The Networked Image in Post-Digital Culture Andrew Dewdney, Katrina Sluis, 2022-07-12 This collection examines how the networked image establishes new social practices for the user and presents new challenges for cultural practitioners engaged in making curating teaching exhibiting archiving and preserving born digital objects The mode of vision and imaging established through photography over the previous two centuries has and continues to be radically reconfigured by a hybrid of algorithms computing programmed capture and display devices and an array of online platforms The image under these new conditions is filtered fluid fleeting permeable mobile and distributed and is changing our ways of seeing The chapters in this volume are the outcome of research conducted at the Centre for the Study of the Networked Image CSNI and its collaboration with The Photographers Gallery over the last ten years The book's contributors investigate radical changes in the meanings and values of hybridised media in socio technical networks and speak to the creeping automation of culture through applications of AI social media platforms and the financialisation of data This interdisciplinary collection draws upon media and cultural studies art history art practice photographic theory user design animation museology and computer science as a way of making sense of the specific cultural consequences of the rapid succession of changes in image technologies and to bring the story up to date It will be of particular interest to scholars and students of visual culture media studies and photography

Digital Photography and Everyday Life Edgar Gómez Cruz, Asko Lehmuskallio, 2016-05-20

Digital Photography and Everyday Life Empirical studies on material visual practices explores the role that digital photography plays within everyday life With contributors from ten different countries and backgrounds in a range of academic disciplines including anthropology media studies and visual culture this collection takes a uniquely broad perspective on photography by situating the image making process in wider discussions on the materiality and visibility of photographic practices and explores these through empirical case studies By focusing on material visual practices the book presents a comprehensive overview of some of the main challenges digital photography is bringing to everyday life It explores how the digitization of photography has a wide reaching impact on the use of the medium as well as on the kinds of

images that can be produced and the ways in which camera technology is developed The exploration goes beyond mere images to think about cameras mediations and technologies as key elements in the development of visual digital cultures Digital Photography and Everyday Life will be of great interest to students and scholars of Photography Contemporary Art Visual Culture and Media Studies as well as those studying Communication Cultural Anthropology and Science and Technology Studies **The SAGE Handbook of Social Media Research Methods** Luke Sloan,Anabel

Quan-Haase,2017-01-26 With coverage of the entire research process in social media data collection and analysis on specific platforms and innovative developments in the field this handbook is the ultimate resource for those looking to tackle the challenges that come with doing research in this sphere *The Palgrave Handbook of Image Studies* Krešimir

Purgar,2021-10-01 This handbook brings together the most current and hotly debated topics in studies about images today In the first part the book gives readers an historical overview and basic diacronical explanation of the term image including the ways it has been used in different periods throughout history In the second part the fundamental concepts that have to be mastered should one wish to enter into the emerging field of Image Studies are explained In the third part readers will find analysis of the most common subjects and topics pertaining to images In the fourth part the book explains how existing disciplines relate to Image Studies and how this new scholarly field may be constructed using both old and new approaches and insights The fifth chapter is dedicated to contemporary thinkers and is the first time that theses of the most prominent scholars of Image Studies are critically analyzed and presented in one place *Between Film, Video, and the Digital* Jihoon

Kim,2016-07-14 Encompassing experimental film and video essay film gallery based installation art and digital art Jihoon Kim establishes the concept of hybrid moving images as an array of impure images shaped by the encounters and negotiations between different media while also using it to explore various theoretical issues such as stillness and movement indexicality abstraction materiality afterlives of the celluloid cinema archive memory apparatus and the concept of medium as such Grounding its study in interdisciplinary framework of film studies media studies and contemporary art criticism *Between Film Video and the Digital* offers a fresh insight on the post media conditions of film and video under the pervasive influences of digital technologies as well as on the crucial roles of media hybridity in the creative processes of giving birth to the emerging forms of the moving image Incorporating in depth readings of recent works by more than thirty artists and filmmakers including Jim Campbell Bill Viola Sam Taylor Johnson David Claerbout Fiona Tan Takeshi Murata Jennifer West Ken Jacobs Christoph Girardet and Matthias Müller Hito Steyerl Lynne Sachs Harun Farocki Doug Aitken Douglas Gordon Stan Douglas Candice Breitz among others the book is the essential scholarly monograph for understanding how digital technologies simultaneously depend on and differ from previous time based media and how this juncture of similarities and differences signals a new regime of the art of the moving image **Virtual Photography** Ali Shobeiri,Helen

Westgeest,2024-09-03 While it has traditionally been seen as a means of documenting an external reality or expressing an

internal feeling photography is now capable of actualizing never existed pasts and never lived experiences Thanks to the latest photographic technologies we can now take photos in computer games interpolate them in extended reality platforms or synthesize them via artificial intelligence To account for the most recent shifts in conceptualizations of photography this book proposes the term virtual photography as a binding theoretical framework defined as a photography that retains the efficiency and function of real photography made with or without a camera while manifesting these in an unfamiliar or noncustomary form

Photography Liz Wells, 2000 Surveying the spectrum of photography from the mid nineteenth century to the present *Photography A Critical Introduction* is the first book to examine key debates in photographic theory and place them in their proper social and political contexts While most histories of photography invariably focus on the works of the great photographers this book is written especially to provide a coherent introduction to the nature of photographic seeing and its personal and cultural significance through history Contributors lucidly examine a range of major photographic theories histories genres and issues covering such topics as key debates in photographic theory and history documentary photography and photojournalism personal and popular photography photography and commodity culture photography and the human body photography as art and photography in the age of electronic imaging This completely revised and updated second edition includes detailed case studies key references biographies of key thinkers and margin notes a full glossary of terms comprehensive end of chapter bibliographies and resource information including guides to public archives and useful web sites The lavish illustrations include images by Bill Brandt Lee Friedlander Hannah Hoch Roshini Kempadoo Dorothea Lange Lee Miller Alexander Rodchenko Jacob Riis Sebastio Salgado Andres Serrano and Jo Spence

