Losing Your Parents Finding Yourself The Defining Turning Point Of Adult Life:

Losing Your Parents, Finding Yourself Victoria Secunda, 2000-03-01 In a book that is destined to strike a chord with baby boomers everywhere journalist Victoria Secunda illustrates how losing a parent has a profound effect on the lives of adults Drawing from her original study of more than 100 adults as well as her own experiences Secunda addresses a myriad of issues such as How does this event transform relationships with ones siblings spouse friends children or own identity Most importantly Secunda explores how losing a parent dramatically reshapes ones sense of self causing a re evaluation of ones life and choices in ways that were not possible before Losing Your Parents, Finding Your Self Victoria Secunda, 2004-02

When we lose a parent in our adulthood we are expected to take it in stride relatively unchanged by the experience But to lose one s parents in adulthood is to find oneself at a crossroads that has a profound effect on one s life relationships and choices Indeed it is the defining turning point of adult life after which nothing is ever the same This book examines what happens to grown men and women when they are on their own in ways they have never been before such as How are one s attachments to others altered by the experience How does one s behavior and decisionmaking change How does the loss of a parent affect feelings among siblings What does it mean to be existentially alone at the top of the generational ladder

Death and Dying John F. Szabo, 2009-11-02 While it can be traced to the 1700s the term thanatology has gained traction in recent decades to refer to the study of death Because of the breadth of the published material and the challenges of discovery in large bibliographic databases and catalogs finding and identifying monographic material on death dying grief and bereavement can be extremely challenging Although there have been several bibliographical resources published on thanatology those titles were incomplete limited in scope or leaned heavily toward one area of the field In *Death and Dying An Annotated Bibliography of the Thanatological Literature* John F Szabo provides more than 2 200 citations of monographs on the science and study of death and dying Among the areas this volume addresses are the psychological philosophical and attitudinal aspects coping and dealing with the burdens of caregiving and working in the helping professions instructional and educational topics for practitioners primarily health care providers cultural differences in bereavement rituals and grief mourning and loss In addition notable titles on or relating to death and dying in popular culture death themes in literature methods of death or specific ethical policy or public issues are also included when they contribute important information to subject areas on which the book focuses This book will be helpful to students researchers academics caregivers health care professionals psychologists social workers and anyone with an interest in death dying bereavement or the care of the terminally ill Death, American Style Lawrence R. Samuel, 2013-07-05 The notion of one day disappearing from the earth forever is contrary to many of America s defining cultural values with death and dying viewed as an American experiences Arguing that death and dying may be our last major taboo this book shows how death and dying became almost unmentionable words over the course of the last century Although we have recently made some progress in reconciling the

fact that life is a finite resource we remain very unprepared for the approaching tsunami of death as the largest generation in history begins to age and die in great numbers DEATH AMERICAN STYLE is thus highly timely and relevant suggesting that Americans need to individually and collectively come to terms with mortality if we are to learn to treat death as an inevitable part of life and to prepare accordingly As more and more Americans face end of life decisions it will be vital for us to radically change the current view of death and dying The alternative the author argues is that the emerging death centric society may bring with it a period of turmoil equivalent to that of the countercultural 1960s and 1970s A View from the Fog Jada D. L. Hodgson,2016-09-16 A View from the Fog recalls one woman's struggle to accept the loss of both parents in a single automobile accident It is an account of both grief and hope darkness and light love and loss As a lay minister raised in the United Methodist Church Jada still felt like a three time orphan Her mother and father are dead and God has gone silent With prayer support and loving friends Jada heard God speak again I love you and will never leave you Jada has asked and wrestled with some of the questions you will probably face in the fog She does not presume to offer answers only hope in the presence of a loving God the God who truly loves you and would never ever leave you **Sociology of Waiting** Paul Christopher Price,2021-05-04 In Sociology of Waiting Paul Christopher Price investigates how people wait and analyzes what individuals do while waiting It is a key feature within U S and other societies waiting is universal Sociologically waiting gets at order and our ability or inability to pause Crowds cannot rush into concert venues and supermarket clerks cannot check out customers simultaneously So we must wait In all our waiting we've developed strategies and structures for delays and such methods and structures provide order as well as understanding we recognize why we wait The sociology of waiting is a classic piece of everyday sociology a timeless piece of routine behavior Waiting is as natural as breathing eating and drinking indeed mothers wait nine months before infants are brought to term and summer will always follow spring Waiting provides its own lessons That is watching cars weave through traffic and receive citations by police we learn that waiting may have saved time and money Shining the light on waiting permits a far superior understanding of order and how our society organizes itself around taking turns Waiting is a matter that takes up much of our valuable time and resources consequently reducing wait time has become big business Grieving For Dummies Greg Harvey,2011-04-18 Coping and recovery strategies for dealing with the loss of a loved one Whether the death of a loved one is sudden or expected grieving the loss is a difficult yet transformative process Grieving For Dummies approaches this very important subject with sensitivity helping readers who are grieving the loss of a loved one as well as those who want to support them in this process This compassionate guide covers all types of profound losses including parents spouses and partners children siblings friends and pets It also addresses children's grieving and how the manner of death may cause additional hurdles to grieving the loss The book is filled with practical suggestions for moving through the phases stages and tasks of grieving with an eye towards successfully integrating the loss of a loved one while at the same time keeping the love shared alive A Matter of Growth

Esther E. Hansen, 2021-01-27 The term caregiver applied to those who provide care in the home setting for the elderly or ill has become a commonly used term in our language. It is a term encountered more and more frequently in its application to those who have an elderly parent in their care. Statistics show that on any given day at least seven million Americans concern themselves with this task. And their numbers are growing rapidly. Millions of Americans concern themselves with this task every day. By the year 2040 it is projected that the number of Americans over 65 will have expanded from the present 35 million to over 75 million. And the oldest old, those over 85, will increase from somewhat over 4 million at present to 14 million or so.

Women's Lives in Contemporary French and Francophone Literature Florence Ramond Jurney, Karen McPherson, 2016-10-13 The essays in this volume provide an overview and critical account of prevalent trends and theoretical arguments informing current investigations into literary treatments of motherhood and aging. They explore how two key stages in women's lives, maternity and old age, are narrated and defined in fictions and autobiographical writings by contemporary French and francophone women. Through close readings of Maryse Condé, Hélène Cixous, Zahia Rahmani, Linda L. Pierrette Fleutieux, and Michèle Sarde, among others, these essays examine related topics such as dispossession, female friendship, and women's relationships with their mothers. By adopting a broad synthetic approach to these two distinct and defining stages in women's lives, this volume elucidates how these significant transitional moments set the stage for women's evolving definitions and interrogations of their identities and roles.
