Christianity and Process Thought Joseph A. Bracken, 2008-03-16 Joseph A Bracken S J introduces the process relational metaphysics of Alfred North Whitehead and other process theologians as he tries to reconcile the sometimes conflicting views of traditional Christian doctrines and the modern scientific world To present this material in an accessible manner to a wider audience Bracken reworks Whitehead's model of the God world relationship showing that God is involved in an ongoing ever changing relationship with humans and other creatures He also

discusses the work of other contemporary theologians to help Christians come to terms with their role in our multi dimensional pluralistic society Bracken examines divine and human creativity the collective power of good and evil divine providence and human freedom prayer altruism and the basic question What is truth He shows how Whitehead s process thought approach to these issues can in fact harmonize traditional Christian beliefs and contemporary culture benefiting both faith and reason Understanding the God world relationship subtly influences our attitude toward ourselves toward other human beings and indeed toward all of God s creatures says Bracken His revision of Whitehead s metaphysical vision in terms of a cosmic community shows how modern views of the world and God can be accepted and kept in balance with the traditional biblical views found in the Christian faith and how this balance can help Christians make better choices in a world shaped both by contemporary natural science and by traditional Christian spirituality *Speaking of a Personal God* Vincent Brümmer,1992-11-05 This short work written by an influential philosopher of religion shows how systematic theology is itself largely a philosophical enterprise *God, Knowledge, and Mystery* Peter Van Inwagen,2019-05-15 In a book that will appeal to a general audience as well as philosophers of religion a leading metaphysician tackles fundamental theological problems in a lucid and engaging manner Peter van Inwagen begins with a provocative new introduction exploring the question of whether a philosopher such as himself is qualified to address theological matters The chapters that follow take up the central problem of evil in a world created and sustained by God *Christian Philosophical Theology* Stephen T. Davis,2016-03-24 Christian Philosophical Theology constitutes a Christian philosopher s look at various crucial topics in Christian theology including belief in God the nature of God the Trinity christology the resurrection of Jesus the general resurrection redemption and theological method The book is tightly argued and amounts to a coherent explanation of and case for the Christian world view Although written from a broadly Reformed Protestant perspective and although the author does not avoid controversial topics his aim is to present a merely Christian world view to adapt slightly C S Lewis s famous term That is he attempts to write as much as possible from the perspective of the broad centre of Christian understanding **The Oxford Handbook of Philosophical Theology** Thomas P. Flint,Michael Rea,2011-03-17 Philosophical theology aims at achieving a theoretical understanding of the nature and attributes of God and of God s relationship to the world and its inhabitants Contains twenty six new essays in five sections Theological Prolegomena Divine Attributes God and Creation Topics in Christian Philosophy and Non Christian Philosophical Theology [Systematic Philosophical Theology, Volume 2b](#) William Lane Craig,2025-10-06 Presents a transformative journey through Christian doctrine William Lane Craig s Systematic Philosophical Theology is a multi volume explication of Christian doctrine in the classic Protestant tradition of the loci communes as seen through the lens of contemporary analytic philosophy Uniquely blending the disciplines of biblical theology historical theology and analytic theology these volumes aim to provide readers with a biblical and philosophically coherent articulation of a wide range of Christian doctrines Volume II treats the locus On God in two parts The first part

Volume IIa Attributes of God explores the coherence of theism. Conceiving of God as an infinite and personal being of maximal greatness, Craig carefully defines and explicates the divine attributes of incorporeality, necessity, aseity, simplicity, eternality, omnipresence, omniscience, omnipotence, and goodness. In the second part, Volume IIb, Excursus on Natural Theology On the Trinity, Craig examines six arguments for God's existence, including the argument from contingency, the kalām cosmological argument, the argument from the applicability of mathematics, the argument from cosmic fine-tuning, the moral argument, and the ontological argument, along with the problem of evil. Following the excursus, he transitions to an articulation and defense of Christian theism, formulating a biblical doctrine of the Trinity and offering a model of God as a tripersonal soul. This work contributes to a diverse theological landscape with fresh perspectives on traditional concepts, integrates insights from authoritative Scriptures and diverse secular disciplines, provides a synoptic worldview that bridges the gap between religious and scientific knowledge, engages with deep philosophical questions surrounding Christian doctrine, presents unique formulations of Christian doctrines such as God's temporality, Molinism, and a social model of the Trinity. Offering a clear and structured exposition of complex theological and philosophical topics, *Systematic Philosophical Theology: Volume IIb, Excursus on Natural Theology On the Trinity* is ideal for graduate and advanced undergraduate students studying philosophy of religion, theology, or apologetics. It serves as a core or supplementary text for courses in systematic theology, philosophical theology, and Christian doctrine, and is an invaluable reference for scholars, theologians, and religious philosophers seeking a deeper understanding of the rational foundations of Christian theism.

The Transcendence of God
Edward Farley, 2017-06-28

In the varying perspectives of theological thought, the contrasting ideas of transcendence and immanence must inevitably be looked at together. To whatever extent they are held to be mutually compatible or mutually exclusive, neither can be considered without at least some cognizance being taken of the other. Nevertheless, in the swinging of the pendulum from era to era, first one and then the other theme receives the greater weight of attention. Thus, nineteenth-century liberalism placed more emphasis on immanence, whereas the twentieth-century revolt against liberalism has concentrated on transcendence. In this book, the author studies the transcendent aspect of God as developed by five contemporary theologians. Two of the men whose work Dr. Farley examines, Reinhold Niebuhr and Paul Tillich, are thoroughly familiar. The other three, Karl Heim, Charles Hartshorne, and Henry Nelson Wieman, have received less attention in recent studies. The five represent widely divergent traditions, but all of them agree in opposing immanentism. Moreover, they all deal with the tension between the philosophical and the Biblical affirmations of God's transcendence and attempt to show in their respective ways how these types of beyondness are related.
