Translated from the German](#) Johann Peter Lange, 1864 *The Good And Evil Serpent* James H. Charlesworth, 2010-01-01 The serpent of ancient times was more often associated with positive attributes like healing and eternal life than it was with negative meanings This groundbreaking book explores in plentiful detail the symbol of the serpent from 40 000 BCE to the present and from diverse regions in the world In doing so it emphasizes the creativity of the biblical authors use of symbols and argues that we must today reexamine our own archetypal conceptions with comparable creativity From publisher description **The life of the Lord Jesus Christ, a complete critical examination of the Gospels, tr. (by S. Taylor [and others]) ed. by M. Dods** Johann Peter Lange, 1864 *The Life of the Lord Jesus Christ* Johann Peter Lange, 1864 *Teotihuacan* Esther Pasztory, 1997 This book is the first comprehensive study and reinterpretation of the unique arts of Teotihuacan including architecture sculpture mural painting and ceramics Comparing the arts of Teotihuacan not previously judged artistic with those of other ancient civilizations Ester Pasztory demonstrates how they created and reflected the community's ideals Most people associate the pyramids of central Mexico with the Aztecs but these colossal constructions antedate the Aztecs by more than a thousand years The people of Teotihuacan who built the pyramids as part of a city of unprecedented size remain a mystery *TVA Archaeology* Erin E. Pritchard, 2009 Since its inception in 1933 the Tennessee Valley Authority has played a dual role as federal agency and steward of the Tennessee River Valley While known to most people today as an energy provider the agency is also charged with managing and protecting the nation's fifth largest river system the Tennessee River and vast tracts of land and resources encompassing Tennessee and portions of Alabama Georgia Kentucky Mississippi North Carolina and Virginia Included in TVA's mandate is the preservation of the archaeological record of the valley's prehistoric peoples a record that would have been forever lost beneath floodwaters had TVA not demonstrated a commitment to minimize its impact on the valley and sought to protect its archaeological resources In *TVA Archaeology* fourteen contributors who have worked with TVA in its conservation effort discuss prehistoric excavations conducted at Tellico Normandy Jonathan's Creek and many other sites They explore TVA's role in the excavations and how the agency facilitated prehistoric investigations along proposed dam sites They also delve into the history of TVA as it grew from a New Deal program to a federal corporation and reveal how during the agency's formative years the TVA board responded to prodding from archaeologists David DeJarnette and William Webb and molded TVA into the steward of a region it is today TVA remains a mainstay of progress and conservation within an important region of the United States and its safeguarding of the valley's prehistory cements its legacy as more than just an energy supplier Students and researchers interested in prehistoric archaeology the

Memory, Metaphor, and Aby Warburg's Atlas of Images Christopher D. Johnson, 2012-07-26 The work of German cultural theorist and art historian Aby Warburg 1866-1929 has had a lasting effect on how we think about images This book is the first in English to focus on his last project the encyclopedic Atlas of Images Mnemosyne Begun in earnest in 1927 and left unfinished at the time of Warburg's death in 1929 the Atlas consisted of sixty-three large wooden panels covered with black cloth On these panels Warburg carefully intuitively arranged some thousand black and white photographs of classical and Renaissance art objects as well as of astrological and astronomical images ranging from ancient Babylon to Weimar Germany Here and there he also included maps manuscript pages and contemporary images taken from newspapers Trying through these constellations of images to make visible the many polarities that fueled antiquity's afterlife Warburg envisioned the Atlas as a vital form of metaphoric thought While the nondiscursive frequently digressive character of the Atlas complicates any linear narrative of its themes and contents Christopher D Johnson traces several thematic sequences in the panels By drawing on Warburg's published and unpublished writings and by attending to Warburg's cardinal idea that pathos formulas structure the West's cultural memory Johnson maps numerous tensions between word and image in the Atlas In addition to examining the work itself he considers the literary philosophical and intellectual historical implications of the Atlas As Johnson demonstrates the Atlas is not simply the culmination of Warburg's lifelong study of Renaissance culture but the ultimate expression of his now literal now metaphoric search for syncretic solutions to the urgent problems posed by the history of art and culture
