20th Century Media and the American Psyche Charisse L'Pree Corsbie-Massay, 2020-10-13 This innovative text bridges media theory psychology and interpersonal communication by describing how our relationships with media emulate the relationships we develop with friends and romantic partners through their ability to replicate intimacy regularity and reciprocity In research rich conversational chapters the author applies psychological principles to understand how nine influential media technologies theatrical film recorded music consumer market cameras radio network and cable television tape cassettes video gaming and dial up internet service providers irreversibly changed the communication environment culture and psychological expectations that we then apply to future media technologies With special attention to mediums absent from the traditional literature including recorded music cable television and magnetic tape this book encourages readers to critically reflect on their own past relationships with media and consider the present environment and the future of media given their own personal habits 20th Century Media and the American Psyche is ideal for media studies communication and psychology students scholars and industry professionals as well as anyone interested in a greater understanding of the psychological significance of media technology usage and adoption across the past 150 years West

Orange Joseph Fagan, 2009-04-20 Although West Orange is best known for Thomas Edison there is much more to this New Jersey town than its famous inventor Through vintage postcards West Orange explores the town's history from the days of cable cars that once climbed the mountain to the long gone amusement park at Crystal Lake Postcards illustrate how Llewellyn Park and Eagle Rock share a common beginning and West Orange once had two train stations The familiar roads of

home come alive as images reveal West Oranges rich history **Encyclopedia of Twentieth-Century Photography, 3-Volume Set** Lynne Warren,2005-11-15 The Encyclopedia of Twentieth Century Photography explores the vast international scope of twentieth century photography and explains that history with a wide ranging interdisciplinary manner This unique approach covers the aesthetic history of photography as an evolving art and documentary form while also recognizing it as a developing technology and cultural force This Encyclopedia presents the important developments movements photographers photographic institutions and theoretical aspects of the field along with information about equipment techniques and practical applications of photography To bring this history alive for the reader the set is illustrated in black and white throughout and each volume contains a color plate section A useful glossary of terms is also included

A World at War, 1911-1949 ,2019-03-27 In *A World At War 1911 1949* leading and emerging scholars of the cultural history of the two world wars begin to break down the traditional barriers between the historiographies of the two conflicts identifying commonalities as well as casting new light on each as part of a broader mission in honour of Professor John Horne to expand the boundaries of academic exploration of warfare in the 20th century Utilizing techniques and approaches developed by cultural historians of the First World War this volume showcases and explores four crucial themes relating to the socio cultural attributes and representation of war that cut across both the First and Second World Wars cultural mobilization the nature and depiction of combat the experience of civilians under fire and the different meanings of victory and defeat Contributors are Annette Becker Robert Dale Alex Dowdall Robert Gerwarth John Horne Tom s Irish Heather Jones Alan Kramer Edward Madigan Anthony McElligott Michael S Neiberg John Paul Newman Catriona Pennell Filipe Ribeiro de Meneses Daniel Todman and Jay Winter See inside the book The Future of Exploration Chris Rainier,Terry Garcia,2023-10-24 At this very moment explorers in some of the most remote and dangerous places on earth from the deepest parts of the ocean to the highest mountains and to outer space are enduring unimaginable hardships to expand our knowledge and save what is truly important Join former National Geographic Executive Vice President and Chief Science Officer Terry Garcia and nature and cultural photographer Chris Rainier a National Geographic Explorer on a journey with some of the world s most renowned and respected explorers scientists astronauts visionaries thinkers and authors as they discuss and share their insights about what motivates them what is left to explore and why we should care in *The Future of Exploration* Exploration is as old as humankind but there are still surprises that await us With technology opening doors that once seemed permanently closed the twenty first century will be the greatest age of exploration in our history Accompanied with awe inspiring photography each contributor shares their personal achievements and insight into what the future of exploration looks like from their respective fields the challenges we face and possible solutions Whether delving into the terrestrial oceanic or cosmic frontiers embark on a journey into the uncharted future and be inspired yourself to be a part of the future of exploration **The People and the State** Thomas O'Brien,2017-08-09 Protest has proliferated in the early

part of the twenty first century forcing change in political systems and challenging established patterns of behaviour The factors driving these protests range from religion and inequality through to the effectiveness of the state and its role in protecting the rights of citizens The growth in discontent represented by these protests potentially threatens the stability of the state by raising questions about the right of governments to govern Anger and frustration embodied in many of these actions has resulted in the growth of support for populist political actors promising simplified solutions to the complex underlying issues In this way the inability of the state to address the claims of its population potentially places its continued viability at risk The cases in this collection examine a range of protest movements from around the world in both democratic and authoritarian political systems to provide an overview of contemporary issues and protest forms Addressing contemporary protest in this manner is an important task in supporting our understanding of the root causes of the current tensions and their possible future effects This book is a compilation of articles from a special issue of Contemporary Social Science with additional papers selected from Contemporary Politics Journal of Contemporary China and Democratization

Ethical Issues in the Communication Process J. Vernon Jensen, 2013-11-05 A rapid and widespread growth of interest in applied ethics is occurring today not only in the United States but around the world as well Academia both reflects this and is a leader in the movement The field of speech communication shares in this increased sensitivity to ethical concerns Students and the general public are looking for thoughtful analyses and guidance in all areas of communication Ethical concerns relative to mass communication have been the subject of a number of books but only a very few cover the entire scope of communication to include interpersonal intercultural organizational small groups and public speaking This book tries to fill that need by discussing ethical concerns as they emerge in the areas of the communication process the communicator the message the media the audience and the situation The speech communication field now has a need to digest and synthesize the existing research findings and the general literature in the field and in related humanities and social science works into a coherent and nontechnical discussion This volume explores the most up to date materials to provide just such a synthesis An extensive bibliography at the end of the book gives readers the sources on which the book is based and offers ample avenues for further personal exploration The book should provide meaningful food for thought as readers grapple conscientiously with the many everyday decisions made in communication transactions and in evaluating the communication of others
