Philosophy Of Liberation:

Philosophy of Liberation Enrique Dussel, 2003-12-02 Argentinean philosopher theologian and historian Enrique Dussel understands the present international order as divided into the culture of the center by which he means the ruling elite of Europe North America and Russia and the peoples of the periphery by which he means the populations of Latin America Africa and part of Asia and the oppressed classes including women and children throughout the world In *Philosophy of Liberation* he presents a profound analysis of the alienation of peripheral peoples resulting from the imperialism of the center for more than five centuries Dussel's aim is to demonstrate that the center's historic cultural military and economic domination of poor countries is philosophically founded on North Atlantic ontology By expressing supposedly universal knowledge European philosophies argues Dussel have served to equate the cultural standards modes of behavior and rationalistic orientation of the West with human nature and to condemn the unique characteristics of peripheral peoples as nonbeing nothing chaos irrationality Hence Western philosophies have historically legitimated and hidden the domination that oppressed cultures have suffered at the hands of the center Dussel probes multinational corporations the communications media and the armies of the center with their counterparts among the Third World elite The creation of a just world order in the future according to Dussel hinges on the liberation of the periphery based on a philosophy that is able to think the world from the perspective of the poor and to reclaim the Third World's distinct cultural inheritance which is imbedded in the popular cultures of the poor Apart from the liberation of the periphery there will be no future the center will feed itself on the sameness it has ingrained within itself The death of the child of the poor will be its own death This is a disquieting but stimulating book for scholars and advanced students of philosophy ethics liberation theology and global politics

Philosophy of Liberation Enrique D. Dussel, 1981 **Thinking from the Underside of History** Linda Alcoff, Eduardo Mendieta, 2000 Enrique Dussel's writings span the theology of liberation critiques of discourse ethics and evaluations of Marx Levinas Habermas and others This anthology of articles by US philosophers elucidating Dussel's thought offers critical analyses from a variety of perspectives *Philosophy of Liberation* Enrique D. Anti-Cartesian Meditations and Transmodernity. From the Perspectives of Philosophy of Liberation Enrique Dussel, 2018 Author of more than 50 works Argentine Mexican philosopher of liberation Enrique Dussel 1934 is one of the major figures in the development of world philosophies He is one of the founders and the most recognized member of the group that begun philosophy of liberation in the early seventies in Argentina He is also one of the major figures in the development of the theology of liberation in Latin America Dussel's work is generally seen in the English speaking world as related particularly to Latin American concerns such as the social and political revolutions in Latin America in the Seventies the birth of the theology of liberation and the role in Latin America of pragmatism and neo Marxist theory However as the present volume reveals the scope of Dussel's work is much larger as it points to a reconfiguration of the very way one

understand the task and history of philosophy ultimately offering a work necessary and pressing for today The book is edited and introduced by Alejandro Valleja and Ram n Grosfoguel Enrique Dussel's Ethics of Liberation Frederick B. Mills, 2018-08-20 This book introduces the methodology and basic concepts of Dussel's ethics of liberation Enrique Dussel is one of the principal founders of the philosophy of liberation in Latin America Frederick B Mills discusses how for Dussel we can realize our co responsibility for human life by responding in accord with ethical principles to the appeals of victims of the prevailing capital system Mills shows how these principles when subsumed in the political and economic fields aim at overcoming the ongoing assault on human life and nature and provide a moral compass for forging a path to liberation He makes the case that the study of Dussel is critical to the understanding of liberatory thought in Latin America today This book aims to introduce the ethics of liberation to a broader audience in the Global North where Dussel's ideas are urgently relevant to progressive political and economic theory and praxis *History and Spirit* Joel Kovel, 1991 **The Underside of Modernity** Enrique D. Dussel, 1996 In this incisive critique Dussel demonstrates how most of these philosophies have either failed to give historically faithful analyses of the genesis of the myth of modernity or have never engaged in a serious questioning of their own Eurocentric presuppositions **Pedagogics of Liberation** Enrique D. Dussel, 2019 Enrique Dussel is considered one of the founding philosophers of liberation in the Latin American tradition an influential arm of what is now called decoloniality While he is astoundingly prolific relatively few of his works can be found in English translation and none of these focus specifically on education Founding members of the Latin American Philosophy of Education Society David I Backer and Cecilia Diego bring to us Dussel's THE PEDAGOGICS OF LIBERATION A Latin American Philosophy of Education the first English translation of Dussel's thinking on education and also the first translation of any part of his landmark multi volume work Towards an Ethics of Latin American Liberation Dussel's oeuvre is an impressive intellectual mosaic that uses Europeans to disrupt European thinking This mosaic has at its center French philosopher Emmanuel Levinas but also includes Ancient Greek philosophy Thomist theology modern Enlightenment philosophy analytic philosophy of language Marxism psychoanalysis Freud Klein evolutionary psychology neuroscience phenomenology Sartre Heidegger Husserl Hegel critical theory Frankfurt School Habermas and linguistics Dussel joins these traditions to Latin American history literature and philosophy specifically the work of Octavio Paz Ivan Illich and the philosophers of liberation whom Dussel studied with in Argentina before his exile to Mexico in the late 1970s Drawing heavily from the ethical philosophy of Emmanuel Levinas Dussel examines the dominating and liberating features of intimate concrete and observable interactions between different kinds of people who might sit down and have face to face encounters specifically where there may be an inequality of knowledge and a responsibility to guide teach learn care or study teacher student politician citizen doctor patient philosopher nonphilosopher and so on Those occupying the superior position of these face to face encounters teachers politicians doctors philosophers have a clear choice for Dussel when it comes to their pedagogics They are either open to

hearing the voice of the Other disrupting their sense of what is and should be by a newness beyond what they know or following the dominant pedagogics they can try to communicate and instruct their sense of what is and should be to the supposed tabula rasas in their charge Dussel calls that sense of what is and should be lo Mismo This groundbreaking translation makes possible a face to face encounter between an Anglo Philosophy of Education and Latin American Pedagogics Pedagogics should be considered as a type of philosophical inquiry alongside ethics economics and politics Dussel s pedagogics is a decolonizing pedagogics one rooted in the philosophy of liberation he has spent his epic career articulating With an Introduction by renowned philosopher Linda Martin Alcoff this book adds an essential voice to our conversations about teaching learning and studying as well as critical theory in general ENRIQUE DUSSEL was born in 1934 in the town of La Paz in the region of Mendoza Argentina He first came to Mexico in 1975 as a political exile and is currently a Mexican citizen Professor in the Department of Philosophy at the Iztapalapa campus of the Universidad Aut noma Metropolitana Autonomous Metropolitan University UAM and also teaches courses at the Universidad Nacional Aut noma de M xico National Autonomous University of Mexico UNAM He has an undergraduate degree in Philosophy from the Universidad Nacional de Cuyo National University of Cuyo in Mendoza Argentina a Doctorate from the Complutense University of Madrid a Doctorate in History from the Sorbonne in Paris and an undergraduate degree in Theology obtained through studies in Paris and M nster
