Phrenology Orson Squire Fowler, Lorenzo Niles Fowler, 184? *Phrenology - A Practical Guide to the Head* O. S. Fowler, 2001-08-01 *New York Magazine*, 1969-12-15 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **Mark Twain, Dr. Oliver Wendell Holmes, and the Head Readers** Stanley Finger, 2023-04-06 A study of Mark Twain's and Dr Oliver Wendell Holmes's interests in phrenology as revealed often humorously in their writings The Phrenologist Susan Yaremczuk, 2018-04-18 Professor Phineas Crowne was born in Toronto Canada with a peculiar purple protrusion on his forehead This curious anomaly sometimes impedes and sometimes accelerates Phineas's emotional and physical development and his navigation through the stages of life From birth to death Phineas must contend with his peculiarity and with excruciating headaches that worsen as he ages Despite his infamous bulge Crowne's rare intelligence catapults him into the world of pseudo medicine In the latter half of the nineteenth century while studying under the tutelage of renowned phrenologist Orson Fowler Phineas Crowne begins what becomes an amazing career in the city of his birth Through *The Phrenologist* the author enlightens the reader on this lost science by paralleling the thirty seven bumps of the skull with the drama of Phineas's life The abnormal growth remains a mystery until at the conclusion of the captivating tale the author reveals the shocking truth of the BUMP Brain Culture Davi Johnson Thornton, 2011 *Brain Culture* investigates the American obsession with the health of the brain Davi Johnson Thornton looks at familiar messages tracing how brain science and colorful brain images produced by scientific technologies are taken up and distributed in popular media She tracks the message that you are your brain across multiple contemporary contexts analyzing its influence on child development family life education and public policy Our fixation on the brain is not simply a reaction to scientific progress but a cultural phenomenon tied to values of individualism and limitless achievement **Typecasting** Stuart Ewen, Elizabeth Ewen, 2011-01-04 *Typecasting* chronicles the emergence of the science of first impression and reveals how the work of its creators early social scientists continues to shape how we see the world and to inform our most fundamental and unconscious judgments of beauty humanity and degeneracy In this groundbreaking exploration of the growth of stereotyping amidst the rise of modern society authors Ewen Ewen demonstrate typecasting as a persistent cultural practice Drawing on fields as diverse as history pop culture racial science and film and including over one hundred images many published here for the first time the authors present a vivid portrait of stereotyping as it was forged by colonialism industrialization mass media urban life and the global economy Embodiment and Agency Sue Campbell, Letitia Maynell, 2010-11-01 The Harriet Jacobs Family Papers Jean Fagan Yellin, 2015-12-01 Although millions

of African American women were held in bondage over the 250 years that slavery was legal in the United States Harriet Jacobs 1813-97 is the only one known to have left papers testifying to her life Her autobiography *Incidents in the Life of a Slave Girl* holds a central place in the canon of American literature as the most important slave narrative by an African American woman Born in Edenton North Carolina Jacobs escaped from her owner in her mid twenties and hid in the cramped attic crawlspace of her grandmother's house for seven years before making her way north as a fugitive slave In Rochester New York she became an active abolitionist working with all of the major abolitionists feminists and literary figures of her day including Frederick Douglass Lydia Maria Child Amy Post William Lloyd Garrison Susan B Anthony Harriet Beecher Stowe Fanny Fern William C Nell Charlotte Forten Grimke and Nathan Parker Willis Jean Fagan Yellin has devoted much of her professional life to illuminating the remarkable life of Harriet Jacobs Over three decades of painstaking research Yellin has discovered more than 900 primary source documents approximately 300 of which are now collected in two volumes These letters and papers written by for and about Jacobs and her activist brother and daughter provide for the thousands of readers of *Incidents* from scholars to schoolchildren access to the rich historical context of Jacobs's struggles against slavery racism and sexism beyond what she reveals in her pseudonymous narrative Accompanied by a CD containing a searchable PDF file of the entire contents this collection is a crucial launching point for future scholarship on Jacobs's life and times
