## **Luce Di Venezia:**

*Opere* Niccolò Machiavelli, 1820      **The Shipwreck at Gnalić** Irena Radić Rossi, Mariangela Nicolardi, Mauro Bondioli, Katarina Batur, 2021-12-23 Unlike official history which takes long and impersonal strides through the past this book describes individual human destinies that convey the story of the late Renaissance period throughout Europe and the Mediterranean as uncovered at the site of the shipwreck at Gnali Croatia      **Dissemination of Music** Hans Lenneberg, 2014-03-18 The contributors are leading scholars from the United States Canada Great Britain and Italy The essays examine the history of music publishing from its inception to the early twentieth century The Dissemination of Music provides new insight into the social history of music illustrating how certain types of music were made popular because publishers made them more available and how the reputations of composers were made or broken by the whims of publishers This important reference work will interest scholars and students in all areas of music This collection brings the history of music publishing into the realm of social history looking beyond the printing process to examine why and for whom music publishers produced their work The book shows how technological limitations and printers and publishers preferences significantly influenced musical tastes in Europe from medieval times to the modern age      **Cardinal Pietro Ottoboni (1667-1740) and the Vatican Tomb of Pope Alexander VIII** Edward J. Olszewski, 2004 Examines the commission of the Vatican tomb of Pope Alexander VIII Ottoboni by his great nephew Cardinal Pietro Ottoboni Although neglected for centuries the Ottoboni monument occupies the most strategic liturgical position in the complex of tombs in the Vatican basilica It is impressive in scale offers a commanding presence on the path from the papal entryway to the apse main altar with a majestic papal effigy a visually compelling narrative relief carving symbolically important allegories Using unpublished archival documents in the Vatican Lateran archives this study discusses in detail the 30 year campaign for the construction of the tomb identifies the artists artisans responsible for the project The monograph is comprehensive in its stylistic analysis exploration of iconography discussion of liturgical practice consideration of studio procedures beginning with patron artist architect sculptors sculptor artisans reveals why the project required three decades to complete A well written informative important monograph And in the process he has expanded our understanding of contemporary workshop practice and art making in the Rome of the later Baroque period There are sections where the author's meticulous care insightful reconstruction of events gives the reader a sense of being there in the day to day process of work on the site These parts make for especially exciting and engaging reading An absolutely wonderful piece of work      *The Birth of the Despot* Lucette Valensi, 2018-05-31 In her graceful account of the transformation of European attitudes toward the Ottoman empire during the sixteenth and seventeenth centuries Lucette Valensi follows the genealogy of the concept of Oriental despotism The Birth of the Despot examines a crucial moment in the long and ambiguous encounter between the Christian and Islamic worlds the period after the fall of Constantinople to the Turks when Venice's pursuit of its commercial and maritime interests brought

two powerful protagonists Venice and the Sublime Porte face to face Vivaldi's oratorio *Juditha Triumphans* in which Judith liberates her besieged town by killing the Turk Holofernes serves as the organizing metaphor in Valensi's study of how Venice's perceptions of its rival changed Valensi shows how Venice's initial admiration for the sultan and his orderly empire metamorphosed into revulsion at a monstrous tyrant Gunpowder, Explosives and the State Brenda J.

Buchanan, 2016-12-05 Gunpowder studies are still in their infancy despite the long standing civil and military importance of this explosive since its discovery in China in the mid ninth century AD In this second volume by contributors who meet regularly at symposia of the International Committee for the History of Technology ICOHTEC the research is again rooted in the investigation of the technology of explosives manufacture but the fact that the chapters range in scope from the Old World to the New from sources of raw materials in south east Asia to the complications of manufacture in the West shows that the story is more than the simple one of how an intriguing product was made This volume is the first to develop the implications of the subject not just in the sense of relating it to changing military technologies but in that of seeing the securing of gunpowder supplies as fundamental to the power of the state and imperial pretensions The search for saltpetre for example an essential ingredient of gunpowder became a powerful engine of sea going European trade from the early seventeenth century Smaller states like Venice were unable to form these distant connections and so to sustain a gunpowder army Stronger states like France and Britain were able to do so and became even more powerful as the demand for improved explosives fostered national strengths leading to a development of the sciences especially chemistry in the former case and of manufacturing techniques in the latter , Venice's Secret Service Ioanna Iordanou, 2019-10-28 Venice's Secret Service

is the untold and arresting story of the world's earliest centrally organised state intelligence service Long before the inception of SIS and the CIA in the period of the Renaissance the Republic of Venice had masterminded a remarkable centrally organised state intelligence organisation that played a pivotal role in the defence of the Venetian empire Housed in the imposing Doge's Palace and under the direction of the Council of Ten the notorious governmental committee that acted as Venice's spy chiefs this proto modern organisation served prominent intelligence functions including operations intelligence and covert action analysis cryptography and steganography cryptanalysis and even the development of lethal substances Official informants and amateur spies were shipped across Europe Anatolia and Northern Africa conducting Venice's stealthy intelligence operations Revealing a plethora of secrets their keepers and their seekers Venice's Secret Service explores the social and managerial processes that enabled their existence and that furnished the foundation for an extraordinary intelligence organisation created by one of the early modern world's most cosmopolitan states **Giovanni**
