Goodman, 2012-12-06 This volume contains the proceedings of the Conference on the p n Reaction and the Nucleon Nucleon Force held in Telluride Colorado March 29 31 1979 The idea to hold this conference grew out of a program at the Indiana University Cyclotron Facility to study the p n reaction in the 50 200 MeV energy range The first new Indiana data in contrast to low energy data showed features suggestive of a dominant one pion exchange interaction It seemed desirable to review what was known about the free and the effective nucleon nucleon force and the connection between the low and high energy p n data Thus the conference was born The following people served as the organizing committee S M Austin Michigan State University W Bertozzi Massachusetts Institute of Technology S D Bloom Lawrence Livermore Laboratory C C Foster Indiana University C D Goodman Oak Ridge National Laboratory Conference Chairman D A Lind University of Colorado J Rapaport Ohio University G R Satchler Oak Ridge National Laboratory G E Walker Indiana University R L Walter Duke University and TUNL The sponsoring organizations were Indiana University Bloomington Indiana University of Colorado Boulder Colorado Oak Ridge National Laboratory Oak Ridge Tennessee Triangle Universities Nuclear Laboratory Durham North Carolina Of course the major credit for the success of the conference must go to the speakers who diligently prepared their talks that are reproduced in this volume      Photonuclear Reaction Data, 1973 Center for Radiation Research, 1973      **Intermediate Energy Nuclear Physics - 6th Summer Course & 1st Winter Course Of The International School** C Schaerf, Salvatore Costa, Giuseppina Orlandini, 1990-10-29 The proceedings center around a review and discussion of the most significant results obtained to date through the study of nuclear structure with electromagnetic and other high energy probes
