Sentimental Education Schooling Popular Culture And The Regulation Of Liberty:

Sentimental Education James Donald, 1992-05-17 What sort of institution is education In this iconoclastic study James Donald restores the school to its proper place at the heart of post Enlightenment culture and politics He traces the emergence of education as an apparatus designed forlornly to shape the souls of citizens He also draws illuminating analogies between education and broadcasting showing how both conjure up publics and structure the everyday lives of individuals To balance this focus on the institution of cultural norms Donald emphasizes the dynamics of fantasy and desire in their negotiation He therefore juxtaposes the normative practices of education and broadcasting against more transgressive forms of popular culture pornography racist thrillers like Fu Manchu vampire films and what he calls the vulgar sublime Finally drawing on postmodern debates about community and democracy he sketches a context for reforms in broadcasting and presents a provocative alternative to orthodox progressive ideas about education from the primary school to the university

Education And The Struggle For Democracy Carr, Wilfred, Hartnett, Anthony, 1996-03-01 During the past decade there has been a series of radical changes to the educational system of England and Wales This book argues that any serious study of these changes has to engage with complex questions about the role of education in a modern liberal democracy Were these educational changes informed by the needs and aspirations of a democratic society To what extent will they promote democratic values and ideals These questions can only be adequately addressed by making explicit the political ideas and the underlying philosophical principles that have together shaped the English educational system To this end the book provides a selective history of English education which exposes the connections between decisive periods of educational change and the intellectual and political climate in which it occurred It also connects the educational policies of the 1980s and 90s to the political ideas of the New Right in order to show how they are part of a broader political strategy aimed at reversing the democratic advances achieved through the intellectual and political struggles of the nineteenth and twentieth centuries The book proposes that a democratic educational vision can only effectively be advanced by renewing the struggle for democracy the historical struggle to create forms of education which will empower all citizens to participate in an open pluralistic and democratic society