Comics Beyond the Page in Latin America James

Scorer,2020-02-17 Comics Beyond the Page in Latin America is a cutting edge study of the expanding worlds of Latin American comics Despite lack of funding and institutional support not since the mid twentieth century have comics in the region been so dynamic so diverse and so engaged with pressing social and cultural issues Comics are being used as essential tools in debates about for example digital cultures gender identities and political disenfranchisement **The Evolution of the Image** Marco Bohr,Basia Sliwinska,2018-03-13 This volume addresses the evolution of the visual in digital communities offering a multidisciplinary discussion of the ways in which images are circulated in digital communities the meanings that are attached to them and the implications they have for notions of identity memory gender cultural belonging and political action Contributors focus on the political efficacy of the image in digital communities as well as the representation of the digital self in order to offer a fresh perspective on the role of digital images in the creation and promotion of new forms of resistance agency and identity within visual cultures A Gust of Photo-Philia Alexandra Moschovi,2020-12-15 The first transnational history of photography s accommodation in the art museum Photography was long regarded as a middle brow art by the art institution Yet at the turn of the millennium it became the hot global art of our time In this book part institutional history part account of shifting photographic theories and practices Alexandra Moschovi tells the story of photography s accommodation in and as contemporary art in the art museum Archival research of key exhibitions and the contrasting collecting policies of MoMA Tate the Guggenheim the V A and the Centre Pompidou offer new insights into how art as photography and photography as art have been collected and exhibited since the 1930s Moschovi argues that this accommodation not only changed photography s status in art culture and society but also played a significant role in the rebranding of the art museum as a cultural and social site *Twins and Recursion in Digital, Literary and Visual Cultures* Edward King,2022-04-07 The tale of twins being reunited after a long separation is a trope that has been endlessly repeated and reworked across different cultures and throughout history with each moment adapting the twin plot to address its current cultural tensions In this study Edward King demonstrates how twins are a means of exploring the social implications of hyper connectivity and the compromising relationship between humans and digital information their environment and their genetics As King demonstrates twins tell us about the changing forms of connectivity and power in contemporary culture and what new conceptions of the human they present us with Taking account of a broad range of literary cultural and scientific practices Entwined Being probes discussions surrounding twins such as The way in which they appear in behavioral genetics as a way of identifying inherited predispositions to social media How their faces interrupt biometric interfaces such as facial recognition software and undermine advances in neo liberal surveillance systems How they represent the uncanny and the weird in the horror genre and how this questions ideologies of communications media and the connectivity it enables Their association with telepathy and cybernetics in science fiction Their construction as models for entangled being in ecological thought Drawing upon the literary and filmic works of Ken Follet Edgar Allan Poe H

P Lovecraft Bruce Chatwin Shelley Jackson Brian de Palma Peter Greenway and David Cronenberg as well as science fiction literature and the television series Orphan Black King illuminates how twins are employed across a range of disciplines to envision a critical re conception of the human in times of digital integration and ecological crisis **A Companion to**

Photography Stephen Bull, 2020-03-16 The study of photography has never been more important A look at today's digital world reveals that a greater number of photographs are being taken each day than at any other moment in history Countless photographs are disseminated instantly online and more and more photographic images are earning prominent positions and garnering record prices in the rarefied realm of top art galleries Reflecting this dramatic increase in all things photographic A Companion to Photography presents a comprehensive collection of original essays that explore a variety of key areas of current debate around the state of photography in the twenty first century Essays are grouped and organized in themed sections including photographic interpretation markets popular photography documents and fine art and provide comprehensive coverage of the subject Representing a diversity of approaches essays are written by both established and emerging photographers and scholars as well as various experts in their respective areas A Companion to Photography offers scholars and professional photographers alike an essential and up to date resource that brings the study of contemporary photography into clear focus Archival Materialities in a Digital Age Eirini Goudarouli, Andrew Prescott, 2025-02-27

Materiality looms large in the world of archives in storage conservation and shape or materials of the records How does this materiality change in the digital age The way digital techniques and materialities transform our engagement with archives is highlighted and explored throughout Archival Materialities in a Digital Age **New Media** Leah A. Lievrouw, Sonia M. Livingstone, 2009

AI Aesthetics Jan-Noël Thon, Lukas R.A. Wilde, 2025-09-09 This volume investigates the intersection of generative AI and media aesthetics from an interdisciplinary perspective Combining in depth theoretical reflection with a diverse selection of case studies its authors explore the aesthetic forms of AI generated medial objects as well as the cultural imaginaries that the latter draw upon Bringing together a group of scholars from various geographic and disciplinary backgrounds the chapters move within and across different conceptualizations of AI aesthetics that can be located in between an aesthetics as artistics that is primarily concerned with aesthetic judgments related to skill and connoisseurship and an aesthetics as aisthetics that identifies all kinds of embodied perception as its object The book thus reflects on both the theoretical and the methodological implications of AI aesthetics while also demonstrating that this is still very much an emerging research field and that no dominant conceptualization of AI aesthetics has yet emerged Considering its decidedly international and interdisciplinary scope AI Aesthetics AI Generated Images between Artistics and Aisthetics will appeal to scholars and students within media studies cultural studies literary studies philosophy art history visual culture studies digital humanities and critical AI studies The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
