Structure, Meaning and Ritual in the Narratives of the Southern San Roger Hewitt,2008-08-01 Analyses texts drawn from the Bleek and Lloyd Archive arguably one of the most important collections for the understanding of South African cultural heritage and in particular the traditions of the Xam South Africa's first people Initially appearing in a now rare 1986 edition and here re issued for the first time the doctoral thesis on which the book is based became the catalyst for much scholarly research The book offers an analysis of the entire corpus of Xam narratives found in the Bleek and Lloyd collection focusing particularly on the cycle of narratives concerning the trickster Kaggen Mantis These are examined on three levels from the deep structures with resonances in other areas of Xam culture and supernatural belief through the recurring patterns of narrative composition apparent across the cycle and finally touching on the observable differences in the performances by the various Xam collaborators Hewitt's text remains the only comprehensive and detailed study of Xam narrative and it has become itself the object of study by researchers and PhD candidates in South Africa the United Kingdom Canada and elsewhere This new edition at last makes Hewitt's important work more widely available It will be a welcome addition to the recently burgeoning literature on the place of the Xam hunter gatherers in the complex history of South African culture and society

The Philosophy of Literary Form Kenneth Burke,2017-07-26 Excerpt from *The Philosophy of Literary Form Studies in Symbolic Action* As for analysis focused upon one work probably my article on Hitler's *Mein Kampf* is the most complete example in these pages with the references to the writings of Coleridge whom I hope to treat later at greater length in a separate volume probably coming next The study of Julius Caesar as a device for the arousing and fulfilling of expectations in an audience might fall within this class if the reader is not led by its tone to assign it the quality of a tour de force And I have included in an appendix some reviews that while selected because in my opinion they clarified some aspect or other of my position are by the nature of the case centered about some one formal object About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Communicating Terror Joseph S. Tuman,2010 Concise yet comprehensive this up to date text examines how acts of terrorism create rhetorical acts What messages persuasive meanings symbols do acts of terrorism generate and communicate to the world at large These rhetorical components include definitions and labels symbolism in terrorism public

oratory about terrorism and the relationship between terror and media This unique communication perspective vs political science/criminal justice approach shows how the rhetoric of terrorism is truly a war of words symbols and meanings Circles in the Stream Paul E. Koptak, 2022-04-28 Maybe we should read Genesis 37-50 as the story of Joseph and Judah Both kept their families alive and received major blessings from their father Jacob Like his brother Joseph Judah knew how to use words to lead and persuade primarily by appealing to common experience His speeches model Kenneth Burke's rhetoric of identification inducing cooperation by showing his listeners how they are consubstantial that is where they stand together Preachers hope to do the same making gospel connections between ancient texts and life today Circles in the Stream shows that the connections are there in the Scripture text freeing preachers from the pressure to find contemporary illustrations Adapting Burke's literary rhetorical approach to reading Paul Koptak offers ever widening circles of reading to that end Indexing a passage and looking for identification there lead to the transformative purpose and life issue Intertextual study a combination of both discovers these connections in the wider two testament canon Circles in the Stream offers both a distinct perspective for reading Scripture and practical steps for in depth study Its method can make sermon preparation more efficient and effective More importantly it leads to the life issues that listeners want their preachers to address Frederick Douglass's Curious Audiences Terry Baxter, 2004-05 This book attempts to answer a fundamental question How did Douglass manage to persuade anyone about the evils of slavery and even impress viewers with his personal qualities when his speeches were commonly considered mere entertainment in the same category as Barnum's circus acts In answering this question Terry Baxter provides a means of understanding the positive responses of Frederick Douglass's white audiences and African American celebrities roles as both objects of consumption and vehicles for social change **An Integrated Approach to Communication Theory and Research** Don W. Stacks, Michael B. Salwen, 2014-04-08 This volume provides an overview of communication study offering theoretical coverage of the broad scope of communication study as well as integrating theory with research To explicate the integration process the chapter contributors experts in their respective areas offer samples in the form of hypothetical studies published studies or unpublished research showing how theory and research are integrated in their particular fields The book will appeal to graduate students and faculty members who want a thorough overview of not only the field but also sample research stemming from its various component parts *Pathologies of Motion* Kevis Goodman, 2023-01-01 An original study of late Enlightenment aesthetics poetics and environmental medicine as overlapping ways of comprehending the dislocations of historical existence lodged in the movements of bodies and minds This book studies later eighteenth century medicine aesthetics and poetics as overlapping forms of knowledge increasingly concerned about the relationship between the geographical movements of persons displaced from home and the physiological or nervous motions within their bodies and minds Looking beyond familiar narratives about medicine and art's shared therapeutic and harmonizing ideals this book explores Enlightenment and Romantic era aesthetics and poetics in

relation to a central but less well known area of eighteenth century environmental medicine pathology No mere system of diagnosis or classification philosophical pathology was an art of interpretation offering sophisticated ways of reading the multiple conditions and causes of disease however absent from perception in their palpable embodied effects For medical anthropological environmental and literary authors alike it helped to locate the dislocations of modern mobility when a full view of their causes and conditions remained imperfectly understood or still unfolding Goodman traces the surprising afterlife of the period s exemplary but unexplained pathology of motion medical nostalgia within aesthetic theory and poetics arguing that nostalgia persisted there not as a named condition but as a set of formal principles and practices perturbing claims about the harmony freedom and free play of the mind

Writing Genres Amy J Devitt,2004-01-29 In Writing Genres Amy

J Devitt examines genre from rhetorical social linguistic professional and historical perspectives and explores genre s educational uses making this volume the most comprehensive view of genre theory today Writing Genres does not limit itself to literary genres or to ideas of genres as formal conventions but additionally provides a theoretical definition of genre as rhetorical dynamic and flexible which allows scholars to examine the role of genres in academic professional and social communities Writing Genres demonstrates how genres function within their communities rhetorically and socially how they develop out of their contexts historically how genres relate to other types of norms and standards in language and how genres nonetheless enable creativity Devitt also advocates a critical genre pedagogy based on these ideas and provides a rationale for first year writing classes grounded in teaching antecedent genres

