Communication Issues in Autism and Asperger Syndrome, Second Edition Olga Bogdashina, 2022-07-21 In this updated edition Olga Bogdashina provides a theoretical foundation for understanding communication and language impairments specific to autism. She explores the effects of different perceptual and cognitive styles on the communication and language development of autistic children. She also stresses the importance of identifying each individual's nonverbal language which can be visual, tactile, kinaesthetic, auditory, olfactory or gustatory to establish verbal communication. Reflecting recent research and changes in terminology the book explains why some approaches may work for some autistic children but not for others and the 'What They Say' sections allow the reader to see through the eyes of autistic individuals and understand their language differences first hand. 'What We Can Do to Help' sections throughout the book give practical recommendations for helping autistic individuals use their natural mechanisms to learn and develop social and communicative skills. The final chapters are devoted to assessment and intervention issues with recommendations for selecting appropriate methods and techniques to enhance communication based on the specific mode of communication a person uses. Run Like Duck Mark Atkinson, 2018-11-15 The 2019 Running Awards Best Book A guide to running for the unathletic told by a man who fell into the sport almost by accident. Progressing cautiously on a reluctant and unexpected journey to 100 Marathons and beyond he learned the hard way from years of getting it wrong. Unlikely to break any records or become a national figure for the standards he sets he nonetheless has enhanced his life and fitness taking his long suffering family along with him. In this witty account he writes about his unsteady progress while knocking the stuffing out of running pomposity. *Information Circular*, 1987 Forthcoming Books Rose Arny, 2000 *Lucky Duck* Beryl Ayers, 1997-03 The little duck wasn't scared when he wandered into the wood until he met the fox. Oh dear. Autism and the Edges of the Known World Olga Bogdashina, 2011-01-15 Bogdashina explores theories of sensory perception and communication in autism. Drawing on linguistics, philosophy, neuroscience, psychology, anthropology and quantum mechanics she looks at how the nature of the senses inform an individual's view of the world and how language both reflects and constructs that view.
