Sermon Preached At S Martin In The Field:

Preaching in Eighteenth-century London Jennifer Farooq, 2013 This book looks at the role of preaching culture in eighteenth century England Beyond the confines of churches preaching was heard at political anniversaries and elections thanksgiving and fast days and society and charity meetings all of which were major occasions on the English political and social calendars Dozens of sermons were published each year and the popularity of sermons both from the pulpit and in print make them crucial for understanding the role of religion in eighteenth century society To provide a broad perspective on preaching culture this book focuses on print and manuscript evidence for preaching in London The book also explores the impact of sermons on society by looking at contemporary perceptions of preaching trends in the publication of sermons the process of the publication and the distribution of sermons and the reception of sermons *The Gospel of st. D.D., Aeterna Press, The original groundwork of the following volume consisted of an article written by me in the Christian Remembrancer of July 1854 on the subject of mediæval preaching As some persons thought that it might serve as an introduction to a kind of ecclesiastical literature too little known and valued among us I was requested to expand the paper in question and to give extracts at greater length and in chronological order The chief difficulty was that of selection partly among so many authors principally between the various sermons of each author In the first place no notice will here be found of S Bernard because his super eminent value and beauty would if any regard at all were to be paid to analogy have necessarily excluded the greater part of those writers from whom I wished to quote unless the volume had been swelled to an inconvenient and unreadable size Again many eminent men such as Peter the Venerable S Fulbert of Chartres Hugh of S Victor and others though we certainly have a few sermons of their writing yet in that particular species of composition claimed no such eminent place as to entitle them to stand in a selection of such narrow limits Where it was possible I have chosen British rather than foreign writers hence the name of Adam Scotus who would otherwise hardly have appeared in the volume **Church walks in Middlesex; an ecclesiologist's guide** John Hanson Sperling, 1849 *Christian Duties; as*
