Theory for Performance Studies: A Student's Guide is a clear and concise handbook to the key connections between performance studies and critical theory since the 1960s Philip Auslander looks at the way the concept of performance has been engaged across a number of disciplines Beginning with four foundational figures Freud Marx Nietzsche and Saussure Auslander goes on to provide guided introductions to the major theoretical thinkers of the past century from Althusser to Žižek Each entry offers biographical theoretical and bibliographical information along with a discussion of each figure's relevance to theatre and performance studies and suggestions for future research Brisk thoughtful and engaging this is an essential first volume for anyone at work in theatre and performance studies today Adapted from *Theory for Religious Studies* by William E Deal and Timothy K Beal *Encyclopedia of Contemporary Literary Theory* Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and

sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the Encyclopedia of Contemporary Literary Theory provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years Some 170 scholars from around the world have contributed their expertise to this volume Their work is organized into three parts In Part I forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose The essays also discuss the uses and limitations of the various schools and the key issues they address Part II focuses on individual theorists It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context Part III deals with the vocabulary of literary theory It identifies significant complex terms places them in context and explains their origins and use Accessibility is a key feature of the work By avoiding jargon providing mini bibliographies and cross referencing throughout Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture

The Politics of Enchantment J. David Black, 2006-01-01 What do raves have to do with eighteenth century Romanticism or the latest communication technologies with historical ideas about language media and culture Today s culture dazzles us with technological marvels and media spectacles While we find them entertaining just as often they are troubling they seem to contradict common sense eliciting such questions as What is real or What is reality and What is language or What does language do These questions once confined to scholars have become everyone s concern Some of the best answers might be found in an unexpected source Romanticism Too often we bring the values of the Enlightenment particularly that of reason to critique phenomena not inherently rational such as pop culture or the Internet This means that much criticism of current culture already has an intellectual foundation antagonistic to it inviting postmodern arguments that suggest history has ended and reality is an illusion In contrast Romanticism a cultural movement founded in Germany and England during the late eighteenth century offers us an archive of concepts surprisingly sensitive to these problems The Romantics were poets dreamers and politicians who advanced ideas that anticipated much contemporary thinking David Black has organized these ideas systematically and has then applied them to key issues in communications such as representation audience and the information society as well as to significant debates in cultural studies As a result The Politics of Enchantment offers a new theory of media and culture that is grounded in intellectual history yet as feverishly current as the latest digital device

Sexing the Self Elspeth Probyn, 2003-09-02 Faced with the seemingly enormous difficulty of representing others many theorists working in Cultural Studies have been turning to themselves as a way of speaking about the personal In *Sexing the Self* Elspeth Probyn tackles this question of the sex of the self an issue of vital importance to feminists and yet neglected by feminist theory until now to suggest that there are ways of using our gendered selves in order to speak and theorize non essential but embodied selves Arguing for feminisms with attitude *Sexing the Self*
