On South Bank: The Production of Public Space Alasdair J.H. Jones, 2016-05-23 Tensions over the production of urban public space came to the fore in summer 2013 with mass protests in Turkey sparked by a plan to redevelop Taksim Gezi Park Istanbul In London concomitant proposals to refurbish an area of the South Bank historically used by skateboarders were similarly met by staunch opposition Through an in depth ethnographic examination of London s South Bank this book explores multiple dimensions of the production of urban public space Drawing on user accounts of the significance of public space as well as observations of how the South Bank is practised on a daily basis it argues that public space is valued not only for its essential material characteristics but also for the productive potential that these characteristics if properly managed afford on a daily basis At a time when policy makers urban planners and law enforcement authorities simultaneously grapple with pressures to deal with social problems such as street drinking vandalism and skateboarding and accusations that new modes of urban planning and civic management infringe upon civil liberties and dilute the publicity of public space this book offers an insightful account of the daily exigencies of public spaces In so doing it questions the utility of the public private binary for our understanding both of common urban space and of different sets of social practices and points towards the need to be

attentive to productive processes in how we understand and experience urban open space as public **Public Space** Matthew Carmona, Claudio de Magalhães, Leo Hammond, 2008-06-03 This book draws on three empirical projects to examine the questions of public space management on an international stage They are set within a context of theoretical debates about public space its history and new management approaches **Geography in America at the Dawn of the 21st Century** Gary L. Gaile, Cort J. Willmott, 2005 Geography in America at the Dawn of the 21st Century surveys American geographers current research in their specialty areas and tracks trends and innovations in the many subfields of geography As such it is both a state of the discipline assessment and a topical reference It includes an introduction by the editors and 47 chapters each on a specific specialty The authors of each chapter were chosen by their specialty group of the American Association of Geographers AAG Based on a process of review and revision the chapters in this volume have become truly representative of the recent scholarship of American geographers While it focuses on work since 1990 it additionally includes related prior work and work by non American geographers The initial Geography in America was published in 1989 and has become a benchmark reference of American geographical research during the 1980s This latest volume is completely new and features a preface written by the eminent geographer Gilbert White **The Politics of Public Space** Setha Low, Neil Smith, 2013-01-11 Why is public space disappearing Why is this disappearance important to democratic politics and how has it become an international phenomenon Public spaces are no longer democratic spaces but instead centres of private commerce and consumption and even surveillance and police control The Politics of Public Space extends the focus of current work on public space to include a consideration of the transnational in the sense of moving people and transformations in the nation or state to expand our definition of the public and public space Ultimately public spaces are one of the last democratic forums for public dissent in a civil society Without these significant central public spaces individuals cannot directly participate in conflict resolution The Politics of Public Space assembles a superb list of contributors to explore the important political dimensions of public space as a place where conflicts over cultural and political objectives become concrete *Chaucerian Spaces* William F. Woods, 2008-06-30 Chaucerian Spaces explores the affect and the significance of space and place in the first six tales in Chaucer's Canterbury Tales Relatively little has been written about space in the Canterbury Tales yet the rewards for attending to this aspect of Chaucer's aesthetic are considerable Space indicates the potential for characteristic action development and a more profound expression of being In these tales characters inhabit a landscape and places within it that express their inner life Emelye in her garden Palamon and Arcite in the grove all occupy spaces or places that manifest social destiny and individual intention Space and subjectivity change as territories give way to households and the horizons of consciousness shrink to the core of human intent Most striking is the transformation of women in place Emelye Alyson even Custance and the Wife of Bath dwell in places that express their social and economic potential They are in place but place is also in them they merge in metaphor with the places that express