The Portable Community Robert Owen

Gardner,2020-02-17 This book explores the various ways in which individuals use music and culture to understand and respond to changes in their natural and built environments Drawing on over 15 years of ethnographic fieldwork interviews and participant observation the author develops the thesis that the relationships networks and intimate forms of social interaction in the portable community cultivated at bluegrass festival events are significant cultural formations that shape participants relationships to their localities With specific attention to the ways in which the strength of these relationships are translated into meaningful sites of community identity place and action following devastating local floods that destroyed

homes and businesses displacing residents for years The Portable Community Place and Displacement in Bluegrass Festival Life sheds light on the strength of such communities when tested and under external threat A study of the central role of arts and music in grappling with social and environmental change including their role in facilitating disaster relief and recovery this volume will appeal to scholars of sociology with interests in symbolic interactionism the sociology of music culture and the sociology of disaster

Narrative and Self-Understanding Garry L. Hagberg, 2019-11-15 This exciting new edited collection bridges the gap between narrative and self understanding The problem of self knowledge is of universal interest the nature or character of its achievement has been one continuing thread in our philosophical tradition for millennia Likewise the nature of storytelling the assembly of individual parts of a potential story into a coherent narrative structure has been central to the study of literature But how do we gain knowledge from an artform that is by definition fictional by definition not a matter of ascertained fact as this applies to the understanding of our lives When we see ourselves in the mimetic mirror of literature what we see may not just be a matter of identifying with a single protagonist but also a matter of recognizing long form structures long arc narrative shapes that give a place to and thus make sense of the individual bits of experience that we place into those structures But of course at precisely this juncture a question arises do we make that sense or do we discover it The twelve chapters brought together here lucidly and steadily reveal how the matters at hand are far more intricate and interesting than any such dichotomy could accommodate This is a book that investigates the ways in which life and literature speak to each other

Transcendence By Perspective Bryan Crable, 2014-07-15 The nine contributors to this collection examine rhetorician Kenneth Burke's understanding of transcendence applying it to a wide range of social and political issues including racial and presidential politics

Psychology Comes to Harlem Jay Garcia, 2012-05-14 In the years

preceding the modern civil rights era cultural critics profoundly affected American letters through psychologically informed explorations of racial ideology and segregationist practice Jay Garcia's probing look at how and why these critiques arose and the changes they wrought demonstrates the central role Richard Wright and his contemporaries played in devising modern antiracist cultural analysis Departing from the largely accepted existence of a Negro Problem Wright and such literary luminaries as Ralph Ellison Lillian Smith and James Baldwin described and challenged a racist social order whose psychological undercurrents implicated all Americans and had yet to be adequately studied Motivated by the elastic possibilities of clinical and academic inquiry writers and critics undertook a rethinking of race and assessed the value of psychotherapy and psychological theory as antiracist strategies Garcia examines how this new criticism brought together black and white writers and became a common idiom through fiction and nonfiction that attracted wide readerships An illuminating picture of mid twentieth century American literary culture and learned life Psychology Comes to Harlem reveals the critical and intellectual innovation of literary artists who bridged psychology and antiracism to challenge segregation

Victorian Detective Fiction and the Nature of Evidence L. Frank, 2003-07-02 Frank investigates an intertextual exchange between nineteenth century historical disciplines philology cosmology geology archaeology and evolutionary biology and the detective fictions of Poe Dickens and Doyle In responding to the writings of figures like Lyell Darwin and E B Taylor detective fiction initiated a transition from scriptural literalism and a prevailing Natural Theology to a naturalistic secular worldview In the process detective fiction sceptically examined both the evidence such disciplines used and their narrative rendering of the world

Beyond Realism and Antirealism David L. Hildebrand, 2021-04-30 Perhaps the most significant development in American philosophy in recent times has been the extraordinary renaissance of Pragmatism marked most notably by the reformulations of the so called Neopragmatists Richard Rorty and Hilary Putnam With Pragmatism offering the allure of potentially resolving the impasse between epistemological realists and antirealists analytic and continental philosophers as well as thinkers across the disciplines have been energized and engaged by this movement In Beyond Realism and Antirealism John Dewey and the Neopragmatists David L Hildebrand asks two important questions first how faithful are the Neopragmatists reformulations of Classical Pragmatism particularly Deweyan Pragmatism Second and more significantly can their Neopragmatisms work In assessing Neopragmatism Hildebrand advances a number of historical and critical points Current debates between realists and antirealists as well as objectivists and relativists are similar to early twentieth century debates between realists and idealists that Pragmatism addressed extensively Despite their debts to Dewey the Neopragmatists are reenacting realist and idealist stands in their debate over realism thus giving life to something shown fruitless by earlier Pragmatists What is absent from the Neopragmatist's position is precisely what makes Pragmatism enduring namely its metaphysical conception of experience and a practical starting point for philosophical inquiry that such experience dictates Pragmatism cannot take the linguistic turn insofar as that turn mandates a theoretical starting point

While Pragmatism's view of truth is perspectival it is nevertheless not a relativism. Pace Rorty, Pragmatism need not be hostile to metaphysics; indeed it demonstrates how pragmatic instrumentalism and metaphysics are complementary. In examining these and other difficulties in Neopragmatism, Hildebrand is able to propose some distinct directions for Pragmatism. Beyond Realism and Antirealism will provoke specialists and non-specialists alike to rethink not only the definition of Pragmatism but its very purpose.
