Nursing Practice Essentials Zaccagnini, Kathryn Waud White, 2015-12-14 The newly revised Third Edition of The Doctor of Nursing Practice Essentials A New Model for Advanced Practice Nursing is the first text of its kind and is modeled after the eight DNP Essentials as outlined by the American Association of Colleges of Nursing AACN Important Notice the digital edition of this book is missing some of the images or content found in the physical edition The Centennial of the United States Military Academy at West Point, New York. 1802-1902 ... United States Military Academy, 1904 Science and Theology James K. Dew Jr., 2011-01-17 Alister McGrath's work on the relationship between Science and Theology makes the most notable contribution to the subject written by an evangelical in recent history McGrath holds earned doctorates in both science and theology and his three volume set A Scientific Theology is the culmination of three decades of his work on the subject In this book James K Dew explores McGrath's contribution to the issue and highlights the benefits of adopting a critical realist perspective such as his own In particular Dew argues that McGrath's approach helps establish a unified theory of knowledge and holds significant advantages for scientists and theologians alike **God and Evidence** Rob Lovering, 2013-06-20 God and Evidence presents a new set of compelling problems for theistic philosophers The problems pertain to three types of theistic philosopher which Lovering defines here as theistic inferentialists theistic non inferentialists and theistic fideists Theistic inferentialists believe that God exists that there is inferential probabilifying evidence of God's existence and that this evidence is discoverable not simply in principle but in practice Theistic non inferentialists believe that God exists that there is non inferential probabilifying evidence of God's existence and that this evidence is discoverable not simply in principle but in practice Theistic fideists believe that God exists that there is no discoverable probabilifying evidence inferential or non inferential of God's existence and that it is nevertheless acceptable morally if not otherwise to have faith that God exists Lovering argues that each type of theistic philosopher faces a problem unique to his type and that they all share two particular problems Some of these problems take us down an entirely new discursive path others down a new discursive path branching off from an old one Moral Responsibility and the Problem of Many Hands Ibo van de Poel, Lambèr Royakkers, Sjoerd D. Zwart, 2015-03-12 When many people are involved in an activity it is often difficult if not impossible to pinpoint who is morally responsible for what a phenomenon known as the problem of many hands This term is increasingly used to describe problems with attributing individual responsibility in collective settings in such diverse areas as public administration corporate management law and regulation technological development and innovation healthcare and finance This volume provides an in depth philosophical analysis of this problem examining the notion of moral responsibility and distinguishing between different normative meanings of responsibility both backward looking accountability blameworthiness and liability and forward looking obligation virtue Drawing on the relevant philosophical literature the authors develop a coherent conceptualization of the problem of many hands taking into account the relationship and possible tension between individual and collective responsibility This systematic inquiry into the problem of many hands pertains to
