Watershed Moment Mary L. Dudziak, 2003 **9/11: Culture, Catastrophe and the Critique of Singularity** Diana Gonçalves, 2016-10-24 Even though much has been said and written about 9 11 the work developed on this subject has mostly explored it as an unparalleled event a turning point in history This book wishes to look instead at how disruptive events promote a network of associations and how people resort to comparison as a means to make sense of the unknown i e to comprehend what seems incomprehensible In order to effectively discuss the complexity of 9 11 this book articulates different fields of knowledge and perspectives such as visual culture media studies performance studies critical theory memory studies and literary studies to shed some light on 9 11 and analyze how the event has impacted on American social and cultural fabric and how the American society has come to terms with such a devastating event A more in depth study of Don DeLillo s *Falling Man* and Jonathan Safran Foer s *Extremely Loud and Incredibly Close* draws attention to the cultural construction of catastrophe and the plethora of cultural products 9 11 has inspired It demonstrates how the event has been integrated into American culture and exemplifies what makes up the 9 11 imaginary , War Time Mary L. Dudziak, 2013-09-19 When is wartime In common usage it is a period of time in which a society is at war But we now live in what President Obama has called an age without surrender ceremonies where the war on terror remains open ended and presidents announce an end to conflict in Iraq even as conflict on the ground persists It is no longer easy to distinguish between wartime and peacetime In this inventive meditation on war time and the law Mary L Dudziak argues that wartime is not a discrete or easily defined period of time Indeed America has been engaged in some form of ongoing overseas armed conflict for over a century Yet policy makers and the American public continue to view wars as exceptional events that eventually give way to normal peace times a conception that Dudziak believes has two significant consequences First because war is thought to be exceptional wartime remains a shorthand argument justifying extreme actions like torture and detention without trial Second ongoing warfare is enabled by the inattention of the American people More disconnected than ever from the wars their nation is fighting public disengagement leaves us without political restraints on the exercise of American war powers Articulating the disconnect between the way we imagine wartime and the practice of American wars Dudziak illuminates the way the changing nature of American warfare undermines democratic accountability yet makes democratic engagement all the more necessary Dust jacket **9/11 and the Visual Culture of Disaster** Thomas Stubblefield, 2014-12-17 An insightful view on how 9 11 is perceived in American society the day that refuses to enter history the tragedy that has in effect not yet passed *Journal of Popular Culture* The day the towers fell indelible images of plummeting rubble fire and falling bodies were imprinted in the memories of people around the world Images that were caught in the media loop after the disaster and coverage of the attack its aftermath and the wars that followed reflected a

pervasive tendency to treat these tragic events as spectacle Though the collapse of the World Trade Center was the most photographed disaster in history it failed to yield a single noteworthy image of carnage Thomas Stubblefield argues that the absence within these spectacular images is the paradox of 9 11 visual culture which foregrounds the visual experience as it obscures the event in absence erasure and invisibility From the spectral presence of the Tribute in Light to Art Spiegelman s nearly blank New Yorker cover from the elimination of the Twin Towers from TV shows and films to the monumental cavities of Michael Arad s 9 11 memorial the void became the visual shorthand for the incident By examining configurations of invisibility and erasure across the media of photography film monuments graphic novels and digital representation Stubblefield interprets the post 9 11 presence of absence as the reaffirmation of national identity that implicitly laid the groundwork for the impending invasions of Iraq and Afghanistan A concise engaging and thought provoking work that asks the reader to reassess their knowledge and relationship to that moment and the resulting milieu of post 9 11 life in America ARLIS NA Reviews Extraordinarily brilliant will change how we think about disasters and tragedies The book is a must read for both students and practitioners of media studies Repository **The War of My Generation** David Kieran,2015-08-04 Following the 9 11 attacks approximately four million Americans have turned eighteen each year and more than fifty million children have been born These members of the millennial and post millennial generation have come of age in a moment marked by increased anxiety about terrorism two protracted wars and policies that have raised questions about the United States s role abroad and at home Young people have not been shielded from the attacks or from the wars and policy debates that followed Instead they have been active participants as potential military recruits and organizers for social justice amid anti immigration policies as students in schools learning about the attacks or readers of young adult literature about wars The War of My Generation is the first essay collection to focus specifically on how the terrorist attacks and their aftermath have shaped these new generations of Americans Drawing from a variety of disciplines including anthropology sociology cultural studies and literary studies the essays cover a wide range of topics from graphic war images in the classroom to computer games designed to promote military recruitment to emails from parents in the combat zone The collection considers what cultural factors and products have shaped young people s experience of the 9 11 attacks the wars that have followed and their experiences as emerging citizen subjects in that moment Revealing how young people understand the War on Terror and how adults understand the way young people think The War of My Generation offers groundbreaking research on catastrophic events still fresh in our minds **The Cultural Turn in U. S. History** James W. Cook, Lawrence B. Glickman, Michael O'Malley,2012-06-12 A definitive account of one of the most dominant trends in recent historical writing The Cultural Turn in U S History takes stock of the field at the same time as it showcases exemplars of its practice The first of this volume s three distinct sections offers a comprehensive genealogy of American cultural history tracing its multifaceted origins defining debates and intersections with adjacent fields The second section comprises previously unpublished essays

by a distinguished roster of contributors who illuminate the discipline's rich potential by plumbing topics that range from nineteenth century anxieties about greenback dollars to confidence games in 1920s Harlem from Shirley Temple's career to the story of a Chicano community in San Diego that created a public park under a local freeway Featuring an equally wide ranging selection of pieces that meditate on the future of the field the final section explores such subjects as the different strains of cultural history its relationships with arenas from mass entertainment to public policy and the ways it has been shaped by catastrophe Taken together these essays represent a watershed moment in the life of a discipline harnessing its vitality to offer a glimpse of the shape it will take in years to come

