Dissidence on Catalan and Spanish Television Series Silvia Grassi,2016-09-23 Taking as a starting point an interpretation of the television medium as an Ideological State Apparatus this book examines how gender roles and non heteronormative sexualities are constructed in Spanish and Catalan television series In the first part which focuses on the construction of gender roles in Catalan soap operas it applies the analytical paradigms founded by Anglo Saxon feminist scholars for the content of soap operas to a corpus of material which has rarely been analysed through this perspective In the second part which focuses on the construction of non heteronormative sexualities in Spanish and Catalan television series the book

challenges the rhetoric of normalisation and the essentialist paradigms which have so far dominated the examination of the construction of sexuality in television series As such this book addresses the role performed by television in the construction of meanings which surround gender issues and non heteronormative sexualities This is a timely exercise because gender studies and studies of sexual dissidence are fairly recent fields in Spanish and Catalan academia and television has been largely disregarded especially as far as the analysis of characters and storylines is concerned As a result this book represents a major contribution to these fields in the Spanish and Catalan contexts
