Philosophy Of History In Fragments Pb:

Chinese Studies in the History and Philosophy of Science and Technology Fan Dainian, Robert S. Cohen, 2013-03-09 The articles in this collection were all selected from the first five volumes of the Journal of Dialectics of Nature published by the Chinese Academy of Sciences between 1979 and 1985 The Journal was established in 1979 as a comprehensive theoretical publication concerning the history philosophy and sociology of the natural sciences It began publication as a response to China's reform particularly the policy of opening to the outside world Chinese scholars began to undertake distinctive original research in these fields This collection provides a cross section of their efforts during the initial phase To enable western scholars to understand the historical process of this change in Chinese academics Yu Guangyuan's On the Emancipation of the Mind and Xu Liangying's Essay on the Role of Science and Democracy in Society have been included in this collection Three of the papers included on the philosophy of science are discussions of philosophical issues in cosmology and biology by scientists themselves The remaining four are written by philosophers of science and discuss information and cognition homeostasis and Chinese traditional medicine the I Ching Yi Jing and mathematics etc Papers have been selected on the history of both classical and modern science and technology the most distinctive of which are macro comparisons of the development of science in China and the west Some papers discuss the issue of the demarcation of periods in the history of science the history of ancient Chinese mathematics astronomy metallurgy machinery medicine etc Others discuss the history of modern physics and biology the history of historiography of science in China and the history of regional development of Chinese science and technology Also included are biographies of three post eighteenth century Chinese scholars Li Shanlan 1811-1882 Hua Hengfang 1833-1902 and Cai Yuanpei 1868-1940 who contributed greatly to the introduction of western science and scholarship to China In addition three short papers have been included introducing the interactions between Chinese scholars and three great western scientists Niels Bohr Norbert Wiener and Robert A Millikan

Autonomy Unbound Paul Barry Clarke, 2018-12-13 First published in 1999 this volume examines how the question of autonomy has come to be of recent interest in political theory The author argues that autonomy goes deep into the Western consciousness and is a part of our very mode of being He suggests that while autonomy is not universal once tasted it becomes ineradicable Autonomy runs deeper than is often thought and this book shows that while autonomy is unique to Western consciousness and to democracy it raises and examines the question as to whether autonomy is either universally necessary or necessary to democracy

History of Islamic Philosophy Seyyed Hossein Nasr, Oliver Leaman, 2013-03-07 Islamic philosophy has often been treated as being largely of historical interest belonging to the history of ideas rather than to philosophical study This volume successfully overturns that view Emphasizing the living nature and rich diversity of the subject it examines the main thinkers and schools of thought discusses the key concepts of Islamic philosophy and covers a vast geographical area This indispensable reference tool includes a comprehensive bibliography and an extensive index
