

"The second chapter of *Low Risk High Reward* alone is worth the price of the book. In it, author and entrepreneur Bob Reiss writes about what he refers to as "numeracy," the numbers equivalent of literacy. What makes Reiss's advice stand out is that it's clear he's speaking from his own experience in the trenches." —*For. Magazine*

contributions of useful format and succinct review of the evidence make it likely that this text will continue to be the leading resource in nursing education and practice. The Gerontologist As a gerontological clinical educator research nurse I will often use this as a reference. The format and the content are good and the explanations of how to best use the evidence simplify the process of sifting through mountains of information to figure the best practice. Score 97 Doody's The newest edition of this distinguished reference in geriatric nursing delivers updated guidelines, new illustrative case studies, and the latest evidence-based protocols developed by leading researchers, educators, and practitioners in each topic area. The sixth edition includes new approaches devoted to supporting LGBTQ elders, persons living with dementia, and their families, and older adults living with HIV. New operational strategies provide guidance in using the electronic health record, implementing improved person-centered care approaches, and maintaining age-friendly atmospheres. Using evidence derived from all levels of care, this text offers developed guidelines for improving both quality and outcomes when caring for older adults in multiple disciplines, including interprofessional team members, long-term care, and other staff, educators, social workers, dietitians, and physicians. Chapters provide assessment and management principles, clinical interventions, specialty practice, and models of care. They consistently feature chapter objectives, annotated references, evidence ratings for each protocol, and resources for further investigation. Each protocol is embedded within the chapter content to provide context and detailed evidence. The protocols consistently include an overview, evidence-based assessment, intervention strategies, and a supporting case study with discussion. PowerPoint presentations and a test bank are available as instructor's resources. New Chapters: Informational Technology Embedding CPGs, Organizational Approaches to Promote Person-Centered Care, Environmental Approaches to Support Aging-Friendly Care, HIV Prevention and Care for the Older Adult, LGBTQ Perspectives. Key Features: Best practices for inpatient, in-home, and long-term care settings; Case studies with discussions in each chapter to illustrate application of clinical practice and related Nursing Standard of Practice Protocol. The AGREE systematic method was used to evaluate each protocol and validate this book's content. Instructor's resources including PowerPoints and a Test Bank. Purchase includes digital access for use on most mobile devices and computers.

Smart Digital Manufacturing Rene Wolf, Raffaello Lepratti, 2020-10-02 The world progresses toward Industry 4.0 and manufacturers are challenged to successfully navigate this unique digital journey. To some, digitalization is a golden opportunity; to others, it is a necessary evil. But to optimist and pessimist alike, there is a widespread puzzlement over the practical details of digitalization. To many manufacturers, digital transformation is a vague and confusing concept; they nevertheless must grapple with it in order to survive the Fourth Industrial Revolution. The proliferation of digital manufacturing technologies adds to the confusion, leaving many manufacturers perplexed and unprepared with little real insight into how emerging technologies can help them sustain a competitive edge in their markets. This book effectively conveys Siemens's knowledge and experience through a concept called Smart Digital Manufacturing, a stepwise approach to realizing the promise of the Fourth Industrial Revolution. The Smart Digital Manufacturing roadmap provides guidance and enables low-risk, high-reward adoption of new manufacturing software technologies through a series of tipping-point investment decisions that result in optimized manufacturing performance. The book provides readers with a clear understanding of what digital technology has to offer them and how and when to invest in these essential components of tomorrow's factories. Ren Wolf is Senior Vice President of Manufacturing Operations Management Software for Siemens Digital Industries Software, a business unit of the Siemens Digital Factory Division. Raffaello Lepratti is Vice President of Business Development and Marketing for Siemens Digital Industries Software.
