## Ri Han Ci Dian:

**2014** Li Yuming, Li Wei, 2019-09-23 China with the world's largest population numerous ethnic groups and vast geographical space is also rich in languages. Since 2006 China's State Language Commission has been publishing annual reports on what is called language life in China. These reports cover language policy and planning initiatives at the national, provincial and local levels, new trends in language use in a variety of social domains and major events concerning languages in mainland China, Hong Kong, Macau and Taiwan. Now for the first time these reports are available in English for anyone interested in Chinese language and linguistics. China's language education and social policies as well as everyday language use among the ordinary people in China. The invaluable data contained in these reports provide an essential reference to researchers, professionals, policy makers and China watchers. *Twentieth Century China* James H. Cole, 2004. Emphasizing reference works published since 1964, these volumes cover books, periodicals and inclusions, i.e. chapters in edited volumes on the 1911 Revolution, the Republic of China, 1949, post 1911 Taiwan, post 1911 Hong Kong and Macao and post 1911 overseas Chinese. The Emergence of the Modern Sino-Japanese Lexicon, 2015-02-04. It has long been known that the modern Chinese language inherited numerous terms from Japanese and that Japanese coined many of those terms in the last decades of the 19th century. These seven essays address the actual processes by which a discrete number of terms came into being, how they outdistanced competitors and the persons and texts involved in the process. Rather than relying on received tropes of translation heritage, these essays delve much deeper into the particularities of their cases. They set a standard for subsequent scholarship. **Broadening Perspectives in the History of Dictionaries and Word Studies** Hans Van de Velde, Fredric T. Dolezal, 2021-10-22. This volume brings together fifteen articles exploring the linguistic and literary foundations of lexicography and lexicology. Topics explored here include a discussion of the relationships between lexicography and ideology in China, Frisian legal language and the *Deutsches Rechtswörterbuch*, the history and lexicography of Faroese *Wortgeschichte*, digital and its relation to Grimmian tradition, the linguistic history of phonetically imitative words and studies of Croatian, Czech, English, Greek and Turkish historical dictionaries. The book also presents a digital and textual study on the status of eponyms across the history of the Royal Society as well as a study of German paronym dictionaries, a modern history of bilingual Russian-Tajik terminological dictionaries and a historical overview of the lexicography of Frisian. The research findings and close readings by expert practitioners and historians of dictionaries and word studies found in the pages of this volume continue to broaden critical perspectives upon the study of manuscripts and print artifacts, dictionaries and standard varieties, biographies, bibliography and text analyses, dictionary production and corpus and digital analyses. *Man and Nature in the Altaic World*. Barbara Kellner-Heinkele, Brigitte Heuer, Elena V. Boykova, 2020-08-10. No detailed description available for *Man and Nature in the Altaic World*. *Cognitive-Functional Approaches to the Study of Japanese as a Second Language* Kaori Kabata, Kiyoko Toratani, 2016-01-15. This innovative and original volume brings together studies

that apply cognitive and functional linguistics to the study of the L2 acquisition of Japanese With each article grounded on the usage based model and or conceptual notions such as foregrounding and subjectivity the volume sheds light on how cognitive and functional linguistics can help us understand aspects of Japanese acquisition that have been neglected by traditionalists

linguistics and language and culture      Sexual and Reproductive Health in China Kaining Zhang,2011-04-21 *Sexual and Reproductive Health in China Reorienting Concepts and Methodology* is translated from the original Chinese version and presents a multi disciplinary approach to the current assessment of the changes in sexual and reproductive health during the past thirty years This volume and the others in the SSRC series provide western scholars with an accessible English language look at the state of current scholarship in China and as such does not simply provide information for the direct study of socio political issues but also for meta level analysis of how the domestic scholarship in China is developing and assessing the

interplay of the country's political and economic reforms with the society and daily life of its people      **The Manchurian Myth** Rana Mitter, 2000-12-02 A powerful element in twentieth century Chinese politics has been the myth of Chinese resistance to Japan's seizure of Manchuria in 1931. Investigating the shifting alliances of key players in that event, Rana Mitter traces the development of the narrative of resistance to the occupation and shows how it became part of China's political consciousness enduring even today. After Japan's September 1931 military strike leading to a takeover of the Northeast, the Chinese responded in three major ways: collaboration, resistance in exile, and resistance on the ground. What motives prompted some Chinese to collaborate, others to resist? What were conditions like under the Japanese? Through careful reading of Chinese and Japanese sources, particularly local government records, newspapers, and journals published both inside and outside occupied Manchuria, Mitter sheds important new light on these questions.      *China Report*, 1980

*Heavenly Numbers* Christopher Cullen, 2017 This book is a history of the development of mathematical astronomy in China from the late third century BCE to the early 3rd century CE, a period often referred to as early imperial China. It narrates the changes in ways of understanding the movements of the heavens and the heavenly bodies that took place during those four and a half centuries and tells the stories of the institutions and individuals involved in those changes. It gives clear explanations of technical practice in observation, instrumentation, and calculation, and the steady accumulation of data over many years, but it centres on the activity of the individual human beings who observed the heavens, recorded what they saw, and made calculations to analyse and eventually make predictions about the motions of the celestial bodies. It is these individuals, their observations, their calculations, and the words they left to us that provide the narrative thread that runs through this work. Throughout the book, the author gives clear translations of original material that allow the reader direct access to what the people in this book said about themselves and what they tried to do.      Twentieth Century China: An Annotated Bibliography of Reference Works in Chinese, Japanese and Western Languages

James H. Cole, 2019-07-23 This bibliography of reference works from Chinese, Japanese, and Western language sources covers the 1911 Revolution, the Republic of China, 1912-1949, the People's Republic of China, 1949 onwards, post-1911 Hong Kong and Macau, and post-1911 overseas Chinese. Filled with helpful checklists, charts, and suggestions for further reading, this practical, comprehensive, and multidisciplinary guide takes readers through the entire case-writing process, including skills for writing both teaching cases and research cases. This edition includes new discussions of students as case writers and how to interpret and respond to reviews, as well as updated and expanded material on video, multimedia, and Internet cases.      **National Library of**