them bringing the reader closer to the sensible reflective experience of the medieval subject Inescapable Ecologies Linda Nash,2007-01-05 Among the most far reaching effects of the modern environmental movement was the widespread acknowledgment that human beings were inescapably part of a larger ecosystem With this book Linda Nash gives us a wholly original and much longer history of ecological ideas of the body as that history unfolded in California s Central Valley Taking us from nineteenth century fears of miasmas and faith in wilderness cures to the recent era of chemical pollution and cancer clusters Nash charts how Americans have connected their diseases to race and place as well as dirt and germs In this account the rise of germ theory and the pushing aside of an earlier environmental approach to illness constituted not a clear triumph of modern biomedicine but rather a brief period of modern amnesia As Nash shows us place based accounts of illness re emerged in the postwar decades galvanizing environmental protest against smog and toxic chemicals Carefully researched and richly conceptual Inescapable Ecologies brings critically important insights to the histories of environment culture and public health while offering a provocative commentary on the human relationship to the larger world A Critical Companion to Lynn Nottage Jocelyn L. Buckner,2016-04-28 A Critical Companion to Lynn Nottage places this renowned award winning playwright s contribution to American theatre in scholarly context The volume covers Nottage s plays productions activism and artistic collaborations to display the extraordinary breadth and depth of her work The collection contains chapters on each of her major works and includes a special three chapter section devoted to Ruined winner of the 2009 Pulitzer Prize The anthology also features an interview about collaboration and creativity with Lynn Nottage and two of her most frequent directors Seret Scott and Kate Whoriskey **American Democracy and the Pursuit of Equality** Merlin Chowkwanyun,Randa Serhan,2016-01-08 This collection assembles some of the country s foremost social scientists in one volume It contains diverse investigations of metropolitan transformation recent education policy the in justice of disaster relief the politics of aesthetics and design immigration the mass media social movements and the practice of social science itself among others Whatever their subjects the writers investigate the promise and constraints of democratic practice in a time of disturbing growth in inequality and political disempowerment Although they at times differ from one another more often they challenge popular received wisdom on a number of these topics Cumulatively the volume amounts to a critical sociological excavation of the United States from its leading social critics that will prove useful to specialists and general readers alike **Women and the Everyday City** Jessica Ellen Sewell,2011 In Women and the Everyday City Jessica Ellen Sewell explores the lives of women in turn of the century San Francisco A period of transformation of both gender roles and American cities she shows how changes in the city affected women s ability to negotiate shifting gender norms as well as how women s increasing use of the city played a critical role in the campaign for women s suffrage Focusing on women s everyday use of streetcars shops restaurants and theaters Sewell reveals the impact of women on these public places what women did there which women went there and how these places were changed in

response to women's presence Using the diaries of three women in San Francisco Annie Haskell Ella Lees Leigh and Mary Eugenia Pierce who wrote extensively on their everyday experiences Sewell studies their accounts of day trips to the city and combines them with memoirs newspapers maps photographs and her own observations of the buildings that exist today to build a sense of life in San Francisco at this pivotal point in history Working at the nexus of urban history architectural history and cultural geography *Women and the Everyday City* offers a revealing portrait of both a major American city during its early years and the women who shaped it and the country for generations to come [The SAGE Handbook of Frankfurt School Critical Theory](#) Beverley Best, Werner Bonefeld, Chris O'Kane, 2018-06-04 The SAGE Handbook of Frankfurt School Critical Theory expounds the development of critical theory from its founding thinkers to its contemporary formulations in an interdisciplinary setting It maps the terrain of a critical social theory expounding its distinctive character vis a vis alternative theoretical perspectives exploring its theoretical foundations and developments conceptualising its subject matters both past and present and signalling its possible future in a time of great uncertainty Taking a distinctively theoretical interdisciplinary international and contemporary perspective on the topic this wide ranging collection of chapters is arranged thematically over three volumes Volume I Key Texts and Contributions to a Critical Theory of Society Volume II Themes Volume III Contexts This Handbook is essential reading for scholars and students in the field showcasing the scholarly rigor intellectual acuteness and negative force of critical social theory past and present **Routledge Handbook of Law and Theory** Andreas Philippopoulos-Mihalopoulos, 2018-08-06 This handbook sets out an innovative approach to the theory of law reconceptualising it in a material embodied socially contextualised and politically radical way The book consists of original contributions authored by prominent academics all of whom provide a valuable overview of legal theory as a discipline The book contains five sections Spatiotemporal Sense Body Text Matter Through this structure the handbook brings the law into active discussion with other disciplines as well as supra disciplinary debates on the areas of spatiality temporality materiality corporeality and sensorial studies capturing the most exciting developments in current legal theory and anticipating future research in the area The handbook is essential reading for scholars and students of jurisprudence sociology of law critical legal studies socio legal theory and interdisciplinary legal studies as well as those people from other disciplines interested in the way the law converses with interdisciplinarity Chapter 12 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license [21st Century Geography: A Reference Handbook](#) Joseph P. The Architecture of Home in Cairo Mohamed Gamal Abdelmonem, 2016-03-03 The hawari of Cairo narrow non straight alleyways are the basic urban units that have formed the medieval city since its foundation back in 969 AD Until early in the C20th they made up the primary urban divisions of the city and were residential in nature Contemporary hawari by contrast are increasingly dominated by commercial and industrial activity This medieval urban maze of extremely short broken zigzag streets and dead ends are defensible territories powerful institutions and important social systems While the hawari have been studied as an exemplar for urban structure of medieval Islamic urbanism and as individual building typologies this book is the first to examine in detail the socio spatial practice of the architecture of home in the city It investigates how people live communicate and relate to each other within their houses or shared spaces of the alleys and in doing so to uncover several new socio spatial dimensions and meanings in this architectural form In an attempt to re establish the link between architecture past and present and to understand the changing social needs of communities this book uncovers the notion of home as central to understand architecture in such a city with long history as Cairo It firstly describes the historical development of the domestic spaces indoor and outdoor and provides an inclusive analysis of spaces of everyday activities in the hawari of old Cairo It then broadens its analysis to other parts of the city highlighting different customs and representations of home in the city at large Cairo in the context of this book is represented as the most sophisticated urban centre in the Middle East with different and sometimes contrasting approaches to the architecture of home as a practice and spatial system In order to analyse the complexity and interconnectedness of the components and elements of the hawari as a collective home it layers its narratives of architectural and social developments as a domestic environment over the past two hundred years and in doing so explores the in depth social meaning and performance of spaces both private and public

