Rubin, 2021-11-09 The solar system has always been a messy place in which gravity wreaks havoc Moons form asteroids and comets crash into planets ice ages commence and dinosaurs disappear By describing the dramatic consequences of such disturbances this authoritative and entertaining book reveals the fundamental interconnectedness of the solar system and what it means for life on Earth After relating a brief history of the solar system Alan Rubin describes how astronomers determined our location in the Milky Way He provides succinct and up to date accounts of the energetic interactions among planetary bodies the generation of the Earth's magnetic field the effects of other solar system objects on our climate the moon's genesis the heating of asteroids and the origin of the mysterious tektites Along the way Rubin introduces us to the individual scientists including the famous the now obscure and the newest generation of researchers who have enhanced our understanding of the galactic neighborhood He shows how scientific discoveries are made he discusses the uncertainty that presides over the boundaries of knowledge as well as the occasional reluctance of scientists to change their minds even when confronted by compelling evidence This fresh historical perspective reveals science as it is an imperfect but self correcting enterprise Journeying to the frontiers of knowledge Rubin concludes with the exciting realm of astrobiology He chronicles the history of the search for life on Mars and describes cutting edge lines of astrobiological inquiry including panspermia the possible transfer of life from planet to planet the likelihood of technologically advanced alien civilizations in our galaxy and our probable responses to alien contact Authoritative and up to date but also entertaining and fluidly written *Disturbing the Solar System* will appeal to any reader who has ever picked up a rock or gazed at the moon with a sense of wonder Land Reform and Working-Class Experience in Britain and the United States, 1800-1862 Jamie L.

Bronstein,1999 By exploring in detail land reform movements in Britain and the United States this book transcends traditional labor history and conceptions of class to deepen our understanding of the social political and economic history of both countries in the nineteenth century Although divided by their diverse experiences of industrialization and living in countries with different amounts of available land many working people in both Britain and the United States dreamed of free or inexpensive land to release them from the grim conditions of the 1840 s depressing overcrowded cities low wages or unemployment and stifling lives Focusing on the Chartist Land Company the Potters Joint Stock Emigration Society and the American National Reform movement this study analyses the ideas that motivated workers to turn to land reform the creation of working class land reform cultures and identities among both men and women and the international communication that enabled the formation of a transatlantic movement Though there were similarities in the ideas behind the land reform movements in their organizational strategies and in their relationships with other reform movements in the two countries the author s examination of their grassroots constituencies reveals key differences In the United States land reformers included small proprietors as well as artisans and factory workers In Britain by contrast at least a quarter of Chartist Land Company participants lived in cotton manufacturing towns strongholds of unpropertied workers and radical activity When the land reform movements came into contact with the organs of the press and government the differences in membership became crucial The Chartist Land Company was repressed by a government alarmed at the prospect of workers autonomy and the Potters Joint Stock Emigration Society died the natural death of straitened finances but the American land reform movement experienced some measure of success so much so that during the revolution in American political parties during the 1850 s land reform once a radical issue became a mainstream plank in the Republican platform

Warren, Jarrell, and Lowell Joan Romano Shifflett, 2020-06-03 Robert Penn Warren Randall Jarrell and Robert Lowell maintained lifelong well documented friendships with one another often discussing each other's work in private correspondence and published reviews Joan Romano Shifflett's *Warren Jarrell and Lowell Collaboration in the Reshaping of American Poetry* traces the artistic and personal connections between the three writers Her study uncovers the significance of their parallel literary development and reevaluates dominant views of how American poetry evolved during the mid twentieth century Familiar accounts of literary history most prominently the celebration of Lowell's *Life Studies* as a revolutionary breakthrough into confessional poetry have obscured the significance of the deep connections that Lowell shared with Warren and Jarrell They all became quite close in the 1930s with the content and style of their early poetry revealing the impact of their mentors John Crowe

