Lost Land Of Lemuria Fabulous Geographies Catastrophic Histories:

The Lost Land of Lemuria Sumathi Ramaswamy, 2004-09-27 During the nineteenth century Lemuria was imagined as a land that once bridged India and Africa but disappeared into the ocean millennia ago much like Atlantis A sustained meditation on a lost place from a lost time this elegantly written book is the first to explore Lemuria s incarnations across cultures from Victorian era science to Euro American occultism to colonial and postcolonial India The Lost Land of Lemuria widens into a provocative exploration of the poetics and politics of loss to consider how this sentiment manifests itself in a fascination with vanished homelands hidden civilizations and forgotten peoples More than a consideration of nostalgia it shows how ideas once entertained but later discarded in the metropole can travel to the periphery and can be appropriated by those seeking to construct a meaningful world within the disenchantment of modernity Sumathi Ramaswamy ultimately reveals how loss itself has become a condition of modernity compelling us to rethink the politics of imagination and creativity in our day

The Ten Lost Tribes Zvi Ben-Dor Benite, 2009-09-04 The legendary story of the ten lost tribes of Israel has resonated among both Jews and Christians down through the centuries the compelling idea that some core group of humanity was lost and exiled to a secret place perhaps someday to return triumphant In The Ten Lost Tribes Zvi Ben Dor Benite shows for the first time the extent to which the search for the lost tribes of Israel became over two millennia an engine for global exploration and a key mechanism for understanding the world As the book reveals the quest for the missing tribes and the fervent belief that their restitution marked a necessary step toward global redemption have been threaded through countless historical moments from the formation of the first world empires to the age of discovery and from the spread of European imperialism to the rise of modern day evangelical apocalypticism More than a historical survey of an enduring myth The Ten Lost Tribes offers a unique prism through which to view the many facets of encounters between cultures the processes of colonization and the growth of geographical knowledge

corpus of the Ca am The Academy is a national treasure for Tamilians and a battle ground for linguists and historians of politics culture and literature Going back to oral predecessors probably dating back to the beginning of the first millennium it has had an extremely rich and variegated history Collected into anthologies and endowed with literary theories and voluminous commentaries it became the centre piece of the Tamil literary canon associated with the royal court of the Pandya dynasty in Madurai Its decline began in the late middle ages and by the late 17th century it had fallen into near oblivion before being rediscovered at the beginning of the print era The present study traces the complex historical process of its transmission over some 2000 years using and documenting a wide range of sources in particular surviving manuscripts the early prints the commentaries of the literary and grammatical traditions and a vast range of later literature that creates a web of inter textual references and quotations

Articulating Rapa Nui Riet Delsing,2015-05-31 In this groundbreaking study Riet Delsing narrates the colonization of the Pacific island of Rapa Nui and its indigenous inhabitants The annexation of the island by Chile in the heydays of world imperialism places the small Latin American country in a unique position in the history of global colonialism The analysis of this ongoing colonization process constitutes a missing link in Pacific Islands studies and facilitates future comparisons with other colonial adventures in the Pacific by the United States Hawai i American Samoa France Tahiti and New Zealand Maori and Cook Islands The first part of the book surveys the history of the Chile Rapa Nui relationship from its beginning in the 1880s until the present Delsing delineates the Rapanui people s agency along with their cultural logic showing their resilience and will to remain Rapanui indigenous Pacific islanders rather than an ethnic minority forcefully integrated into the Chilean nation state In the second part the author describes the Rapanui s contemporary emphasis on the revitalization of their language traditional concepts about land tenure a unique corpus of material and performative culture renewed contact with other Pacific island cultures and creative acts of resistance against Chilean colonialism Emergent in her analysis is the effect of Rapa Nui s vibrant tourist industry commodification of Rapanui difference is creating the possibility to loosen economic and political ties with Chile Drawing on statements of several Rapanui she concludes that over the past few decades they have acquired a different kind of interpretive power based on which they are making choices that serve them as a people on the road to cultural and political self determination Contemporary Rapa Nui is thus a modern articulated place marked by spirited identity politics that show the resilience and adaptability of the indigenous people who inhabit this island

