underlying these myths as well as their origins in earlier trickster legends and considers when and why they emerged in their respective societies It then examines the variations through which the themes have been adapted by modern writers to express their own awareness of the sin of knowledge Each myth is shown to capture the anxiety of a society when faced with new knowledge that challenges traditional values Ziolkowski's examples of recent appropriations of the myths are especially provocative From Voltaire to the present the Fall of Adam has provided an image for the emergence from childhood innocence into the consciousness of maturity Prometheus as the challenger of authority and the initiator of technological evil yielded an ambivalent model for the socialist imagination of the German Democratic Republic And finally an America unsettled by its responsibility for the atomic bomb and worrying that in its postwar prosperity it had betrayed its values recognized in Faust the disturbing image of its soul

Irish Writing in the Twentieth Century David Pierce, 2000 Arranged chronologically by decade from the 1890s to the 1990s each decade is divided into two different types of writing critical documentary and imaginative writing and is accompanied by a headnote which situates it thematically and chronologically The Reader is also structured for thematic study by listing all the pieces included under a series of topic headings The wide range of material encompasses writings of well known figures in the Irish canon and neglected writers alike This will appeal to the general reader but also makes Irish Writing in the Twentieth Century ideal as a core text providing a unique focus for detailed study in a single volume
