Let's Read is a simple and systematic way to teach basic reading. Developed by noted linguist Leonard Bloomfield, the book is based on the alphabetic spelling patterns of English. Bloomfield offered an antidote to the idea that English is a difficult language to learn to read by teaching the learner to decode the phonemic sound-letter correlations of the language in a sequential logical progression of lessons based on its spelling patterns. The learner is first introduced to the most consistent alphabetic vocabulary and then to increasingly less alphabetic and less frequent spelling patterns within a vocabulary of about 5,000 words.

Volume 8 of the dictionary deals with words beginning with PA.
