Better Late than Never Lorraine Price, 2018-05-08 This book is concerned with an enigmatic set of experiences which theorists in the Object Relations tradition have characterised as regression to dependence a return to a primitive pre verbal relational process presenting in some clients in psychotherapy It highlights the effects of early infantile trauma resulting in the experience of failed dependency Clients who present with chronic anxiety relational failures and an inner emptiness are considered and the opportunity for a therapeutic repair is explored with recommendations for the therapeutic stance being made Written from an Integrative Psychotherapy perspective it addresses the current absence of writing in the field from a relational developmental viewpoint on concepts more usually addressed in psychoanalytic writing The insights of Winnicott are particularly highlighted in relation to failed dependency and maternal failure This work aims to offer a way forward to successfully work with this client group

Brady,2022-03-17 *Braving the Erotic Field in the Psychoanalytic Treatment of Adolescents and Children* is a groundbreaking collection of chapters by an international group of analytic authors The book addresses the general lack of psychoanalytic writing on working with erotic feelings in the consulting room when treating children and adolescents This lack is doubly odd given Freud's emphasis on childhood sexuality as well as the intensities of the adolescent body mind This book takes the view that the subtle interchange of feelings dreams narratives and images that arise when erotic feelings are in the fore is better conceptualized as an erotic field than with the binary of transference countertransference In contemporary psychoanalysis the idea that transference love offers the possibility of knowing the other in the deepest possible way is supplanting an attitude of suspicion Clinical work with small children to late adolescents will be offered including gay and gender fluid adolescents This book makes a decisive contribution to assist clinicians to brave the erotic field with children and adolescents
