The Lost Revolution Chris Harman, 2017-06-26 Compelling a classic study of the revolutionary process Neil Davidson author of *How Revolutionary Were the Bourgeois Revolutions As the First World War was about to end in defeat* German sailors began to mutiny giving voice to the widespread anger against the elites who had led the nation into war and the calamitous impact of that decision on everyday people The events that followed would eventually result in the parliamentary democracy known as the Weimar Republic and the socialists who had initially risen up would be attacked by German counterrevolutionary troops their uniforms marking the debut of a new symbol the swastika Because of the socialists defeat in Germany Russia fell into the isolation that gave Stalin his road to power Here Chris Harman unearths the history of the lost revolution in Germany and reveals its lessons for the future struggles for a better world Chris Harman s compelling analysis of the failed German Revolution covers the entire period from 1918 to the debacle of 1923 paying close attention to episodes such as the Bavarian Soviet Republic which are often neglected or minimized Harman clearly demonstrates that this example of lost revolution was the real turning point in German history when history failed to turn with dire consequences Neil Davidson author of *Discovering the Scottish Revolution* *Vietnam, an Annotated Bibliography*, 1968 **U.S. Marine Corps Civil Affairs in I Corps, Republic of South Vietnam, April 1966 to April 1967** William D. Parker, 1970 [The United States and the Vietnam War, 1954-1975](#) Louis Peake, 2007-11-13 The United States in the Vietnam War 1954 1975 is an invaluable reference guide to the costly and controversial war the U S waged in Vietnam over the course of five presidential administrations Focusing not only on the conflict in Southeast Asia but also on the tumult the war inspired on the domestic front Louis Peake provides an authoritative guide to the wide range of media available on the U S involvement in Vietnam From collections of art work and poetry about the soldiering experience to journalistic accounts of battles and military training films the entries consistently provide clear and concise descriptions allowing the reader to easily identify the value of any particular resource With revised and updated annotations and over 150 new entries this second edition of *The United States in the Vietnam War 1954 1975* is an invaluable reference tool for researchers and students of the Vietnam War Routledge Research Guides to American Military Studies provide concise annotated bibliographies to the major areas and events in American military history With the inclusion of brief critical annotations after each entry the student and researcher can easily assess the utility of each bibliographic source and evaluate the abundance of resources available with ease and efficiency Comprehensive concise and current Routledge Research Guides to American Military Studies are an essential research tool for any historian [Students in Twentieth-Century Britain and Ireland](#) Jodi Burkett, 2017-09-22 This book explores the experiences and activities of students across the twentieth century and throughout the United Kingdom and Ireland The daily experiences of students their involvement in local communities national political organisations and widespread cultural changes are the main focus of this ground breaking book It takes students themselves as the subject of

inquiry exploring the fundamental importance of student activities within wider social and political changes and also how some of the key changes across the twentieth century have shaped and changed the make up experiences and lives of students This book charts the experiences of students throughout a period of unprecedented change as being a student in Britain and Ireland has gone from the endeavour of a small number of elite mainly wealthy white men to an important phase of life undertaken by the majority of young people

Inside the IRA Andrew Sanders, 2011-04-25 Would the real IRA please stand up Why and how the IRA splintered The Real IRA the Continuity IRA the Irish National Liberation Army the Official IRA and the Provisional IRA have all assumed responsibility for the struggle for Irish freedom over the course of the late 20th century Yet as recently as 1969 there was only one Irish Republican Army trying to unify Ireland using physical force Andrew Sanders explains how and why the transition from one IRA to several IRAs occurred analysing all the dissident factions that have emerged since the outbreak of the Northern Ireland troubles He looks at why these groups emerged what their respective purposes are and why in an era of relative peace and stability in Northern Ireland they seek to prolong the violence that cost over 3500 lives

The Lost History of Liberalism Helena Rosenblatt, 2018-09-11 The changing face of the liberal creed from the ancient world to today The Lost History of Liberalism challenges our most basic assumptions about a political creed that has become a rallying cry and a term of derision in today's increasingly divided public square Taking readers from ancient Rome to today Helena Rosenblatt traces the evolution of the words liberal and liberalism revealing the heated debates that have taken place over their meaning In this timely and provocative book Rosenblatt debunks the popular myth of liberalism as a uniquely Anglo American tradition centered on individual rights She shows that it was the French Revolution that gave birth to liberalism and Germans who transformed it Only in the mid twentieth century did the concept become widely known in the United States and then as now its meaning was hotly debated Liberals were originally moralists at heart They believed in the power of religion to reform society emphasized the sanctity of the family and never spoke of rights without speaking of duties It was only during the Cold War and America's growing world hegemony that liberalism was refashioned into an American ideology focused so strongly on individual freedoms Today we still can't seem to agree on liberalism's meaning In the United States a liberal is someone who advocates big government while in France big government is contrary to liberalism Political debates become befuddled because of semantic and conceptual confusion The Lost History of Liberalism sets the record straight on a core tenet of today's political conversation and lays the foundations for a more constructive discussion about the future of liberal democracy

The Struggle for a Multilingual Future Christina P. Davis (Anthropologist), 2020 In The Struggle for a Multilingual Future Christina Davis examines the tension between ethnic conflict and multilingual education policy in the linguistic and social practices of Sri Lankan minority youth Facing a legacy of post independence language and education policies that were among the complex causes of the Sri Lankan civil war 1983-2009 the government has recently sought to promote interethnic integration through trilingual language

policies in Sinhala Tamil and English in state schools Integrating ethnographic and linguistic research in and around two schools during the last phase of the war Davis s research shows how despite the intention of the reforms practices on the ground reinforce language based models of ethnicity and sustain ethnic divisions and power inequalities By engaging with the actual experiences of Tamil and Muslim youth Davis demonstrates the difficulties of using language policy to ameliorate ethnic conflict if it does not also address how that conflict is produced and reproduced in everyday talk **The History of**

Contemporary China Review Bouden House,2022-08-15 This summer is an unusual one The Russian Ukrainian war shifted from a stalemate to a strategic counter offensive in Ukraine Against the backdrop of this huge geopolitical conflict Taiwan Strait relations also became tense again with the visit of U S House Speaker Nancy Pelosi to Taiwan The clamor for military unification with Taiwan by force in mainland China has been overwhelming Xi Jinping s call with Biden conveyed that this is not the time for a full blown crisis to break out When war breaks out in the Taiwan Strait will depend on the CCP s mindset However once the CCP regime falls into the hands of an emperor for life the outbreak of war will be unpredictable In this issue several articles analyze Xi Jinping s mentality psychology and personality which provide a glimpse of the dictatorial factor behind the Taiwan Strait crisis Another article analyzing the 50 year history of U S China relations can also help readers understand the direction of U S China relations and the background of the Taiwan Strait crisis With the globalized economy at a crossroads the CCP has taken a big step backward from a semi market economy to a state planned economy and is facing a huge economic crisis in the financial manufactory to real estate sectors To divert an economic social and political crisis CCP will avoid internal crises with war This issue presents a scholar monography that gives us a glimpse into the social psychology of the general public in mainland China today especially the underestimated dynamics of the little pinko groups that are driving China toward the mistakes of war Meanwhile the misunderstanding and misperception of the Chinese revolution not only camouflage the legitimacy of the CCP regime but also feed into a false institutional confidence for Xi Jinping who boasts to point out the direction of global development **Those who Were There** Merritt Clifton,1984
