Nature Sir Norman Lockyer, 1928

Dictionary of Twentieth-Century British Philosophers Stuart Brown, 2005-06-01 This is a two volume work with entries on individuals who made some contribution to philosophy in the period 1900 to 1960 or soon after The entries deal with the whole philosophical work of an individual or in the case of philosophers still living their whole work to date Typically the individuals included have been born by 1935 and by now have made their main contributions Contributions to the subject typically take the form of books or journal articles but influential teachers and people otherwise important in the world of philosophy may also be included The dictionary includes amateurs as well as professional philosophers and where appropriate thinkers whose main discipline was outside philosophy There are special problems about the term British in the twentieth century partly because of human migration partly because of decolonialization and the changing denotation of the term The intention has been to include not only those who were British subjects at least for a significant part of their lives even if they mostly lived outside what is now the U K but also people who spent a significant part of their lives in Britain itself irrespective of their nationality or country of origin In the first category are included for instance a number of people who were born and educated in Britain but who subsequently taught in universities abroad In the second category are included those who were born elsewhere but who came to Britain and contributed to its philosophical culture

in historical chronology historical causality historical origins the character of historical events and the diagnosis of such actual historical events as the rise of capitalism in Europe This text is a groundbreaking valuable and original contribution to the scholarship on Deleuze and Guattari and contemporary Continental philosophy as a whole Bookseller's catalogues Thornton J. and son,1883 Models of the History of Philosophy Gregorio Piaia,Giuseppe Micheli,Giovanni Santinello,2022-03-08 This is the fourth volume of Models of the History of Philosophy a collaborative work on the history of the history of philosophy dating from the Renaissance to the end of the nineteenth century The volume covers the so called Hegelian age in which the approach to the past of philosophy is placed at the foundation of doing philosophy up to identifying with the same philosophy A philosophy which is however understood in a different way as dialectical development as hermeneutics as organic development as eclectic option as a philosophy of experience as a progressive search for truth through the repetition of errors The material is divided into four large linguistic and cultural areas the German French Italian and British It offers the detailed analysis of 10 particularly significant works of the way of conceiving and reconstructing the general history of philosophy from its origins to the contemporary age This systematic exposure is preceded and accompanied by lengthy introductions on the historical background and references to numerous other works bordering on philosophical historiography **Literature and Philosophy in Nineteenth-Century British Culture** Monika Class,Cian Duffy,2024-05-20 This is the first volume in a three volume collection of primary sources which examines philosophy and literature in nineteenth century Britain Accompanied by extensive editorial commentary this collection will be of great interest to students and scholars of British Literature and Philosophy **Aberdeen University Library Bulletin** University of Aberdeen. Library,1925 **A Hundred Years of British Philosophy** Rudolf Metz,2014-06-03 This is Volume XIV of twenty two in a series on 20th Century Philosophy Originally published in 1938 The Library of Philosophy was designed as a contribution to the History of Modern Philosophy under the heads first of different Schools of Thought Sensationalist Realist Idealist Intuitivist secondly of different Subjects Psychology Ethics Aesthetics Political Philosophy Theology Dr Rudolf Metz's book entitled *Die philosophischen Stromungen der Gegenwart in Grossbritannien* of which this volume is a translation was the first attempt to give a detailed account to his own countrymen of the development of British philosophy during the last and the first part of this century **Ontario Library Review and Book Selection Guide** ,1926 *Collingwood on Philosophical Methodology* Karim Dharamsi,Giuseppina D'Oro,Stephen Leach,2019-01-17 This book discusses Collingwood's conception of the role and character of philosophical analysis It explores questions such as is there anything distinctive about the activity of philosophizing If so what distinguishes philosophy from other forms of inquiry What is the relation between philosophy and science and between philosophy and history For much of the twentieth century philosophers philosophized with little self awareness Collingwood was exceptional in the attention he paid to the activity of philosophizing This book will be of interest both to those who are interested in Collingwood's philosophy and more generally to all who are interested in

the question what is philosophy **History as Re-enactment** William H. Dray, 1999 A central motif of R G Collingwood's philosophy of history is the idea that historical understanding requires a re enactment of past experience However there have been sharp disagreements about the acceptability of this idea and even its meaning This book aims to advance the critical discussion in three ways by analysing the idea itself further concentrating especially on the contrast which Collingwood drew between it and scientific understanding by exploring the limits of its applicability to what historians ordinarily consider their proper subject matter and by clarifying the relationship between it and some other key Collingwoodian ideas such as the place of imagination in historical inquiry the sense in which history deals with the individual the essential perspectivity of historical judgement and the importance of narrative and periodization in historical thinking Professor Dray defends Collingwood against a good deal of recent criticism while pointing to ways in which his position requires revision or development History as Re enactment draws upon a wide range of Collingwood's published writings and makes considerable use of his unpublished manuscripts It is the most systematic study yet of this central doctrine of Collingwood's philosophy of history and will stand as a landmark in Collingwood studies For many years William Dray has been working at the task of retrieving Collingwood for contemporary philosophy It is something of an event then to have this new work the culmination of a lifetime of thought appear in his retirement As one would expect it is a deeply considered book lucidly written and scrupulously fair to all parties a sound and serious philosophical commentary anyone interested in either Collingwood or the philosophy of history should consider joining the dialogue and will learn much in the process Canadian Journal of History **Rudolf Steiner in Britain** Crispian Villeneuve, 2009-09-14 Rudolf Steiner spent some five months of his life in Britain visiting there ten times between 1902 and 1924 With the exception of German speaking countries the longest time Steiner spent abroad was in Britain a place he clearly considered central to his work In this extraordinary thorough study of more than 1 200 pages and dozens of illustrations Crispian Villeneuve documents those important visits reproducing letters articles records and other archival material much of it published for the first time He also studies the interconnected theme of the life and work of D N Dunlop Rudolf Steiner's closest British colleague
