Ribe Excavations 1970-76:

Ribe Excavations, 1970-76 Mogens Bencard, Helge Brinch Madsen, 1981 This is the fifth and last volume in a series presenting the results of one of Scandinavia's most important excavations carried out in the town of Ribe in southern Denmark from 1970-76. There, researchers extracted remains of a permanent settlement and marketplace founded in 704-710. The findings revealed an 8th-century trading site of a character never seen before in the Scandinavian region and this has put Denmark in a new light in North European development of this period. Volume 5 compares the results of the excavations in the 1970s with those made in the following decade. A team of scholars from the humanities and natural sciences have contributed articles that examine different perspectives of the subject. Like the entire series, the present volume containing rich material from the little-known 8th century in Scandinavia is an important contribution to research in the history of civilization.

Ribe Excavations, 1970-76 Mogens Bencard, 1981 **Ribe 700-1050** Morten Søvsø, 2020-12-17 In 2006 Claus Feveile published *Det ldeste Ribe*. The earliest Ribe launching the publication series *Ribe Studier* / *Ribe Studies*. The goal of that series was to make the core archaeological evidence from excavations in the town of Ribe between 1984 and 2000 accessible to the scholarly world and to give an account of Ribe's special status in the archaeological landscape of Denmark and northern Europe. *Ribe 700-1050* *From Emporium to Civitas in Southern Scandinavia* is volume 2 in *Ribe Studies*. The main text here provides a comprehensive presentation and analysis of the archaeology of the town through to the end of the Viking Period. Alongside that, the book has a major topographical section which discusses West Jutland in this period and the connexions between Ribe and the hinterland of the town. In addition, a concluding chapter discusses the origin of towns in southern Scandinavia.

Ribe Excavations, 1970-1976 Mogens Bencard, 1981 **The Long Eighth Century** Inge Lyse Hansen, Chris Wickham, 2021-11-22 The eighth century has not been analysed as a period of economic history since the 1930s and is ripe for a comprehensive reassessment. The twelve papers in this book range over the whole of Europe and the Mediterranean from Denmark to Palestine, covering Francia, Italy, and Byzantium on the way. They examine regional economies and associated political structures; that is to say, the whole network of production, exchange, and social relations in each area. They offer both authoritative overviews of current work and new and original work. As a whole, they show how the eighth century was the first century when the post-Roman world can clearly be seen to have emerged in the regional economies of each part of Europe.

The Viking World Stefan Brink, Neil Price, 2008-10-31 Filling a gap in the literature for an academically oriented volume on the Viking period, this unique book is a one-stop authoritative introduction to all the latest research in the field and the most comprehensive book of its kind ever attempted.

Urbanization in Viking Age and Medieval Denmark Maria Corsi, 2025-10-01 This study traces the history of urbanization in Denmark from c. 500 to 1350 and explores how interconnected political, religious, and economic factors were instrumental in bringing about the growth of towns. Prior to urban development, certain specialized sites such as elite residences and coastal landing places performed

many of the functions that would later be taken over by medieval towns Fundamental changes in political power the coming of Christianity and economic development over the course of the Viking and Middle Ages led to the abandonment of these sites in favour of new urban settlements that would come to form the political religious and economic centres of the medieval kingdom Bringing together both archaeological and historical sources this study illustrates not only how certain cultural and economic shifts were crucial to the development of towns but also the important role urbanization had in the transition from Viking to medieval Denmark

The Cambridge History of Scandinavia Knut Helle,2003-09-04 This volume presents a comprehensive exposition of both the prehistory and medieval history of the whole of Scandinavia The first part of the volume surveys the prehistoric and historic Scandinavian landscape and its natural resources and tells how man took possession of this landscape adapting culturally to changing natural conditions and developing various types of community throughout the Stone Bronze and Iron Ages The rest and most substantial part of the volume deals with the history of Scandinavia from the Viking Age to the end of the Scandinavian Middle Ages c 1520 The external Viking expansion opened Scandinavia to European influence to a hitherto unknown degree A Christian church organisation was established the first towns came into being and the unification of the three medieval kingdoms of Scandinavia began coinciding with the formation of the unique Icelandic Free State

Broken Bodies, Places and Objects Anna Sörman,Astrid A. Woven into the Earth Else Ostergaard,2003-05-01 One of the century s most spectacular archaeological finds

occurred in 1921 a year before Howard Carter stumbled upon Tutankhamun's tomb when Poul Norlund recovered dozens of garments from a graveyard in the Norse settlement of Herjolfsnaes Greenland Preserved intact for centuries by the permafrost these mediaeval garments display remarkable similarities to western European costumes of the time Previously such costumes were known only from contemporary illustrations and the Greenland finds provided the world with a close look at how ordinary Europeans dressed in the Middle Ages Fortunately for Norlund's team wood has always been extremely scarce in Greenland and instead of caskets many of the bodies were found swaddled in multiple layers of cast off clothing When he wrote about the excavation later Norlund also described how occasional thaws had permitted crowberry and dwarf willow to establish themselves in the top layers of soil Their roots grew through coffins clothing and corpses alike binding them together in a vast network of thin fibers as if he wrote the finds had been literally sewn in the earth Eighty years of technical advances and subsequent excavations have greatly added to our understanding of the Herjolfsnaes discoveries Woven into the Earth recounts the dramatic story of Norlund's excavation in the context of other Norse textile finds in Greenland It then describes what the finds tell us about the materials and methods used in making the clothes The weaving and sewing techniques detailed here are surprisingly sophisticated and one can only admire the talent of the women who employed them especially considering the harsh conditions they worked under While Woven into the Earth will be invaluable to students of medieval archaeology Norse society and textile history both lay readers and scholars are sure to find the book's dig narratives and glimpses of life among the last Vikings fascinating *Framing the Early Middle Ages* Chris

