scholars as well as international

specialists with deep expertise in the region the volume explores the current debate surrounding Pakistan's ability and incentives to crack down on Islamist terrorism and provides an in-depth examination of the multiple facets of this existential threat confronting the Pakistani state and people. The book pays special attention to the non-traditional functions of force that are central to Pakistan's ability to subdue militancy but which have not received the deserved attention from the Pakistani state nor from western experts. In particular, this path-breaking volume, the first to explore these various facets holistically, focuses on the weakness of political institutions, the role of policing, criminal justice systems, choking financing for militancy, and regulating the use of media and technology by militants. Military force alone, also examined in this volume, will not solve Pakistan's Islamist challenge. With original insights and attention to detail, the authors provide a roadmap for Western and Pakistani policymakers alike to address the weaknesses in Pakistan's CT strategy.

**Pakistan's National Security Approach and Post-Cold War Security** Arshad Ali, 2021-03-31. This book analyzes the paradox that despite being a national security state, Pakistan has become even more insecure in the post-Cold War era. It provides an in-depth analysis of Pakistan's foreign and security policies and their implications for the overall state and society. The book identifies the immediate security challenges to Pakistan and charts the distinctive evolution of Pakistan's national security state in which the military elite became the dominant actor in the political sphere of government during and after the Cold War period. By examining the national security state, militarization, democracy, and security proxy wars, and the hyper-military industrial complex, the author illustrates how the vanguard role of the military created considerable structural, sociopolitical, economic, and security problems in Pakistan. Furthermore, the author argues that the mismatch between Pakistan's national security stance and the transformed security environment has been facilitated and sustained by the embedded interests of the country's military industrial complex. A critical evaluation of the role of the military in the political affairs of the government and how it has created structural problems for Pakistan, this book will be of interest to academics in the field of South Asian Politics and Security, South Asian Foreign and Security Policy, International Relations, Asian Security, and Cold War Studies.