International History of the Twentieth Century and Beyond Antony Best, Jussi M. Hanhimäki, Joseph A. Maiolo, Kirsten E. Schulze, 2014-12-17 This hugely successful global history of the twentieth century is written by four prominent international historians for first year undergraduate level and upward Using their thematic and regional expertise the authors have produced an authoritative yet accessible and seamless account of the history of international relations in the last century covering events in Europe Asia the Middle East Africa and the Americas They focus on the history of relations between states and on the broad ideological economic and cultural forces that have influenced the evolution of international politics over the past one hundred years The third edition is thoroughly updated throughout to take account of the most recent research and global developments and includes a new chapter on the international history of human rights and its advocacy organizations including NGOs Additional new features include New material on the Arab Spring including specific focus on Libya and Syria Increased debate on the question of US decline and the rise of China A timeline to give increased context to those studying the topic for the first time A fully revised companion website including links to further resources and self testing material can be found at www.routledge.com/cw/best Antony Best is Associate Professor in International History at the London School of Economics Jussi M Hanhimäki is Professor of International History and Politics at the Graduate Institute of International Studies Geneva Joseph A Maiolo is Professor of International History at the Department of War Studies Kings College London Kirsten E Schulze is Associate Professor in International History at the London School of Economics

Currents in American History: A Brief History of the United States, Volume II: From 1861 Alan C. Elliott, Terry D. Bilhartz, 2023-06-14 This book focuses on the historic ramifications of a handful of essential events that shaped the American past It describes the causes of a select number of epoch making events and examines the short and long term consequences of these critical turning point moments

Economics David A. Dieterle, 2017-03-27 A comprehensive four volume resource that explains more than 800 topics within the foundations of economics macroeconomics microeconomics and global economics all presented in an easy to read format As the global economy becomes increasingly complex interconnected and therefore relevant to each individual in every country it becomes more important to be economically literate to gain an understanding of how things work beyond the microcosm of the economic needs of a single individual or family unit This expansive reference set serves to establish basic

economic literacy of students and researchers providing more than 800 objective and factually driven entries on all the major themes and topics in economics Written by leading scholars and practitioners the set provides readers with a framework for understanding economics as mentioned and debated in the public forum and media Each of the volumes includes coverage of important events throughout economic history biographies of the major economists who have shaped the world of economics and highlights of the legislative acts that have shaped the U S economy throughout history The extensive explanations of major economic concepts combined with selected key historical primary source documents and a glossary will endow readers with a fuller comprehension of our economic world American Television's Live Coverage of the 9/11 Attacks Paul

Arras,2024-03-25 This book analyzes the narratives and news coverage of 9 11 across ABC NBC CBS CNN and Fox News the five most important American television news networks at the time Though America s collective memory of the key events of 9 11 have solidified Paul Arras demonstrates how muddled and chaotic the experience was due to the unique difficulties television journalists faced during the event By examining that morning s media coverage Arras assesses the quality of the live journalism suggesting key differences in the television experience for audiences watching different networks and observing the consequences of differing styles of communication among anchors and other journalists Approaching 9 11 as a unique television experience in American history Arras locates and identifies the building blocks of America s memory of 9 11 while also revisiting many dramatic television moments that have been forgotten Ultimately this book reveals the ways in which television coverage shaped the cultural meaning collective memory and language of 9 11 in ways that continue to resonate throughout American culture After the End of History Samuel Cohen,2009-10-01 In this bold book Samuel

Cohen asserts the literary and historical importance of the period between the fall of the Berlin wall and that of the Twin Towers in New York With refreshing clarity he examines six 1990s novels and two post 9 11 novels that explore the impact of the end of the Cold War Pynchon s Mason Dixon Roth s American Pastoral Morrison s Paradise O'Brien s In the Lake of the Woods Didion s The Last Thing He Wanted Eugenides s Middlesex Lethem s Fortress of Solitude and DeLillo s Underworld Cohen emphasizes how these works reconnect the past to a present that is ironically keen on denying that connection Exploring the ways ideas about paradise and pastoral difference and exclusion innocence and righteousness triumph and trauma deform the stories Americans tell themselves about their nation s past After the End of History challenges us to reconsider these works in a new light offering fresh insightful readings of what are destined to be classic works of literature At the same time Cohen enters into the theoretical discussion about postmodern historical understanding Throwing his hat in the ring with force and style he confronts not only Francis Fukuyama s triumphalist response to the fall of the Soviet Union but also the other literary and political end of history claims put forth by such theorists as Fredric Jameson and Walter Benn Michaels In a straightforward affecting style After the End of History offers us a new vision for the capabilities and confines of contemporary fiction **American Foreign Policy in a New Era** Robert Jervis,2013-01-11 To say that the world

