Fighting Techniques of Naval Warfare Iain Dickie, 2009-06-09 An illustrated exploration of how sea battles have been fought throughout history explores key tactics and strategies while surveying how the development of various weapons

impacted naval warfare Tu sais, mon vieux Jean-Pierre John Willis, 2017-04-28 Tu sais mon vieux Jean Pierre is inspired by the work of archaeologist Jean Pierre Chrestien 1949 2008 who worked hand in glove with a generation of researchers in helping to unearth unexpected and always interesting aspects of New France Contributions focus first upon the door to New France in the Gulf of St Lawrence Newfoundland and Acadia A second set of essays move further up the St Lawrence and into the heartland of the continent The final section examines aspects of Canadian culture popular art religion and communication The essays share a curiosity for material culture a careful regard for detail and nuance that forms the grain of New France studies and sensitivity to the overall context that is part and parcel of how history proceeds on the local or regional scale Happily we can now dispense with old fashioned and facile generalizations about the allegedly absent bourgeoisie the purportedly deficient commercial ethic of the habitants and the so called underlying military character of the colony and get down the business of understanding real people and their possessions in context Published in French

Reading Underwater Wreckage Killian Quigley, 2022-12-15 Presenting a novel and needed theoretical model for interpreting shipwrecks and other drowned fragments the histories they tell and the futures they presage as junctures of artefact and ecofact human remains and emergent ecologies this book puts the environmental humanities and particularly multispecies studies in close conversation with literary studies history and aesthetic theory Earth's oceans hold the remains of as many as three million shipwrecks some thousands of years old Instead of approaching shipwrecks as either artefacts or ecofacts this book presents a third frame for understanding one inspired by the material dynamism of sea floor stuff As they become encrusted by oceanic matter some of it living some inanimate anthropic fragments participate in a distinctively submarine form of material relation That relation comprises a wide and sometimes incalculable array of things lives times and stories Drawing from several centuries of literary philosophical and scientific encounters with encrustations as well as from some of the innumerable encrusted art forms that inhabit the sea floor this book serves anyone in search of better ways to perceive describe and imagine submarine matters **Shores, Surfaces and Depths** Felicity Picken, Emma

Waterton, 2024-11-26 This book examines the oceanic presence in life on Earth and the ways that we engage with the oceanic worlds for play pleasure adventure and the pursuit of leisure and escape through tourism and travel The oceanic turn across the social sciences and humanities has produced a still proliferating opus of work that seeks to discover and emphasize oceanic presence in life on Earth This literal and figurative unearthing of blue spaces has encouraged scholars to gaze beyond the lands that have supported much of our experience and knowledge towards the gathering up of a more holistic appreciation of blue planetary life This widening of scholarly attention from land to sea is occurring simultaneously across a range of disciplines and fields including history archaeology anthropology comparative literature public policy cultural studies and geography With an explicit focus on leisure and tourism this edited collection follows a growing appreciation that it is our seemingly inconsequential encounters at play for pleasure and on holidays that are increasingly present and

influential in our oceanic relations This volume will be of value to scholars and students interested in social and cultural history and environmental history and humanities *The Oxford Handbook of Maritime Archaeology* Alexis Catsambis, Ben Ford, Donny L. G. Maschner, Christopher Chippindale, 2005 The Handbook of Archaeological Methods comprises 37 articles by leading archaeologists on the key methods used by archaeologists in the field in analysis in theory building and in managing cultural resources The book is destined to become the key reference work for archaeologists and their advanced students on contemporary archaeological methods **The Aesthetics of Ruins** Robert Ginsberg, 2021-08-04 This book constructs a theory of ruins that celebrates their vitality and unity in aesthetic experience Its argument draws upon over 100 illustrations prepared in 40 countries Ruins flourish as matter form function incongruity site and symbol Ruin underlies cultural values in cinema literature and philosophy Finally ruin guides meditations upon our mortality and endangered world Silent Killers James P. Jutland 1916 Innes McCartney,2018-04-26 The Battle of Jutland was the largest naval battle and the only full scale clash of battleships in the First World War For years the myriad factors contributing to the loss of many of the ships remained a mystery subject only to speculation and theory In this book marine archaeologist and historian Dr Innes McCartney reveals for the first time what became of the warships that vanished on the night of 31st May 1916 examining the circumstances

behind the loss of each ship and reconciling what was known in 1916 to what the archaeology is revealing today The knowledge of what was present was transformed in 2015 by a ground breaking survey using the modern technology of multi beam This greatly assisted in unravelling the details behind several Jutland enigmas not least the devastating explosions which claimed five major British warships the details of the wrecks of the 13 destroyers lost in the battle and the German warships scuttled during the night phase This is the first book to identify the locations of many of the wrecks and scandalously how more than half of these sites have been illegally plundered for salvage despite their status as war graves An essential and revelatory read for anyone interested in naval history and marine archaeology **The Seaforth**
