Lucian's True History Lucian of Samosata, 2014-11-13 Example in this ebook It is a commonplace of criticism that Lucian was the first of the moderns but in truth he is near to our time because of all the ancients he is nearest to his own With Petronius he shared the discovery that there is material for literature in the debased and various life of every day that to the seeing eye the individual is more wonderful in colour and complexity than the severely simple abstraction of the poets He replaced the tradition respected of his fathers by an observation more vivid and less pedantic than the note book of the naturalist He set the world in the dry light of truth and since the vanity of mankind is a constant factor throughout the ages there is scarce a page of Lucian's writing that wears the faded air of antiquity His personages are as familiar to day as they were in the second century because with his pitiless determination to unravel the tangled skein of human folly he never blinded his vision to their true qualities And the multiplicity of his interest is as fresh as his penetration Nothing came amiss to his eager curiosity For the first time in the history of literature with the doubtful exception of Cicero we encounter a writer whose ceaseless activity includes the world While others had declared themselves poets historians philosophers Lucian comes forth as a man of letters Had he lived to day he would have edited a newspaper written leading articles and kept his name ever before the public in the magazines For he possessed the qualities if he avoided the defects of the journalist His phrase had not been worn by constant use to imbecility his sentences were not marred by the association of commonness his style was still his own and fit for the expression of a personal view But he noted such types and incidents as make an immediate if perennial appeal and to study him is to be convinced that literature and journalism are not necessarily divorced The profession was new and with the joy of the innovator Lucian was never tired of inventing new genres Romance criticism satire he mastered them all In *Toxaris* and *The Ass* he proves with what delicacy and restraint he could handle the story His ill omened apprenticeship to a sculptor gave him that taste and feeling for art which he turned to so admirable an account He was in fact the first of the art critics and he pursued the craft with an easy unconsciousness of the heritage he bequeathed to the world True he is silent concerning the technical practice of the Greeks true he leaves us in profound ignorance of the art of Zeuxis whose secrets he might have revealed had he been less a man of letters But he found in painting and sculpture an opportunity for elegance of phrase and we would forgive a thousand shortcomings for such inspirations of beauty as the smile of *Sosandra* to In literary criticism he was on surer ground and here also he leaves the past behind His knowledge of Greek poetry was profound Homer he had by heart and on every page he proves his sympathies by covert allusion or precise quotation His treatise concerning the *Writing of History* 1 preserves its force irresistible after seventeen centuries nor has the wisdom of the ages impeached or modified this lucid argument To be