Ransom and Allen Tate whose aesthetics the three would ultimately modify and transform The three poets achieved professional maturity and success in the 1940s during which time they relied on one another's honest critiques as they experimented with changes in subject matter and modes of expression Shifflett shows that their works of the late 1940s were heavily influenced by Robert Frost This period found Warren Jarrell and Lowell infusing ostensibly simple verse with multifaceted layers of meaning capturing the language of speech in diction and rhythm and striving to raise human experience to a universal level During the 1950s the three poets became public figures producing major works that addressed the nation's postwar need to reconnect with humanity Warren Jarrell and Lowell continued to respond in interlocking ways throughout the 1960s with each writer using innovative stylistic techniques to create a colloquy with readers that directed attention away from superficial matters and toward the important work of self reflection Drawing from biographical materials and correspondence along with detailed readings of many poems Warren Jarrell and Lowell offers a compelling new perspective on the shaping of twentieth century American poetry **Principles of Political Science** A C Kapur,1997 For Graduate and Post Graduate Students of Indian Universities and also useful for competitive examinations

Anglia ,1895 Lines that Divide James A. Delle,Stephen A. Mrozowski,Robert Paynter,2000 The division of human society by race class and gender has been addressed by scholars in many of the social sciences Now historical archaeologists are demonstrating how material culture can be used to examine the processes that have erected boundaries between people Drawing on case studies from around the world the essays in this volume highlight diverse moments in the rise of capitalist civilization both in Western Europe and its colonies In the first section the contributors address the dynamics of the racial system that emerged from European colonialism They show how archaeological remains shed light on the institution of slavery in the American Southeast on the treatment of Native Americans by Mormon settlers and on the color line in colonial southern Africa The next group of articles considers how gender was negotiated in nineteenth century New York City in colonial Ecuador and on Jamaican coffee plantations A final section focuses on the issue of class division by examining the built environment of eighteenth century Catalonia and material remains and housing from early industrial Massachusetts These essays constitute an archaeology of capitalism and clearly demonstrate the importance of history in shaping cultural consciousness Arguing that material culture is itself an active agent in the negotiation of social difference they reveal the ways in which historical archaeologists can contribute to both the definition and dismantling of the lines that divide

Crowell's Handbook of Contemporary American Poetry Karl Malkoff,1973 Critically examines literary theories poets

works and the development of such modern poetic movements and schools as Projectivism the New York Poets Confessionalism Deep Imagism and the New Black Aesthetic **Midcentury Quartet** Thomas J. Travisano, 1999-12-29 In a February 1966 letter to her artistic confidant Robert Lowell Elizabeth Bishop tellingly grouped four midcentury poets Lowell Randall Jarrell John Berryman and herself For Bishop always wary of being pigeonholed and therefore reticent about naming her favorite contemporaries it was a rare explicit acknowledgment of an informal but enduring artistic circle that has evaded the notice of literary journalists for more than forty years Despite the private nature of their dialogue the group's members Bishop Lowell Jarrell and Berryman left a compelling record of their mutual interchange and influence Drawing on an extensive range of published and archival sources Thomas Travisano traces these poets' creation of a surprisingly coherent postmodern aesthetic and defines its continuing influence on American poetry The refusal of this midcentury quartet as Travisano calls them to voice a formalized doctrine coupled with their intuitive way of working has caused critics to miss the coherence of their project Travisano argues that these poets are not only successors to Pound Auden Stevens and Eliot but postmodern explorers in their own right In forging their own aesthetic characterized here as a postmodern mode of elegy they encountered significant resistance from their immediate modernist mentors Allen Tate John Crowe Ransom and Marianne Moore Jarrell whom others of the group regarded as a critic of particular genius was first described as a postmodernist in a 1941 review by Ransom that Travisano cites as the earliest known use of the term In Jarrell's review of Lowell's *Lord Weary's Castle* six years later he named Lowell a postmodernist and identified traits among them the use of pastiche that are now considered by theorists such as Fredric Jameson as specifically postmodern And Bishop's inventiveness allowed her to adapt a self-exploratory mode often but imprecisely termed confessional to challenging forms such as the double sonnet villanelle and sestina Each of these poets suffered a devastating loss during childhood and lived through the twentieth century disasters of the Great Depression World War II and the Holocaust and the cold war The continual tension in their poetry between subjectivity and form claims Travisano reflects the plight of the fractured individual in a postmodern world By arguing so sharply for the importance of this circle Midcentury Quartet is certain to redraw the map of postwar American poetry
