

love to maintain a discerning watch over the senses and a continual recollection of God. In performing these and other ascetical practices (summed up as "the practise of purity"), the passions become more and more purified, until one is ready to enter the stage of sanctification and illumination, where grace illumines the mind to see the various levels of reality in different ways. B. discusses at length what and how one can know spiritually, first through concepts and symbols, and then in a state of union where no mental image is perceived. The sign of this latter state is the attainment of a freedom to be able promptly to repulse passionate impulses arising in one's heart. In this new mystical state John distinguishes two moments: an initial approach to the "cloud of divine light," and then an ever deepening penetration into it, where everything is known in God and everything is seen as God sees it. On this level one experiences the glory and beauty of the divine nature, but not the divine nature itself.

B. demonstrates impressive mastery over his subject. The vast amount of unedited material necessary for a doctoral thesis makes for heavy reading. Yet the book will be of value to everyone interested in mysticism from an academic point of view, especially the mysticism of the patristic period.

**REASON IN RELIGION: THE FOUNDATIONS OF HEGEL'S PHILOSOPHY OF RELIGION.** By Walter Jaeschke. Translated from the German by J. Michael Stewart and Peter C. Hodgson. Berkeley: University of California, 1990. Pp. xvii + 464. \$49.95.

Jaeschke's greatest achievement has been to make sense of Hegel's posthumously published *Lectures on the Philosophy of Religion*. Previous editions had run together and reconciled Hegel's manuscript and sets of student lecture notes from the four occasions at the University of Berlin on which Hegel had delivered this series of lectures, thus creating a text that was not Hegel's and rarely made much sense at all. J.'s critical edition, an English version of which has been published by the University of California, painstakingly separated out the four versions of the lectures. It has made it possible for students of Hegel both to see something of the development of his thought and, perhaps even more importantly, finally be able to study a text with reasonable confidence that it approximates Hegel's original intention.

In the present work, a set of substantial essays, J. claims that Hegel's purpose in his work on religion is to find a way to reintroduce the idea of God into theoretical philosophy, to have once again both a philosophy

Philosophy of Religion provides an account of the central issues and viewpoints in the philosophy of religion but also shows how such issues can be rationally assessed and in what ways competing views can be rationally assessed. It includes major philosophical figures in religious traditions as well as discussions by important contemporary philosophers. Keith Yandell deals lucidly and constructively with representative views from Judaism, Christianity, Islam, Hinduism, Buddhism, and Jainism. This book will appeal to students of both philosophy and religion as well as to the general reader interested in the subject. Unique features of *Philosophy of Religion*: key reading and new reading in the subject area; questions at the ends of chapters; a glossary of philosophical terms; annotated further reading.

**Recent Reference Books in Religion** William M. Johnston, 2014-01-27. *Recent Reference Books in Religion* provides incisive summaries and evaluations of more than 350 contemporary reference works on religious traditions, ancient and modern, that have been published in English, French, and German. For maximum usefulness to readers, Professor Johnston has broadly defined religion to include not just the world religion of Christianity, Judaism, Islam, Hinduism, and Buddhism but also such alternative approaches as mythology, folklore, and the philosophy of ethics. Each entry, analyzing a particular work, includes full bibliographic details as well as commentary. Outstanding articles and contributors are highlighted; strengths and weaknesses are carefully noted and weighed. Readers are directed to volumes whose strengths and weaknesses are carefully noted and weighed. Readers are directed to volumes whose strengths complement the weaknesses of others. An indispensable guide in any religious studies collection. *Recent Reference Books in Religion*, 2nd Edition, includes works published through the end of 1997. It also includes a Glossary that describes types and functions of reference books and five indexes: Titles, Authors, Topics, Persons, and Places.

**The God Beyond Belief** Nick Trakakis, 2006-11-03. This study of Professor William Rowe's defense of atheism on the basis of evil assesses the literature that has developed in response to Rowe's work, closely examining two strategies: mystery, the idea that God may have reasons beyond our comprehension for permitting evil, and theodicy explanations as to why God allows evil to flourish. The book unearths difficulties in both concluding that the God of theism must be beyond belief.

Gale,2008-10-17 Is evil evidence against the existence of God A collection of essays by philosophers theologians and other scholars Even if God and evil are compatible it remains hotly contested whether evil renders belief in God unreasonable The Evidential Argument from Evil presents five classic statements on this issue by eminent philosophers and theologians and places them in dialogue with eleven original essays reflecting new thinking by these and other scholars The volume focuses on two versions of the argument The first affirms that there is no reason for God to permit either certain specific horrors or the variety and profusion of undeserved suffering The second asserts that pleasure and pain given their biological role are better explained by hypotheses other than theism Contributors include William P Alston Paul Draper Richard M Gale Daniel Howard Snyder Alvin Plantinga William L Rowe Bruce Russell Eleonore Stump Richard G Swinburne Peter van Inwagen and Stephen John Wykstra      *Philosophers and Scholars* Jonathan Cohen,2007-01-01 Jonathan Cohen brings together the views of three of the greatest scholar thinkers in the area of Jewish philosophy of the twentieth century Harry Austryn Wolfson 1887D1974 Julius Guttmann 1880D1950 and Leo Strauss 1899D1973 Each thinker s construction of Jewish philosophy is presented through individual definitions of Judaism and philosophy understandings of its historical development and analyses of the canons used in interpretations of Jewish philosophical texts      The American Catalog ,1896      **Aspects of Religion** Ninian Smart,1994 Ninian Smart Professor of Religious Studies at the University of California Santa Barbara and Honourary Professor of Religious Studies at the University of Lancaster is one of the world s foremost authorities on the comparative study of religions His early work involved an innovative and fruitful application of philosophy to the historical and comparative study of religious traditions and he has subsequently made major contributions to the fields of philosophy of religion education and methodology In this volume eighteen professors in the field of religious studies have chosen to honour him by contributing original essays on a wide range of topics related to his work and on themes that have value and significance to the field in general Also included in the volume is a brief account of Smart s career as an introduction to both Ninian Smart s thought and work and more generally the academic study of religion      Crucicentric, Congregational, and Catholic David R. Peel,2019-03-04 This book presents a synthesis of Alan Sell s theology drawn from his voluminous publications As Sell s doctrinal views are explored and interpreted his indebtedness to P T Forsyth becomes clear What emerges is a theology rooted in and flowing from the Cross Resurrection event Standing in the Separatist Dissenting and Nonconformist traditions Sell advocates a wholehearted commitment to a Congregational ecclesiology which he maintains carries the potential to break through the log jams holding up the establishment of full ecumenical relationships across the churches Saddened by Christianity s many sectarianisms Sell s intentions are thoroughly catholic while his faithfulness to the Christian tradition

handed on to him is matched by a willingness to receive insights from beyond it The result is a generous if eclectic expression of Christian orthodoxy The critical phase of the book turns upon the question whether Sell s generous orthodoxy is generous enough Do his theological conclusions actually do justice to the life and ministry of Jesus And secondly are they credible in the contemporary world For all Sell s commitment to apologetics does his theology actually speak to contemporary hearers
