At the War ; By [Alfred Charles William Harmsworth] Lord Northcliffe Alfred Charles William Harmsworth Northcliffe (Lord),1917 *The Dream of Civilized Warfare* Linda Raine Robertson,2003 In *The Dream of Civilized Warfare* Robertson presents the compelling story of the creation of the first American air force and how through the propaganda of the flying ace a vision of clean or civilized combat was sold to politicians and the public She traces the long history of the American desire to exert the nation s will throughout the world without having to risk the lives of ground soldiers a theme that continues to reverberate in public discussions media portrayals and policy decisions today **Americans at War in Foreign Forces**

Chris Dickon,2014-07-31 The role of Americans in the two world wars is well known but with a glaring exception one that reveals a little known aspect of the common history of the United States and Canada By the time of the American entrance into World War I in April 1917 and World War II in December 1941 tens of thousands of Americans had already fought and died in those conflicts in the uniforms of other nations Most had quietly traveled over the northern border to join the ground air and naval forces of the Commonwealth nations others to France Poland China and the other nations and armed forces that played a role in the continuing world conflict of the first half of the century In preceding their own nation to war they influenced the course of events in those years and though threatened with loss of citizenship were ultimately met with the acceptance of their own government This book tells the story of who these Americans were why they took the actions they did their experiences in war and the effects of their presence as Americans in foreign forces **The Encyclopedia**

Britannica ,1922 **Fourth Estate** ,1919 Tractor Wars Neil Dahlstrom,2022-01-11 Mr Dahlstrom has written a superb history of the tractor and this long forgotten period of capitalism in U S agriculture We now know the whole story of when farming business and the free market economy diverged divided and conquered Wall Street Journal Discover the untold story of the tractor wars the twenty year period that introduced power farming the most fundamental change in world agriculture in hundreds of years Before John Deere Ford and International Harvester became icons of American business they were competitors in a forgotten battle for the farm From 1908 1928 against the backdrop of a world war and economic depression

these brands were engaged in a race to introduce the tractor and revolutionize farming By the turn of the twentieth century four million people had left rural America and moved to cities leaving the nation's farms shorthanded for the work of plowing planting cultivating harvesting and threshing That's why the introduction of the tractor is an innovation story as essential as man's landing on the moon or the advent of the internet after all with the tractor a shrinking farm population could still feed a growing world But getting the tractor from the boardroom to the drafting table then from factory and the farm was a technological and competitive battle that until now has never been fully told A researcher historian and writer Neil Dahlstrom has spent decades in the corporate archives at John Deere In *Tractor Wars* Dahlstrom offers an insider's view of a story that entwines a myriad of brands and characters stakes and plots the Reverend Daniel Hartsough a pastor turned tractor designer Alexander Legge the eventual president of International Harvester a former cowboy who took on Henry Ford William Butterworth and the oft at odds leadership team at John Deere that partnered with the enigmatic Ford but planned for his ultimate failure With all the bitterness and drama of the race between Ford Dodge and General Motors *Tractor Wars* is the untold story of industry stalwarts and disruptors inventors and administrators racing to invent modern agriculture a power farming revolution that would usher in a whole new world
