Serious Crimes:

Major and Serious Crime Investigations Richard Carr, Colin Davies, 2025-02-28 This text explores the concept of major and serious crime investigations as it takes the reader through the fundamental elements of investigative theory and practice that are relevant to this area of criminality Unlike other texts that concentrate on either bespoke areas of criminality such as homicide terrorism or trends in concepts such as county lines this book recognises that the reader will be new to investigative study with little practitioner experience to anchor their learning By using the latest evidence based policing knowledge and critical thinking it explores the concepts of major and serious crime detailing key areas of legislation and how investigative strategies and decision making can influence successful outcomes Other topics examined in this text is the key areas of risk for major and serious crime investigations the impact on investigators the concept of disclosure investigative interviewing and how civil orders designed to tackle this type of criminality can provide a successful alternative to prosecution Both students and practitioners can find this book useful with this book s contemporary approach of using case studies and contemporary investigative examples relevant to the topic This book brings together academic theory and operational understanding of major and serious crime that provides learners with an easy to follow guide that they can keep returning to throughout their career

The Nationality, Immigration and Asylum Act 2002 (Specification of Particularly Serious Crimes) Order 2004 Great Britain. Parliament. Joint Committee on Human Rights, 2004 The Committee s report considers concerns over the compatibility of the Order S I 2004 1910 ISBN 0110495802 made under the Nationality Immigration Asylum Act 2002 with the UK s international human rights obligations The Refugee Convention has established a general principle of non refoulement which prohibits the expulsion or return of a refugee to a country where his her life might be threatened on account of race religion nationality or due to membership of a particular social group or political opinion The Convention allows an exception to this principle in cases where the person has been convicted of a particularly serious crime and is therefore deemed to be a danger to the general community of the host country The Order specifies a wide range of offences under the 2002 Act with the effect that anyone convicted of such an offence will have his asylum claim dismissed unless he she can establish they are not a danger to the community The Committee finds that the Order as drafted is ultra vires the order making power because the wide range of offences specified go beyond the interpretation of particularly serious crimes intended by the Refugee Convention and therefore undermines the principle of non refoulement

Hybrid and Internationalised Criminal Tribunals Sarah Williams, 2012-04-02 In recent years a number of criminal tribunals have been established to investigate prosecute and try individuals accused of serious violations of international humanitarian law and international human rights law These tribunals have been described as hybrid or internationalised tribunals as their structure and applicable law consist of both international and national elements Six such tribunals are currently in operation the Special Court for Sierra Leone the Extraordinary Chambers in the Courts of Cambodia the International Judges and Prosecutors Programme in Kosovo the War Crimes Chamber for Bosnia and Herzegovina the Iraqi High Tribunal and the Special Tribunal for Lebanon The Special Panels for Serious Crimes in East Timor suspended operation in May 2005 although there continues to be some international involvement in investigation and prosecution of serious crimes Suggestions have also been made that this model of tribunal would be appropriate for the prosecution of atrocities committed in among others Burundi the Sudan the Democratic Republic of Congo Kenya and Liberia as well as for a wider range of international crimes

most recently piracy The key aims of this book are to place the model of hybrid and internationalised tribunals in the context of other mechanisms to try international crimes to examine the increasing demand for the establishment of hybrid and internationalised judicial institutions and the factors driving such demand to define the category of hybrid and internationalised tribunals by examining the key features of the existing and proposed hybrid or internationalised tribunals as well as the features of those institutions with international elements that are generally excluded from this category to determine the legal and jurisdictional bases of existing hybrid and internationalised tribunals to analyse how the legal and jurisdictional basis of a tribunal affects other issues such as the applicable law the application of amnesties and immunities and the relationship of the tribunal with the host state third states national courts and other international criminal tribunals The book concentrates on the definitional legal and jurisdictional aspects of hybrid and internationalised criminal tribunals as this has been the subject of some confusion in arguments before the tribunals and in the judgments of the tribunals In its concluding section the book examines the future role of internationalised and hybrid criminal tribunals particularly in light of the establishment of the ICC and the potential use of such tribunals in other contexts It also assesses how hybrid and internationalised tribunals fit into a multi layered framework of international criminal law and transitional justice

Native Americans, Crime, And Justice Marianne O. Nielsen, 2019-03-13 The historical involvement of Native peoples within the criminal justice system is a narrative of tragedy and injustice yet Native American experience in this system has not been well studied Despite disproportionate representation of Native Americans in the criminal justice system far more time has been spent studying other minority groups Nat *Administrative Decisions Under Immigration & Nationality Laws* United States. Department of Justice, 1983 *Handgun Crime Control, 1975-1976* United States. Congress. Senate. Committee on the Judiciary. Subcommittee to Investigate Juvenile Delinquency, 1976

International Prosecutors Luc Reydam, Jan Wouters, Cedric Ryngaert, 2012-05-31 This volume examines the prosecution as an institution and a function in a

dozen international and hybrid criminal tribunals from Nuremberg to the International Criminal Court It is the result of a sustained collaborative effort among some twenty scholars and former tribunal staffers The starting point is that the prosecution shapes a tribunal's practice and legacy more than any other organ and that a systematic examination of international prosecutors is therefore warranted The chapters are organized chronologically according to the successive phases of the life of the institution and the various stages of the trials The analysis includes each institution's establishment mandate and jurisdiction as well as the prosecutorial framework and strategy the prosecutor's external relations and the completion of the institution's work The book also considers the prosecutors independence and impartiality and their accountability for their decisions The volume thus provides a comprehensive picture of the mandate organization and operation of the prosecution in international criminal trials As the first comprehensive study of an international legal actor whose decisions have widespread political repercussions this book will be essential reading for all with an interest in international criminal justice
