Lucky Man Michael J. Fox, 2003-04-09 A funny highly personal gorgeously written account of what it's like to be a 30 year old man who is told he has an 80 year old's disease Life is great Sometimes though you just have to put up with a little more crap Michael J Fox In September 1998 Michael J Fox stunned the world by announcing he had been diagnosed with Parkinson's disease a degenerative neurological condition In fact he had been secretly fighting it for seven years The worldwide response was staggering Fortunately he had accepted the diagnosis and by the time the public started grieving for him he had stopped grieving for himself Now with the same passion humor and energy that Fox has invested in his dozens of performances over the last 18 years he tells the story of his life his career and his campaign to find a cure for Parkinson's Combining his trademark ironic sensibility and keen sense of the absurd he recounts his life from his childhood in a small town in western Canada to his meteoric rise in film and television which made him a worldwide celebrity Most importantly however he writes of the last 10 years during which with the unswerving support of his wife family and friends he has dealt with his illness He talks about what Parkinson's has given him the chance to appreciate a wonderful life and career and the opportunity to help search for a cure and spread public awareness of the disease He is a very lucky man indeed The Michael J Fox Foundation Michael J Fox is donating the profits from his book to the Michael J Fox Foundation for Parkinson's Research which is dedicated to fast forwarding the cure for Parkinson's disease The Foundation will move aggressively to identify the most promising research and raise the funds to assure that a cure is found for the millions of people living with this disorder The Foundation's web site MichaelJFox.org carries the latest pertinent information about Parkinson's disease including A detailed description of Parkinson's disease How you can help find the cure Public Services Announcements that are aired on network and cable television stations across the country to increase awareness Upcoming related Parkinson's disease events and meetings Updates on recent research and developments

Cerulo,2008-09-15 People especially Americans are by and large optimists They re much better at imagining best case scenarios I could win the lottery than worst case scenarios A hurricane could destroy my neighborhood This is true not just of their approach to imagining the future but of their memories as well people are better able to describe the best moments of their lives than they are the worst Though there are psychological reasons for this phenomenon Karen A Cerulo in Never Saw It Coming considers instead the role of society in fostering this attitude What kinds of communities develop this pattern of thought which do not and what does that say about human ability to evaluate possible outcomes of decisions and events Cerulo takes readers to diverse realms of experience including intimate family relationships key transitions in our lives the places we work and play and the boardrooms of organizations and bureaucracies Using interviews surveys artistic and fictional accounts media reports historical data and official records she illuminates one of the most common yet least studied of human traits a blatant disregard for worst case scenarios Never Saw It Coming therefore will be crucial to anyone who wants to understand human attempts to picture or plan the future In Never Saw It Coming Karen Cerulo argues that in American society there is a positive symmetry a tendency to focus on and exaggerate the best the winner the most optimistic outcome and outlook Thus the conceptions of the worst are underdeveloped and elided Naturally as she masterfully outlines there are dramatic consequences to this characterological inability to imagine and prepare for the worst as the failure to heed memos leading up to both the 9 11 and NASA Challenger disasters for instance so painfully reminded us Robin Wagner Pacifici Swarthmore College Katrina 9 11 and the War in Iraq all demonstrate the costliness of failing to anticipate worst case scenarios Never

Saw It Coming explains why it is so hard to do so adaptive behavior hard wired into human cognition is complemented and reinforced by cultural practices which are in turn institutionalized in the rules and structures of formal organizations But Karen Cerulo doesn't just diagnose the problem she uses case studies of settings in which people effectively anticipate and deal with potential disaster to describe structural solutions to the chronic dilemmas she describes so well Never Saw It Coming is a powerful contribution to the emerging fields of cognitive and moral sociology Paul DiMaggio Princeton University *The Principle Dramatic Works of Thomas William Robertson with Memoir* Thomas William Robertson, 1889