Wickham, 2005-09-22 Wickham argues that only a complex comparative analysis can act as the basis for a wider synthesis

Viking Worlds Marianne Hem Eriksen, Unn Pedersen, Bernt Rundberget, Irmelin Axelsen, Heidi Lund Berg, 2014-11-30 Fourteen papers explore a variety of inter disciplinary approaches to understanding the Viking past both in Scandinavia and in the Viking diaspora Contributions employ both traditional inter or multi disciplinarian perspectives such as using historical sources Icelandic sagas and Eddic poetry and also specialised methodologies and or empirical studies place name research the history of religion and technological advancements such as isotope analysis Together these generate new insights into the technology social organisation and mentality of the worlds of the Vikings Geographically contributions range from Iceland through Scandinavia to the Continent Scandinavian British and Continental Viking scholars come together to challenge established truths present new definitions and discuss old themes from new angles Topics discussed include personal and communal identity gender relations between people artefacts and places spaces rules and regulations within different social arenas processes of production trade and exchange and transmission of knowledge within both past Viking age societies and present day research Displaying thematic breadth as well as geographic and academic diversity the articles may foreshadow up and coming themes for Viking Age research Rooted in different traditions using diverse methods and exploring eclectic material *Viking Worlds* will provide the reader with a sense of current and forthcoming issues debates and

Medieval Clothing and Textiles Robin Netherton, Gale R. Owen-Crocker, Monica L. Wright, 2015 A wide ranging and varied collection of essays which examine surviving garments methods of production and clothes in society The second decade of this acclaimed and popular series begins with a volume that will be essential reading for historians and re enactors alike Two papers consider cloth manufacture in the early medieval period Ingvald ye examines the graves of prosperous Viking Age women from Western Norway which contained both textile making tools and the remains of cloth considering the relationship between the two Karen Nicholson compliments this with practical experiments in spinning This is followed by Tina Anderlini s close examination of the details of cut and construction of a thirteenth century chemise attributed to King Louis IX of France St Louis out of its shrine for the first time since 1970 Three papers consider fashionable clothing and morality Sarah Grace Heller discusses sumptuary legislation from Angevin Sicily in the 1290s which sought to restrict men s dress at a time when preparation for war was more important than showy clothes Cordelia Warr examines the dire consequences of a woman dressing extravagantly as portrayed in a fourteenth century Italian fresco and Emily Rozier discusses the extremes of dress attributed by moral and satirical writers to the men known as galeaunts Two textual studies then show the importance of textiles in daily life Susan Powell reveals the austere but magnificent purchases made on behalf of Lady Margaret Beaufort mother of King Henry VII in the last ten years of her life 1498 1509 Anna Riehl Bertolet discusses in detail the passage in Shakespeare s *A Midsummer Night s Dream* where Helena passionately recalls sewing a sampler with Hermia when they were young and still bosom friends

Crafts and Social Networks in Viking

Towns Stephen P. Ashby, Søren Sindbaek, 2020-02-19 *Crafting Communities* explores the interface between craft communication networks and urbanization in Viking age Northern Europe Viking period towns were the hubs of cross cultural communication of their age and innovations in specialized crafts provide archaeologists with some of the best evidence for studying this communication The integrated results presented in these papers have been made possible through the sustained collaboration of a group of experts with complementary insights into individual crafts Results emerge from recent scholarly advances in the study of artifacts and production first the application of new analytical techniques in artifact studies e g metallographic isotopic and biomolecular techniques and second the shifted in interpretative focus of medieval artifact studies from a concern with object function to considerations of processes of production and of the social agency of technology Furthermore the introduction of social network theory and actor network theory has redirected attention toward the process of communication and highlighted the significance of material culture in the learning and transmission of cultural knowledge including technology The volume brings together leading UK and Scandinavian archaeological specialists to explore crafted products and workshop assemblages from these towns in order to clarify how such long range communication

worked in pre modern Northern Europe Contributors assess the implications for our understanding of early towns and the long term societal change catalysed by them including the initial steps towards commercial economies Results are analyzed in relation to social network theory social and economic history and models of communication setting an agenda for further research *Crafting Communities* provides a landmark statement on our knowledge of Viking Age craft and communication

Frisians and Their North Sea Neighbours John Hines, Nelleke IJssennagger, 2017 La 4e de couv indique As early as the 1st century AD learned Romans knew of more than one group of people living in north western Europe beyond their Empire s Gallic provinces whose names contained the element that gives us modern Frisian Those apparently were Celtic speaking peoples but that population seems to have completely replaced in the course of the convulsions that Europe underwent at the transition from the Ancient world to the Early Medieval in the 4th and 5th centuries The importance of linguistically Germanic Frisians as neighbours of the Anglo Saxons Franks Saxons and Danes in the centuries immediately following the fall of the Roman Empire in the West is widely recognized and yet these folk themselves remain enigmatic and the details of their culture and organization unfamiliar to many The Frisian population and their lands are the focal point of this volume although as is shown we often have to approach and to understand these people through comparison with or even through the eyes of their neighbours Empirically this perspective embraces all of the coastal communities of the North Sea region and their connexions with the Baltic shores Twelve separate but complementary papers present the most up to date discoveries

research and interpretations following the story of the various Frisians through from the Roman Period to the next great period of disruption and change introduced by the Viking Scandinavians Methodologically the thorough combination and integration of linguistic textual and archaeological evidence offers a new multidisciplinary template and sets new standards for Early Medieval studies
