Lost Wine:

Napa Wine Charles L. Sullivan, 2008-10-01 Charles Sullivan's *Napa Wine A History* is the engaging story of the rise to prominence of what many believe to be the greatest winegrowing area in the Western hemisphere. This new edition completes that picture bringing to light more than a decade of dramatic changes and shifted norms visited upon the valley from phylloxera-wasted vineyards to High Court officiated territorial battles told in a rousing transportive narrative. Beginning in 1817 with the movement of Spanish missions into the San Francisco Bay area, Sullivan winds his way through the great wine boom of the late 19th century, the crippling effect of Prohibition, and Napa's rise out of its havoc to its eventual rivaling of Bordeaux in the judgments of 1976 and 2006. Published in cooperation with the Napa Valley Wine Library, the book includes historic maps, charts of vineyard ownership, and vintages from the 1880s to present. **Concepts in Wine**

Technology, Small Winery Operations, Third Edition Yair Margalit, PhD, 2012-11 Following up on his bestselling *Winery Technology and Operations*, physical chemist and winemaker Yair Margalit comes out with the successive *Concepts in Wine Technology*, fully updated and revised to meet the advances of modern winemaking. Among the extended topics are fermentation, skin contact, acid balance, phenolics, bottling, the use of oak, and quality control. He begins in the vineyard, discussing proper maturation, soil, and climate, bunch health, vineyard disease states, and grape varieties. Next, he tackles the preharvest with a careful look at vineyard management and preparing the winery for harvest. Dr. Margalit then outlines the entire process of harvesting, from destemming, crushing, and skin contact as it applies to both red and white grapes, to pressing, must correction, and temperature control. Fermentation is examined fully and includes a lengthy look at the factors affecting malolactic fermentation and its pros and cons. There is a chapter on cellar operations that deals with racking, stabilization, fining, filtration, blending, and maintaining winery hardware, followed by sections on barreling and bottling. The final chapter pulls together the more general aspects of wine technology, covering sulphur dioxides, different forms of wine spoilage, and ways to ward them off, legal regulations, and one of the most important and enigmatic compounds in wine, phenolics. **The Politics of Wine in Britain**

C. Ludington, 2016-01-12 A unique look at the meaning of the taste for wine in Britain from the establishment of a Commonwealth in 1649 to the Commercial Treaty between Britain and France in 1860, this book provides an extraordinary window into the politics and culture of England and Scotland just as they were becoming the powerful British state. Discovering Germany Maureen Mahan Copelof, 2012-01-20 Maureen Mahan Copelof and her husband, Sylvan, fell in love with Germany while stationed there with the US military. Refusing to let the adventure end with their military tour, they embarked on a journey to purchase a home in a small German town on the Neckar River, well outside the usual haunts of American tourists. Here, they share their discoveries of unexpected treasures with the people they got to know: the beer, wine, and food that they experienced, and the history, art, castles, and fables that came alive for them.

A Casebook on the Roman Law of Contracts Bruce W. Frier, 2021 Roman contract law has profoundly influenced subsequent legal systems throughout the world but is inarguably an important subject in its own right This casebook introduces students to the rich body of Roman law concerning contracts between private individuals In order to bring out the intricacy of Roman contract law the casebook employs the case law method actual Roman texts drawn from Justinian's Digest and other sources are presented both in Latin and English along with introductions and discussions that fill out the background of the cases and explore related legal issues This method reflects the casuistic practices of the jurists themselves concentrating on the fact rich environment in which contracts are made and enforced while never losing sight of the broader principles upon which the jurists constructed the law The casebook concentrates especially on stipulation and sale which are particularly well represented in surviving sources Beyond these and other standard contracts the book also has chapters on the capacity to contract the creation of third party rights and duties and the main forms of unjustified enrichment What students can hope to learn from this casebook is not only the general outlines and details of Roman contract law but also how the jurists developed such law out of rudimentary civil procedures An online teacher's manual is available for instructors to access it see page xxi of the Casebook

Orphan Hours Stanley Plumly, 2012-06-18 A luminous new volume from a National Book Award finalist and recipient of the Los Angeles Times Book Prize Orphan Hours is a book of reconciliation of coming to terms with time in its most personal and memorable manifestations and of learning the wisdom of what cannot be changed The urgency of the elegy has been absorbed by an acceptance of the detail texture and small moments that constitute and enrich mortality from Lapsed Meadow I remember in Ohio fields of wastes of nature lost pasture fallow clearings buckwheat and fireweed and broken sparrow nests especially in the summer in the fading hilltop sun when you could lose yourself by simply lying down Who will find you who will call you home now at dusk with the dry tips of the goldenrod confused with a little wind filling in what's left of the light
