## Lovers Knots:

**Knotcraft** Allan and Paulette Macfarlan, 2012-04-30 What's the difference between a square knot and a granny knot? What kinds of knots do fishermen use? How do you make a rope ladder? A tourniquet? What's the best way to secure a boat to its mooring or pitch a tent? How do you tie stretcher knots? These questions and many others are answered in Allan and Paulette Macfarlan's encyclopedic work on the practical art of knot tying. Knowing how to tie a variety of useful and reliable knots is a necessity for weekend sailors and campers; it's a passport to safety and success. Rock climbing, horseback riding, and other outdoor activities also inspire the enthusiast to pursue the requisite knots. In unusually clear illustrations rendered by artist Paulette Macfarlan, accompanied by precise written instructions, the authors of this book explain how to tie hundreds of knots including basic knots, stopper knots and hitches, toggled knots, knots for joining two ends of rope, hitches and knots for tying ropes to things, whipping, seizings, loop knots, horsey knots and hitches, decorative knots, lashing and splicing. Practical applications are also discussed: rappelling, raft building, tracking a canoe or small boat, heaving line, log rolling, making a travois and rope tent frames, beds and bunks. In addition to discussing the practical side of knot tying, the Macfarlans cover the entertaining end of the craft: knots and ropes in history and literature, knot mystery and magic in ancient and contemporary times, and games, tricks, and stunts with ropes and knots. Nearly every aspect of knot tying is represented in this comprehensive and concise reference work. Boaters, campers, boy scouts, and others interested in practical or decorative knots will want to add this volume to their bookshelves.
