

A romantic couple is shown in a close embrace, about to kiss. The woman, with long brown hair, is wearing a teal long-sleeved shirt. The man, with short dark hair, is wearing a grey hoodie. They are outdoors, with a blurred background of green grass and trees with yellowing leaves, suggesting an autumn setting. The lighting is soft and natural.

The Erotic Phenomenon Jean-Luc Marion,2024-07-12 While humanists have pondered the subject of love to the point of obsessiveness philosophers have steadfastly ignored it One might wonder whether the discipline of philosophy even recognizes love The word philosophy means love of wisdom but the absence of love from philosophical discourse is curiously glaring So where did the love go In *The Erotic Phenomenon* Jean-Luc Marion asks this fundamental question of philosophy while reviving inquiry into the concept of love itself Marion begins his profound and personal book with a critique of Descartes' equation of the ego's ability to doubt with the certainty that one exists I think therefore I am arguing that this is worse than vain We encounter being he says when we first experience love I am loved therefore I am and this love is the reason I care whether I exist or not This philosophical base allows Marion to probe several manifestations of love and its variations including carnal excitement self-hate lying and perversion fidelity the generation of children and the love of God Throughout Marion stresses that all erotic phenomena including sentimentality pornography and even boasts about one's sexual conquests stem not from the ego as popularly understood but instead from love A thoroughly enlightening and captivating philosophical investigation of a strangely neglected subject *The Erotic Phenomenon* is certain to initiate feverish new dialogue about the philosophical meanings of that most desirable and mysterious of all concepts love

relationships from an astrological perspective The first seminar explores relationship through the composite chart examining the ways in which this third entity carries within it a particular pattern of development independent of the two individuals involved No existing work on composite charts examines the subject in such psychological depth The second seminar discusses the archetypal dilemma of the eternal triangle why we become involved in triangular relationships and what factors in the horoscope might suggest a predisposition to this kind of relationship dynamic Triangles have been the subject of great literature and art throughout history and while no relationship experience causes us such conflict and suffering no human experience is so common and familiar to us all **Temple Bar** ,1869 Temple Bar George Augustus Sala,Edmund
