Someone Who Will Love You in All Your Damaged Glory Raphael Bob-Waksberg,2019-06-11 A fabulously off beat collection of short stories about love the best and worst thing in the universe written by the creator of BoJack Horseman with his hallmark scathing dark humor Transcendent tragicomedy Prepare to be devastated and made whole again The A V Club Featuring A young engaged couple forced to deal with interfering relatives dictating the appropriate number of ritual goat sacrifices for their wedding A pair of lonely commuters who ride the subway in silence forever eternally failing to make that longed for contact A struggling employee at a theme park of U S presidents who discovers that love can t be genetically modified And fifteen more tales of humor romance whimsy cultural commentary and crushing emotional vulnerability Off the Rails Matt Jones,2007-04 Many years ago a highly intelligent race of people living in China discovered a fault with the Earth s natural orbital trajectory which if left unresolved would result in the world ending in the mid twenty first century The

leaders of these people whilst travelling the world in search of a solution to the problem arrived in London Here they stumbled on the theory that if they created vast but subtle movements across the Earth s surface then such weight shifts would have a reasonable bearing on the rate at which the Earth rotates and thus would alter its orbital path To provide this weight a project named Commuters was created so called due to a misprint of Computers This was performed by building a railway infrastructure throughout the land and simultaneously inventing a large number of excitingly named well paid but virtually harmless jobs This created both the demand and the mechanism for many people to travel in the same direction at a given time of day The group of pioneers were adamant that the real reason for their work should not be made public yet at the same time the project needed to be monitored To satisfy this an organisation called the Littlepeople was created whereby those directly involved with the project took invisible jobs within society From these positions they could easily observe their work without fear of detection themselves They therefore occupied jobs that are commonly labelled working class or unskilled as they were unlikely to be noticed by the Commuters within these positions Catalog of Copyright Entries.