Encyclopedia of Geography Barney Warf, 2010-09-21 Simply stated geography studies the locations of things and the explanations that underlie spatial distributions Profound forces at work throughout the world have made geographical knowledge increasingly important for understanding numerous human dilemmas and our capacities to address them With more than 1 200 entries the Encyclopedia of Geography reflects

how the growth of geography has propelled a demand for intermediaries between the abstract language of academia and the ordinary language of everyday life The six volumes of this encyclopedia encapsulate a diverse array of topics to offer a comprehensive and useful summary of the state of the discipline in the early 21st century Key Features Gives a concise historical sketch of geography's long rich and fascinating history including human geography physical geography and GIS Provides succinct summaries of trends such as globalization environmental destruction new geospatial technologies and cyberspace Decomposes geography into the six broad subject areas physical geography human geography nature and society methods models and GIS history of geography and geographer biographies geographic organizations and important social movements Provides hundreds of color illustrations and images that lend depth and realism to the text Includes a special map section Key Themes Physical Geography Human Geography Nature and Society Methods Models and GIS People Organizations and Movements History of Geography This encyclopedia strategically reflects the enormous diversity of the discipline the multiple meanings of space itself and the diverse views of geographers It brings together the diversity of geographical knowledge making it an invaluable resource for any academic library Women, States and Nationalism Sita Ranchod-Nilsson, Mary Ann Tetreault, 2003-09-02 Women States and Nationalism counters this attitude and examines the many and contradictory ways in which women negotiate their places in the nation The volume includes theoretical essays that explore the multiple ways in which the very concept of nation is based upon notions of family sexuality and gender power which are often overlooked or downplayed by male stream scholarship It gathers together an outstanding panel of feminist scholars and area studies specialists who through a series of focused case studies analyse diverse issues which include gender and sectarian conflict in Northern Ireland the paradox of Israeli women soldiers women civic duty and the military in the USA the Hindu Right in India power agency and representation in Zimbabwe political identity and heterosexism This timely volume is a highly valuable resource for students and scholars of Nationalism Internationalism Studies and Women's Studies Envisioning Landscapes, Making Worlds Stephen Daniels, Dydia DeLyser, J. Nicholas Entrikin, Doug Richardson, 2012-03-15 The past decade has witnessed a remarkable resurgence in the intellectual interplay between geography and the humanities in both academic and public circles The metaphors and concepts of geography now permeate literature philosophy and the arts Concepts such as space place landscape mapping and territory have become pervasive as conceptual frameworks and core metaphors in recent publications by humanities scholars and well known writers Envisioning Landscapes Making Worlds contains over twenty five contributions from leading scholars who have engaged this vital intellectual project from various perspectives both inside and outside of the field of geography The book is divided into four sections representing different modes of examining the depth and complexity of human meaning invested in maps attached to landscapes and embedded in the spaces and places of modern life The topics covered range widely and include interpretations of space place and landscape in literature and the visual arts philosophical reflections on

geographical knowledge cultural imagination in scientific exploration and travel accounts and expanded geographical understanding through digital and participatory methodologies The clashing and blending of cultures caused by globalization and the new technologies that profoundly alter human environmental experience suggest new geographical narratives and representations that are explored here by a multidisciplinary group of authors This book is essential reading for students scholars and interested general readers seeking to understand the new synergies and creative interplay emerging from this broad intellectual engagement with meaning and geographic experience