Inscriptions of Nature Pratik Chakrabarti,2020-10-13 Learn how the deep history of nature became a dominant paradigm of historical thinking through a study of landscapes of India Winner of the BSHS Pickstone Prize by the British Society for the History of Science In the nineteenth century teams of men began digging the earth like never before Sometimes this digging often for sewage transport or minerals revealed human remains Other times archaeological excavation of ancient cities unearthed prehistoric fossils while excavations for irrigation canals revealed buried cities Concurrently geologists ethnologists archaeologists and missionaries were also digging into ancient texts and genealogies and delving into the lives and bodies of indigenous populations their myths legends and pasts One pursuit was intertwined with another in this encounter with the earth and its inhabitants past present and future In *Inscriptions of Nature* Pratik Chakrabarti argues that in both the real and the metaphorical digging of the earth the deep history of nature landscape and

people became indelibly inscribed in the study and imagination of antiquity The first book to situate deep history as an expression of political economic and cultural power this volume shows that it is complicit in the European and colonial appropriation of global nature commodities temporalities and myths The book also provides a new interpretation of the relationship between nature and history Arguing that the deep history of the earth became pervasive within historical imaginations of monuments communities and territories in the nineteenth century Chakrabarti studies these processes in the Indian subcontinent from the banks of the Yamuna and Ganga rivers to the Himalayas to the deep ravines and forests of central India He also examines associated themes of Hindu antiquarianism sacred geographies and tribal aboriginality Based on extensive archival research the book provides insights into state formation mining of natural resources and the creation of national topographies Driven by the geological imagination of India as well as its landscape people past and destiny *Inscriptions of Nature* reveals how human evolution myths aboriginality and colonial state formation fundamentally defined Indian antiquity

Notions of Nationhood in Bengal: Perspectives on Samaj, c. 1867-1905 Swarupa Gupta,2009-06-24 This book reopens the debate on colonial nationalisms going beyond derivative borrowed political and modernist paradigms It introduces the conceptual category of samaj to demonstrate how indigenous socio cultural origins in Bengal interacted with late colonial discourses to produce the notion of a nation Samaj a historical society and an idea in practice was a site for reconfiguring antecedents and negotiating fragmentation Drawing on indigenous sources this study shows how caste class ethnicity region and community were refracted to conceptualise wider unities The mapping of cultural continuities through change facilitates a more nuanced investigation of the ontology of nationhood seeing it as related to but more than political nationalism It outlines a fresh paradigm for recalibrating postcolonial identities offering interpretive strategies to mediate fragmentation

The Pulse of the Earth Adam Bobbette, 2023-06-30 In *The Pulse of the Earth* Adam Bobbette tells the story of how modern theories of the earth emerged from the slopes of Indonesia's volcanoes Beginning in the late nineteenth century scientists became concerned with protecting the colonial plantation economy from the unpredictable bursts and shudders of volcanoes Bobbette follows Javanese knowledge traditions colonial geologists volcanologists mystics Theosophists orientalist and revolutionaries to show how the earth sciences originate from a fusion of Western and non Western cosmology theology anthropology and geology Drawing on archival research interviews and fieldwork at Javanese volcanoes and in scientific observatories he explores how Indonesian Islam shaped the theory of plate tectonics how Dutch colonial volcanologists learned to see the earth in new ways from Javanese spiritual traditions and how new scientific technologies radically recast notions of the human body distance and the earth In this way Bobbette decenters the significance of Western scientists to expand our understanding of the evolution of planetary thought and rethinks the politics of geological knowledge

The Planetary Clock Paul Giles, 2021-02-11 The theme of *The Planetary Clock* is the representation of time in postmodern culture and the way temporality as a global phenomenon manifests itself differently across an antipodean axis To trace postmodernism in an expansive spatial and temporal arc from its formal experimentation in the 1960s to environmental concerns in the twenty first century is to describe a richer and more complex version of this cultural phenomenon Exploring different scales of time from a Southern Hemisphere perspective with a special emphasis on issues of Indigeneity and the Anthropocene *The Planetary Clock* offers a wide ranging revisionist account of postmodernism reinterpreting literature film music and visual art of the post 1960 period within a planetary framework By bringing the culture of Australia and New Zealand into dialogue with other Western narratives it suggests how an antipodean impulse involving the transposition of the world into different spatial and temporal dimensions has long been an integral if generally occluded aspect of postmodernism Taking its title from a Florentine clock designed in 1510 to measure worldly time alongside the rotation of the planets *The Planetary Clock* ranges across well known American postmodernists John Barth Toni Morrison to more recent science fiction writers Octavia Butler Richard Powers while bringing the US tradition into juxtaposition with both its English Philip Larkin Ian McEwan and Australian Les Murray Alexis Wright counterparts By aligning cultural postmodernism with music Messiaen Ligeti Birtwistle the visual arts Hockney Blackman Fiona Hall and cinema Rohmer Haneke Tarantino this volume enlarges our understanding of global postmodernism for the twenty first century
