*Women Scientists in America* Margaret W. Rossiter, 1998-09-29 Winner of the Pfizer Award for Outstanding Book in the History of Science Margaret Rossiter's widely hailed *Women Scientists in America: Struggles and Strategies to 1940* marked the beginning of a pioneering effort to interpret the history of American women scientists That effort continues in this provocative sequel that covers the crucial years of World War II and beyond Rossiter begins by showing how the acute labor shortage brought on by the war seemed to hold out new hope for women professionals especially in the sciences But the public posture of welcoming women into the scientific professions masked a deep seated opposition to change Rossiter proves that despite frustrating obstacles created by the patriarchal structure and values of universities government and industry women scientists made genuine contributions to their fields grew in professional stature and laid the foundation for the breakthroughs that followed 1972 Lee Smith, Annie Dillard, and the Hollins Group Louisiana State University Press, 1999-09 This work examines the history of Hollins College which by the 1950s had set itself up as a school with a significant women's writing programme It examines the influence of the mentors in the 1960s and the writers themselves such as Lee Smith and Annie Dillard Resources in Education, 1986 Institutions of Higher Education Linda Sparks, 1990-01-24 This bibliography brings together in one comprehensive volume citations of books dissertations theses and ERIC microfiche relating to the history of specific institutions of higher education worldwide All types of postsecondary institutions two years colleges liberal arts colleges seminaries specialized institutions and universities are included Entries include the following elements when available author editor title place of publication publisher publication date and number of pages Citations from 85 countries are included Entries are by country dependency and territory The United States has been further divided by state Names of institutions are in English References are in the language in which they were written The majority of the citations should be available in a library somewhere in the United States Obscure sources that may be difficult to obtain have been included because they are often the only citation All editions of a title as well as older works are included because of their potential value to a researcher The book should be a part of all college university and large public library collections College of Education faculty members specializing in higher or comparative education will find much of value here **Making Haste Slowly** David G. Sansing, 2011-09-05 A comprehensive history that reveals the intrusion of culture and politics into higher education in Mississippi *Golden Days* Mississippi University for Women Southern Women's Institute, 2009 Fond recollections from students who attended America's first public college for women from 1926 to 1957 **Adventures Abroad** Sandra L. Singer, 2003-04-30 In the period between the Civil War and World War I German universities provided North American women with opportunities in graduate and professional training that were not readily available to them at home This training allowed women to compete to a greater degree with men in increasingly professionalized fields In return for such opportunities these women played a key role in opening up German universities to

all women Many devoted the rest of their lives to creating better research and graduate opportunities for other women forever changing the course of higher education in North America This study provides accounts of the incredible barriers encountered by these first women students in Europe It documents their perseverance and hard won triumphs and includes as well the stories of the progressive men who mentored them and fought for their rights to higher education Never before has documentation of so many North American students at German speaking universities been included in one volume This collection of stories from women across disciplines makes it possible to assess the truly remarkable nature of their combined contributions to higher education and research in North America and Europe     **Women Studies Abstracts** ,1986     *The North Carolina Historical Review* ,1993     The United States South Valeria Gennaro Lerda,Tjebbe A.
