Lost In The Air:

Air Power's Lost Cause Brian D. Laslie, 2021-05-14 The first comprehensive treatment of the air wars in Vietnam Filling a substantial void in our understanding of the history of airpower in Vietnam this book provides the first comprehensive treatment of the air wars in Vietnam Brian Laslie traces the complete history of these air wars from the beginning of American involvement until final withdrawal Detailing the competing roles and actions of the air elements of the United States Army Navy and Air Force the author considers the strategic operational and tactical levels of war He also looks at the air war from the perspective of the North Vietnamese Air Force Most important for understanding the US defeat Laslie illustrates the perils of a nation building a one dimensional fighting force capable of supporting only one type of war Air Crash Investigations: Lost Over the Atlantic, the Mysterious Disappearance of Air France Flight 447 George Cramoisi, 2010-05-24 On 31 May 2009 flight AF447 an Airbus A330 200 took off from Rio de Janeiro bound for Paris At 2 h 10 a position message and some maintenance messages were transmitted by the ACARS automatic system After this nothing was heard of from the aircraft Six days later bodies and airplane parts were found by the French and Brazilian navies All 228 passengers and crew members on board are presumed to have perished in the accident A massive search by air and sea craft for the plane s black boxes failed so far *AIR CRASH INVESTIGATIONS, LOST OVER THE ATLANTIC The Crash of Air France Flight 447 THE FINAL REPORT* George Cramoisi, editor, 2012-09-01 On 31 May 2009 the Airbus A330 flight AF 447 took off from Rio de Janeiro Gale o airport bound for Paris Charles de Gaulle At around 2 h 02 the Captain left the cockpit for a short nap At around 2 h 08 at flight level 350 the crew made a course change of 12 degrees to the left to avoid bad weather At 2h 10min 05 likely following the obstruction of the Pitot probes by ice crystals the speed indications were incorrect and some automatic systems disconnected The aeroplane s flight path was not controlled by the two copilots They were rejoined 1 minute 30 later by the Captain while the aeroplane was in a stall situation that lasted until the impact with the sea at 2 h 14 min 28 s killing all 228 persons on board It took almost two years to recover the wreck of the aircraft from a depth of 4 000 metres The accident resulted from a succession of events such as inconsistency between the measured airspeeds inappropriate control inputs and the crew s failure to diagnose the stall situation **Research Bulletin** ,1911 **The Air Campaign: Planning For Combat** John A. Warden III, 2014-08-15 In the short history of air warfare no nation with superior air forces has ever lost a war to the force of enemy arms Air superiority by itself however no longer guarantees victory This book one of the first analyses of the pure art of planning the aerial dimension of war explores the complicated connection between air superiority and victory in war In *The Air Campaign* Colonel John A Warden III focuses on the use of air forces at the operational level in a theater of war The most compelling task for the theater commander he argues is translating national war objectives into tactical plans at operational levels He presents his case by drawing on fascinating historical examples stressing that the mastery of operational level strategy can be the key to winning future wars Colonel Warden

shows us how to use air power more effectively through rough mass concentration and economy of forces because he warns the United States no longer holds an edge in manpower production capacity and technology Simply put an air force inferior in numbers must fight better and smarter to win This book offers planners greater understanding of how to use air power for future air campaigns against a wide variety of enemy capabilities in a wide variety of air operations As the reader will see the classic principles of war also apply to air combat One of the author s important contributions is to demonstrate that perception to those whose grave responsibility one day may be to plan and carry through a victorious air campaign
