Born Into Loss Sarah Reed Vollmann, Joann M. O'Leary, 2024-12-03 Subsequent siblings who are sometimes referred to as replacement children are people who were born after the death of a brother or sister Little has been written about them or from their perspective This non fiction self help psychology book breaks new ground by assembling rich and heartfelt life stories from a diverse group of subsequent siblings while also weaving in clinical literature and discussion It is based upon more than one hundred subsequent sibling interviews which to the authors knowledge currently comprises the largest and most diverse sample of this group Through the subjects engaging narratives the reader can understand some of the common obstacles and repercussions of the subsequent sibling role Additional testimonies from parents and surviving siblings illuminate the multilayered impacts of loss upon a family system Those who are born after a deceased sibling enter a family that has been forever changed by loss This book provides a brief overview of the research on subsequent children and the concept of the replacement child It examines the parental experience of the death of a child the complexity of pregnancy after loss and the intrauterine and attachment experiences of children born after loss The death of a child causes immense parental pain and impacts parenting approaches perhaps resulting in impaired bonding or overprotectiveness of subsequent children Some subsequent siblings are expected consciously or unconsciously to serve as a replacement for their lost sibling and to fill the void of loss A variety of replacement dynamics can occur and in some instances the subsequent child is viewed as an inadequate substitute for a deceased and idealized sibling This book explores common issues that are faced by subsequent siblings which include impaired bonding with parents a sense of pressure to heal their families survivor guilt phobias difficulties with identity formation and the shouldering of caretaker roles Their loss and experiences are often unrecognized because they were born after their sibling s death Like most mourners many subsequent siblings need to make meaning of their loss It is often complex for them to grieve for an unmet sibling or to integrate their sibling s death into their life story Many subsequent siblings also recognize strengths that they have gained because of their role This book includes chapters about surviving siblings and children who were born after a sibling with special needs

When Grief Comes Home Erin Leigh Nelson, Colleen E. Montague, LMFT, 2025-02-04 When death touches your family you are never quite prepared Complicating your personal pain and the need to grieve is the equally important task of helping your children understand and process the loss of a loved one How should you answer your child s questions about death Should you let them see you cry How can you support their resilience How can you help preserve memories Drawing from their own personal and professional experience Erin Nelson and Colleen Montague help you navigate loss alongside your child They provide honest

ways to talk to your child about death according to age and stage of development and offer ideas on how to process honor and integrate loss Chapters end with reflective questions and healing activities that lead to more meaningful connection between parents and children inspiring hope for the future When families find healing practices together they find ways to integrate their loss and expand their capacity to thrive Through times of tragedy when parents and children have the support they need the shared experience of grief can become part of their family s sacred story *Death, Society and Human Experience (1-download)* Robert Kastenbaum, 2015-07-22 Providing an understanding of the relationship with death both as an individual and as a member of society This book is intended to contribute to your understanding of your relationship with death both as an individual and as a member of society Kastenbaum shows how individual and societal attitudes influence both how and when we die and how we live and deal with the knowledge of death and loss Robert Kastenbaum is a renowned scholar who developed one of the world s first death education courses and introduced the first text for this market This landmark text draws on contributions from the social and behavioral sciences as well as the humanities such as history religion philosophy literature and the arts to provide thorough coverage of understanding death and the dying process Learning Goals Upon completing this book readers should be able to Understand the relationship with death both as an individual and as a member of society See how social forces and events affect the length of our lives how we grieve and how we die Learn how dying people are perceived and treated in our society and what can be done to provide the best possible care Master an understanding of continuing developments and challenges to hospice palliative care Understand what is becoming of faith and doubt about an afterlife