changed drastically on 9 11 has become a truism and even a cliché But the incontestable fact is that a new era for both the world and US foreign policy began on that infamous day and the ramifications for international politics have been monumental In this book one of the leading thinkers in international relations Robert Jervis provides us with several snapshots of world politics over the past few years Jervis brings his acute analysis of international politics to bear on several recent developments that have transformed international politics and American foreign policy including the War on Terrorism the Bush Doctrine and its policies of preventive war and unilateral action and the promotion of democracy in the Middle East including the Iraq War and around the world Taken together Jervis argues these policies constitute a blueprint for American hegemony if not American empire All of these events and policies have taken place against a backdrop equally important but less frequently discussed the fact that most developed nations states that have been bitter rivals now constitute a security community within which war is unthinkable American Foreign Policy in a New Era is a must read for anyone interested in understanding the policies and events that have shaped and are shaping US foreign policy in a rapidly changing and still very dangerous world

The Cultural Life of Catastrophes and Crises Carsten Meiner, Kristin Veel, 2012-10-30 Catastrophes and crises are exceptions They are disruptions of order In various ways and to different degrees they change and subvert what we regard as normal They may occur on a personal level in the form of traumatic or stressful situations on a social level in the form of unstable political financial or religious situations or on a global level in the form of environmental states of emergency The main assumption in this book is that in contrast to the directness of any given catastrophe and its obvious physical economical and psychological consequences our understanding of catastrophes and crises is shaped by our cultural imagination No matter in which eruptive and traumatizing form we encounter them our collective repertoire of symbolic forms historical sensibilities modes of representation and patterns of imagination determine how we identify analyze and deal with catastrophes and crises This book presents a series of articles investigating how we address and interpret catastrophes and crises in film literature art and theory ranging from Voltaire's eighteenth century Europe haunted by revolutions and earthquakes to the 1994 genocide in Rwanda to the bleak prophetic landscapes of Cormac McCarthy

International History of the Twentieth Century and Beyond Anthony Best, 2008 This major global history of the twentieth century is written by four prominent international historians for first year undergraduate level and upward Using their thematic and regional expertise the authors cover events in Europe Asia the Middle East Africa and the Americas from the last century and beyond Among the areas this book covers are the decline of European hegemony over the international order the diffusion of power to the two superpowers the rise of newly independent states in Asia and Africa the course and consequences of the major

Political Mourning Heather Pool, 2021-05-21 Political Mourning examines four case studies the Triangle Fire Emmett Till's murder the attacks of September 11th and the Black Lives Matter movement to shed light on moments when everyday people died when their deaths were the basis of calls for political change and when

such a change actually occurred **Shadows of September: Resilience and Unity in the Face of Adversity** Pasquale De Marco,2025-07-12 In the heart of New York City on the fateful morning of September 11 2001 the students of Stuyvesant High School found themselves on the front lines of history Their school located just blocks from Ground Zero became a refuge for survivors a triage center for the wounded and a witness to the unfolding tragedy Through their eyes we experience the horror and heartbreak of that day the chaos and confusion the fear and uncertainty But we also witness the resilience of the human spirit the outpouring of compassion and support and the unwavering determination to rebuild and move forward This book is a testament to the strength of the human spirit a testament to the resilience of a city and a nation that refused to be broken It is a story of survival of hope and of the enduring legacy of 9 11 a legacy that continues to shape our world today With vivid detail and poignant emotion the students of Stuyvesant High School recount their experiences sharing their stories of loss and survival of courage and resilience Their voices remind us of the importance of unity empathy and the power of the human spirit to overcome even the darkest of times This book is not just a historical account of a tragic day it is a timeless story of resilience courage and the power of community in the face of adversity It is a story that will stay with you long after you finish reading it a story that will inspire you to believe in the indomitable spirit of the human race If you like this book write a review Always at War Thomas Colley,2019-08-01 Compelling narratives are integral to successful foreign policy military strategy and international relations Yet often narrative is conceived so broadly it can be hard to identify The formation of strategic narratives is informed by the stories governments think their people tell rather than those they actually tell This book examines the stories told by a broad cross section of British society about their country s past present and future role in war using in depth interviews with 67 diverse citizens It brings to the fore the voices of ordinary people in ways typically absent in public opinion research Always at War complements a significant body of quantitative research into British attitudes to war and presents an alternative case in a field dominated by US public opinion research Rather than perceiving distinct periods between war and peace British citizens see their nation as so frequently involved in conflict that they consider the country to be continuously at war At present public opinion appears to be a stronger constraint on Western defense policy than ever *Affirmative Reaction* Hamilton Carroll,2011-01-25 This title explores the cultural politics of hetero normative white masculine privilege in the US Through close readings of texts ranging from the television drama 24 to the Marvel Comics The Call of Duty Carroll argues that the true privilege of white masculinity is to be mobile and mutable
